

Jenny

COSMETICS & JEWELLERY

Jenny's Cosmetics & Jewelry Store

EXECUTIVE SUMMARY

Jenny's Cosmetics & Jewelry Store is a fully functional, modern e-commerce platform developed as an APTECH eProject for 2026. The application delivers a seamless shopping experience combining elegant design with robust technical architecture — covering both customer-facing pages and a complete admin management system.

This documentation presents a complete visual walkthrough of all 36 screenshots spanning every page and feature of the system — from the homepage hero to the admin profile settings. Under every screenshot you will find the original key features, a **Functionality** box explaining what happens on that page, and a **How to use** box with step-by-step instructions.

36	5	10+	2026
Screenshots	Technologies	Pages	eProject

1. HOMEPAGE & LANDING PAGE

The homepage is the primary entry point of the website, designed to immediately communicate the brand's premium identity through a full-screen hero, promotional marquee, and featured product grid.

◆ Figure 1.1 — Hero Section

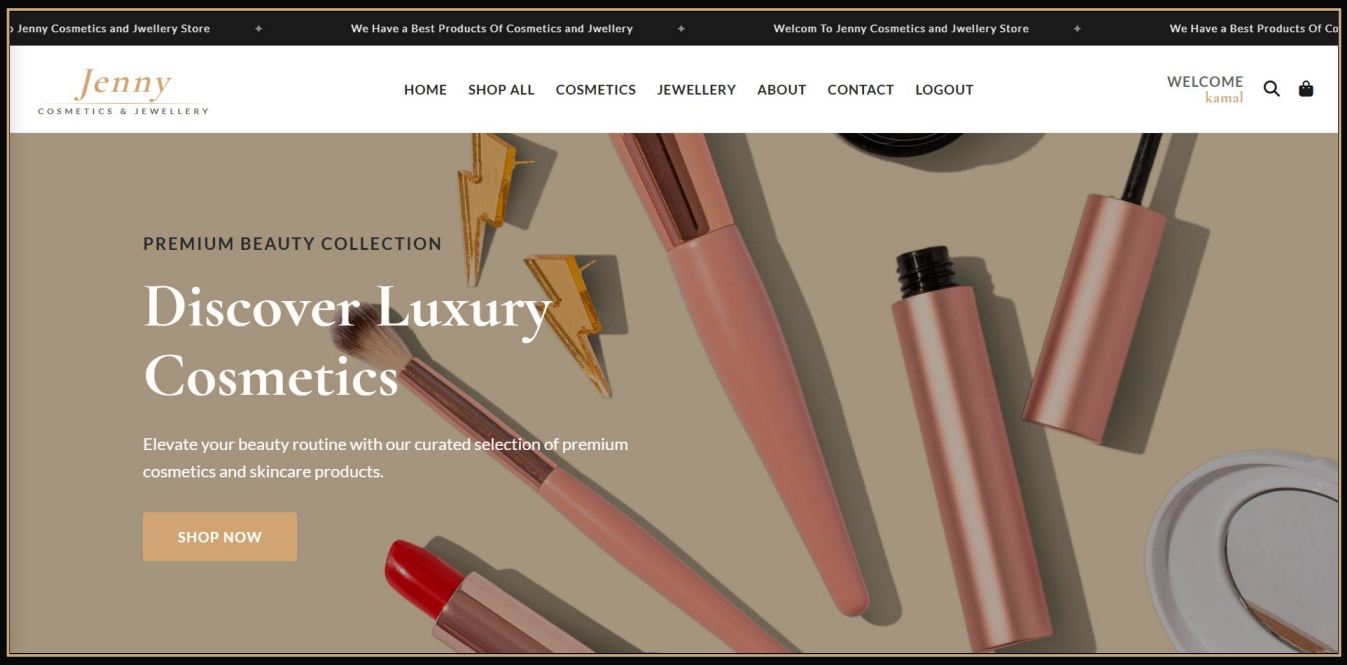

Fig 1.1: Homepage Hero — 'Discover Luxury Cosmetics' with full-screen banner

KEY FEATURES

- Full-screen hero banner with the headline 'Discover Luxury Cosmetics' and a golden 'Shop Now' CTA button
- Sticky top navigation bar with golden Jenny's logo and links: Home, Shop All, Cosmetics, Jewellery, About, Contact
- Scrolling marquee ticker at the very top promoting best products of cosmetics and jewellery
- Professional product photography featuring pink cosmetics and lipsticks against a beige background
- Fully responsive layout — hamburger menu activates on smaller screen sizes

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This is the first screen every visitor sees. The marquee ticker announces the store, the sticky navigation bar gives access to every section of the site, and the search and cart icons stay available at all times. The 'Shop Now' button sends the visitor straight to the full product catalogue. When a customer is logged in, the bar shows a 'Welcome <name>' label and a Logout link instead of Login.

HOW TO USE THIS PAGE

1. Open the website — the homepage loads with the hero banner.
2. Click 'Shop Now' to go to the product catalogue, or use the menu (Home, Shop All, Cosmetics, Jewellery, About, Contact) to jump to any page.
3. Use the search icon to look for a product and the bag icon to open your cart.
4. Use Login / Logout at the top right to sign in or out; on mobile, tap the hamburger menu to see the same links.

◆ Figure 1.2 — Product Cards

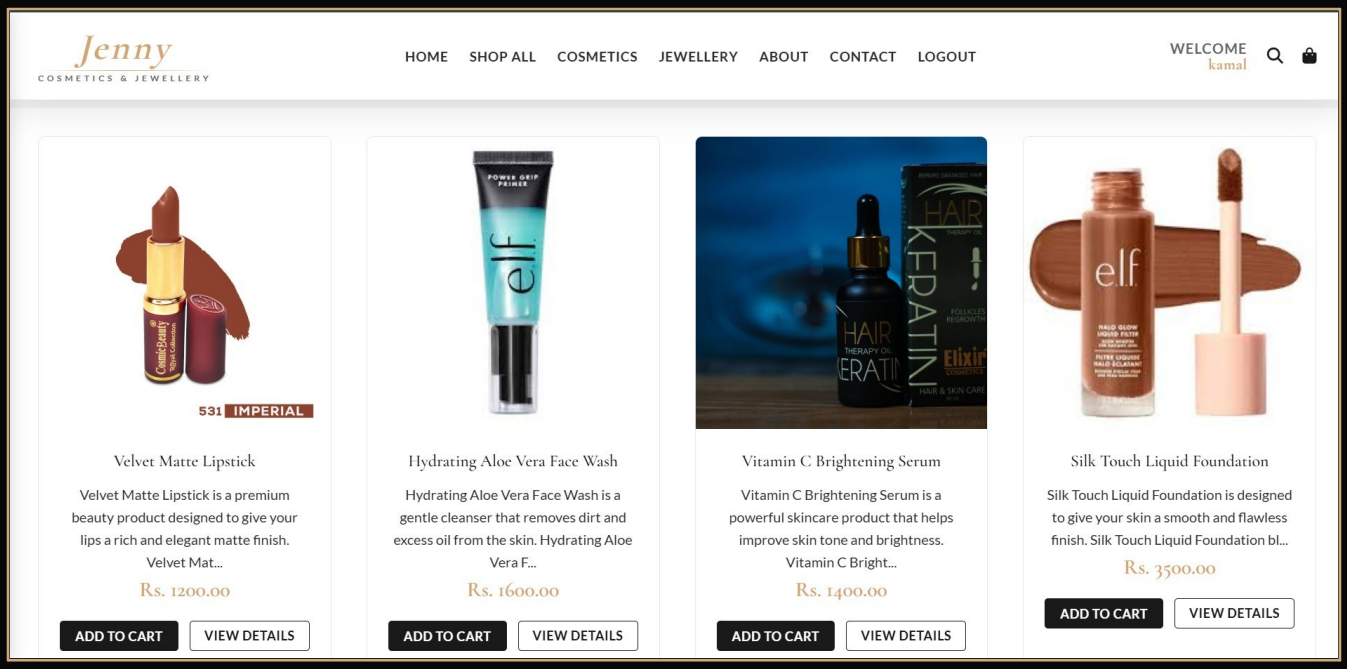

Fig 1.2: Homepage featured product cards with Add to Cart & View Details

KEY FEATURES

- Clean product card layout showing product image, name, short description, and price in Rs.
- Each card has two action buttons: 'Add to Cart' (dark) and 'View Details' (outlined)
- Products shown: Velvet Matte Lipstick, Hydrating Aloe Vera Face Wash, Vitamin C Brightening Serum, Silk Touch Liquid Foundation
- Star rating displayed below product name for social proof
- Consistent card sizing and hover effects for improved user interaction

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Featured products are displayed as cards so customers can compare items quickly. Each card summarises the product (image, name, short description, price). 'Add to Cart' puts the item into the shopping cart, and 'View Details' opens the single product page with the full description and larger images.

HOW TO USE THIS PAGE

1. Scroll down the homepage to the product cards.
2. Click 'View Details' on a card to read the full description and see more images.
3. Click 'Add to Cart' to add the product; the cart icon in the header updates with the item count.
4. Open the cart icon later to review, change quantity, or proceed to checkout.

2. HOMEPAGE — FEATURED PRODUCTS & REVIEWS

The lower section of the homepage includes a featured products carousel showcasing the full catalogue, and a customer review submission form to collect user feedback.

◆ Figure 2.1 — Featured Products Slider

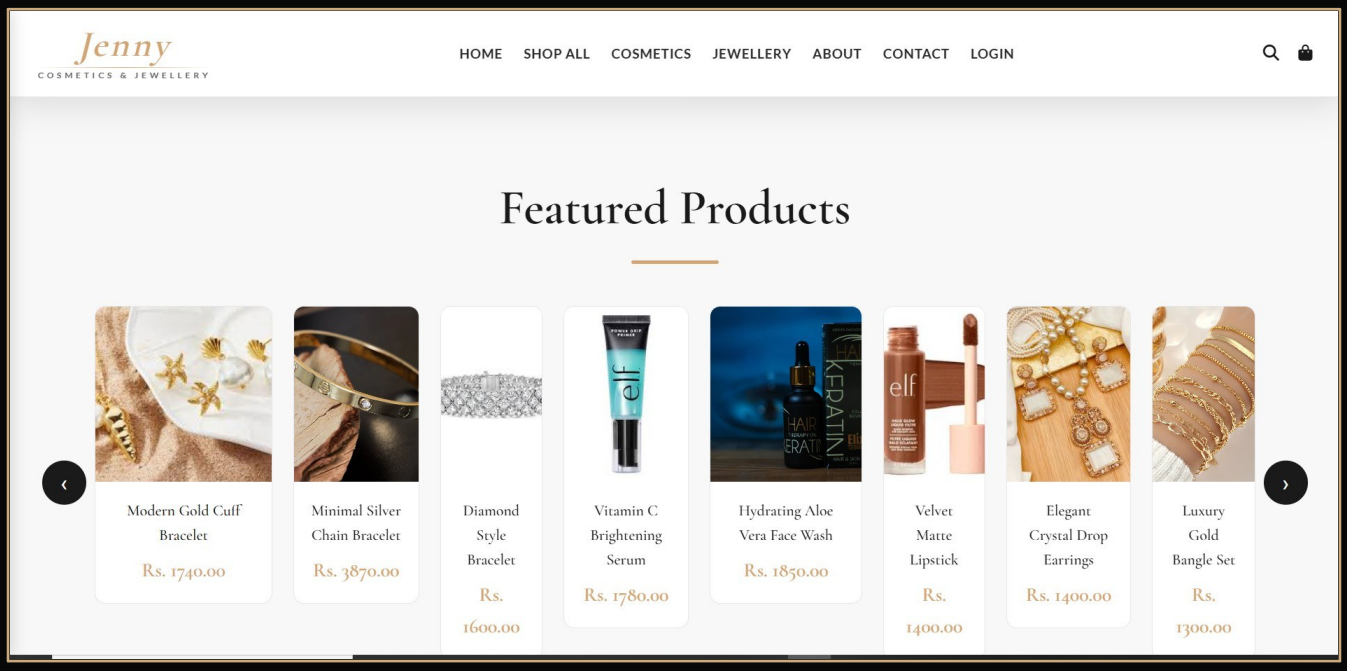

Fig 2.1: Featured Products section with horizontal scroll carousel

KEY FEATURES

- Horizontal scrolling carousel titled 'Featured Products' displaying all categories together
- Products shown include jewellery (bracelets), skincare (serums, face wash), and cosmetics
- Prices clearly shown in Pakistani Rupees (Rs.) below each product card
- Left/right navigation arrows allow customers to scroll through the full product range
- Smooth scroll animation enhances browsing experience on both desktop and mobile

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The carousel mixes jewellery, skincare and cosmetics in one scrolling strip so visitors can discover products from every category without leaving the homepage. Each tile shows the product image, name and price in Rs.

HOW TO USE THIS PAGE

1. Scroll to the 'Featured Products' section on the homepage.
2. Click the left or right arrow button (or swipe on a phone) to move through the products.
3. Click any product to open its details page, then add it to the cart if you like it.

◆ Figure 2.2 — Share Your Experience

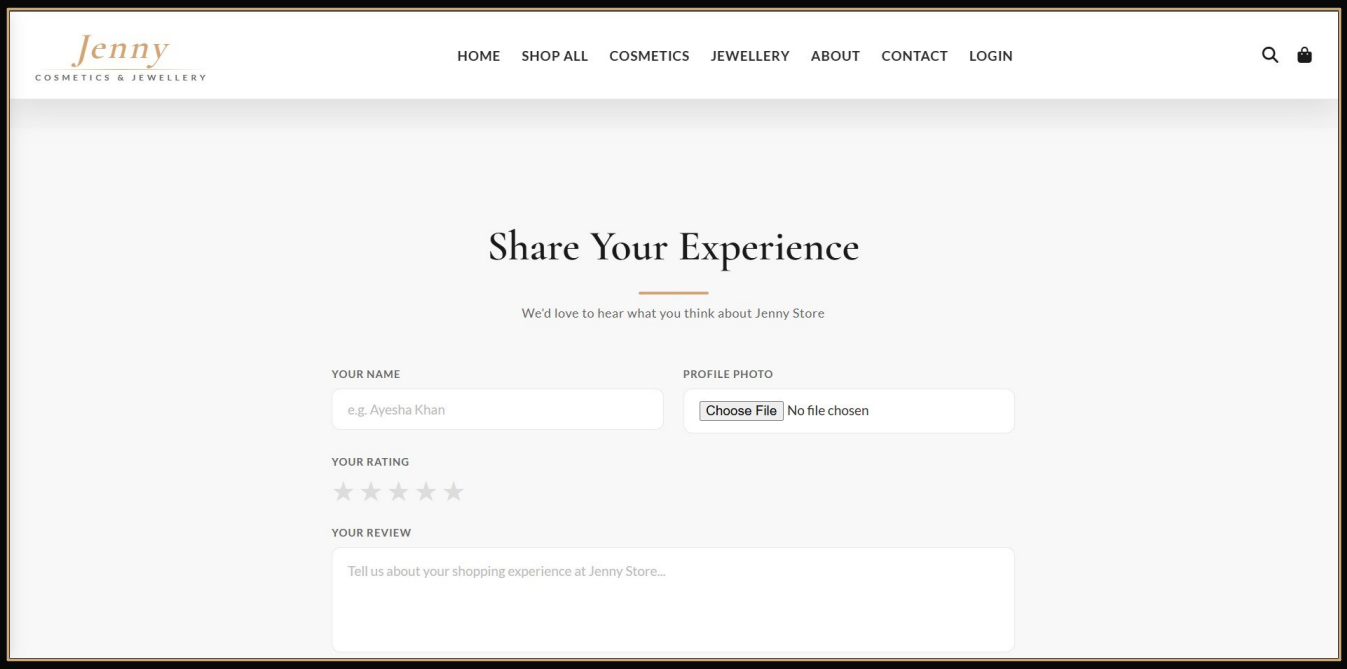

Fig 2.2: Customer review submission form on the homepage

KEY FEATURES

- Review form titled 'Share Your Experience' for customers to leave feedback about Jenny Store
- Input fields: Your Name, Profile Photo upload, Star Rating (1–5 stars), and written Review
- Profile photo upload button allows customers to attach a photo to their review
- Clean minimal design with light background to keep focus on the review form
- Submitted reviews are stored in the database and visible in the admin Reviews panel

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This form collects customer testimonials. The name, optional profile photo, star rating and written review are sent to the server and saved in the database. The admin can then see every submitted testimonial in the Reviews panel of the admin area.

HOW TO USE THIS PAGE

1. Scroll down to 'Share Your Experience'.
2. Type your name and, optionally, choose a profile photo with 'Choose File'.
3. Click the stars to give a rating from 1 to 5.
4. Write your feedback in the review box and press the submit button at the bottom of the form.

3. SHOP ALL PRODUCTS PAGE

The Shop All page presents the complete product catalogue in a unified grid, giving customers the ability to browse every product regardless of category. It includes a hero banner and product listing with filtering options.

◆ Figure 3.1 — Shop All Hero Banner

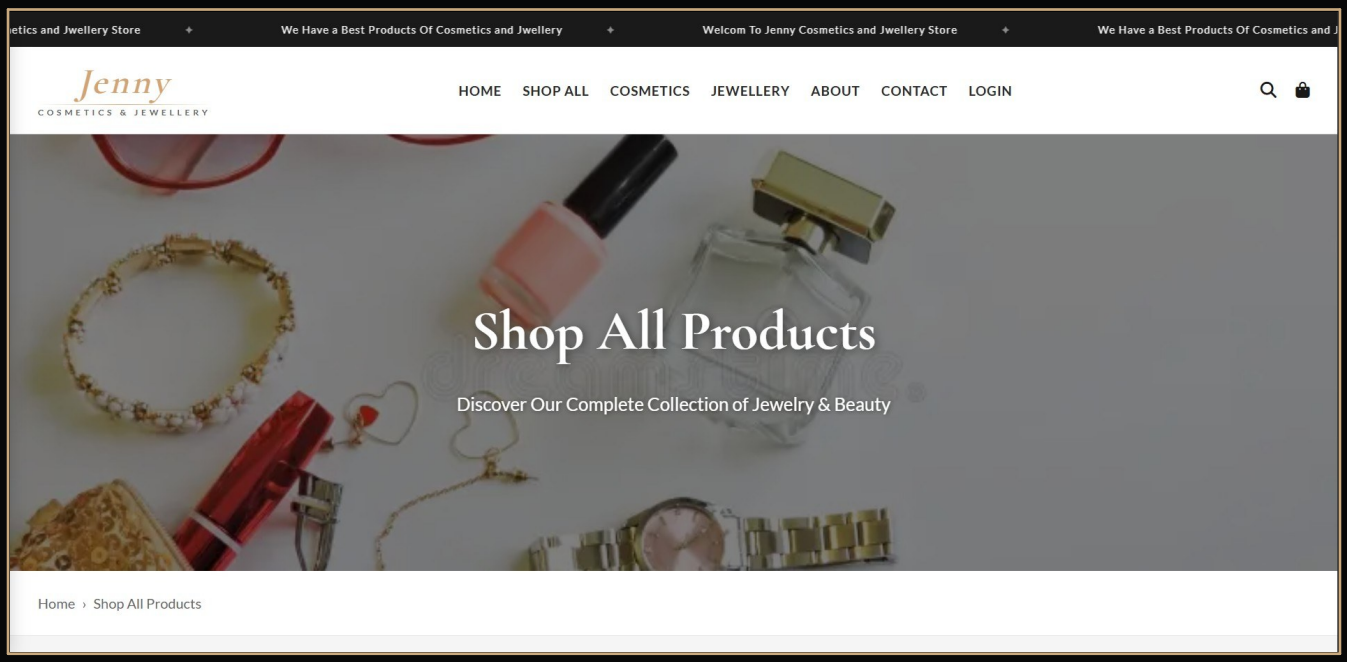

Fig 3.1: Shop All page hero banner — 'Discover Our Complete Collection'

KEY FEATURES

- ✦ Full-width hero banner titled 'Shop All Products' with subtitle 'Discover Our Complete Collection of Jewelry & Beauty'
- ✦ Background image shows a flat-lay arrangement of jewellery and cosmetics products
- ✦ Breadcrumb navigation at bottom-left: Home → Shop All Products for easy back-navigation
- ✦ Marquee promotional ticker at the top consistent with the rest of the website
- ✦ Smooth page load transition animation on the hero section

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This banner introduces the catalogue page and tells the visitor where they are. The breadcrumb (Home › Shop All Products) works as a quick way back to the homepage, and the product grid starts directly below the banner.

HOW TO USE THIS PAGE

1. Click 'Shop All' in the menu (or the 'Shop Now' button on the homepage).
2. Read the banner to confirm you are on the full catalogue page.
3. Scroll down to browse all products, or click 'Home' in the breadcrumb to go back.

◆ Figure 3.2 — Product Grid

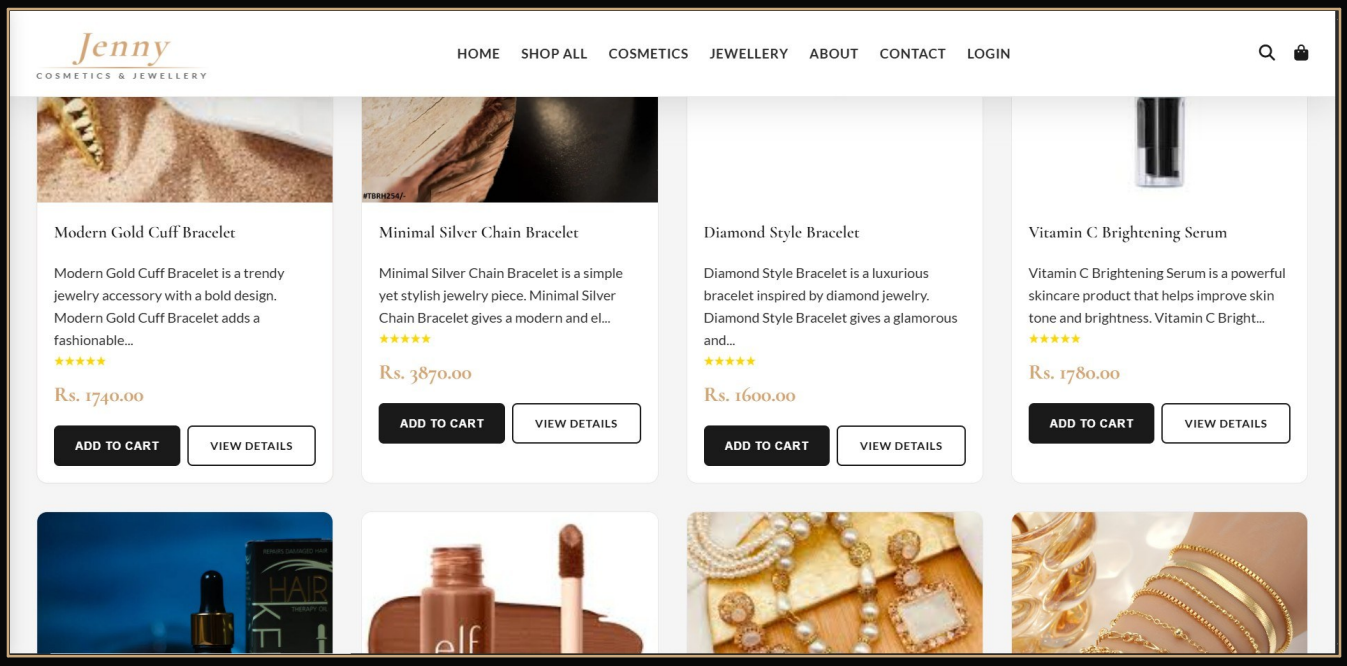

Fig 3.2: Shop All product grid showing jewellery and cosmetics together

KEY FEATURES

- Responsive grid layout displaying all products from both jewellery and cosmetics categories
- Products shown: Modern Gold Cuff Bracelet, Minimal Silver Chain Bracelet, Diamond Style Bracelet, Vitamin C Brightening Serum
- Each card shows product image, name, full description, price in Rs., star rating, and Add to Cart / View Details buttons
- Category badges (e.g. Cosmetics, Jewellery) on each card for quick identification
- Consistent card design with hover shadow effects across the entire grid

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The grid lists every product in the store, whichever category it belongs to. Each card carries a category badge, a short description, the price in Rs. and a star rating, so customers can decide quickly. The grid re-flows automatically for tablets and phones.

HOW TO USE THIS PAGE

1. Scroll through the grid and use the category badge to see whether an item is Cosmetics or Jewellery.
2. Click 'View Details' to open the full product page.
3. Click 'Add to Cart' to put the product in your cart.
4. Use the Cosmetics or Jewellery menu links if you want to see one category only.

4. COSMETICS & BEAUTY PAGE

The Cosmetics page is a dedicated category page for all beauty and skincare products. It features a branded hero banner followed by a clean product grid with full details.

◆ Figure 4.1 — Cosmetics Hero Banner

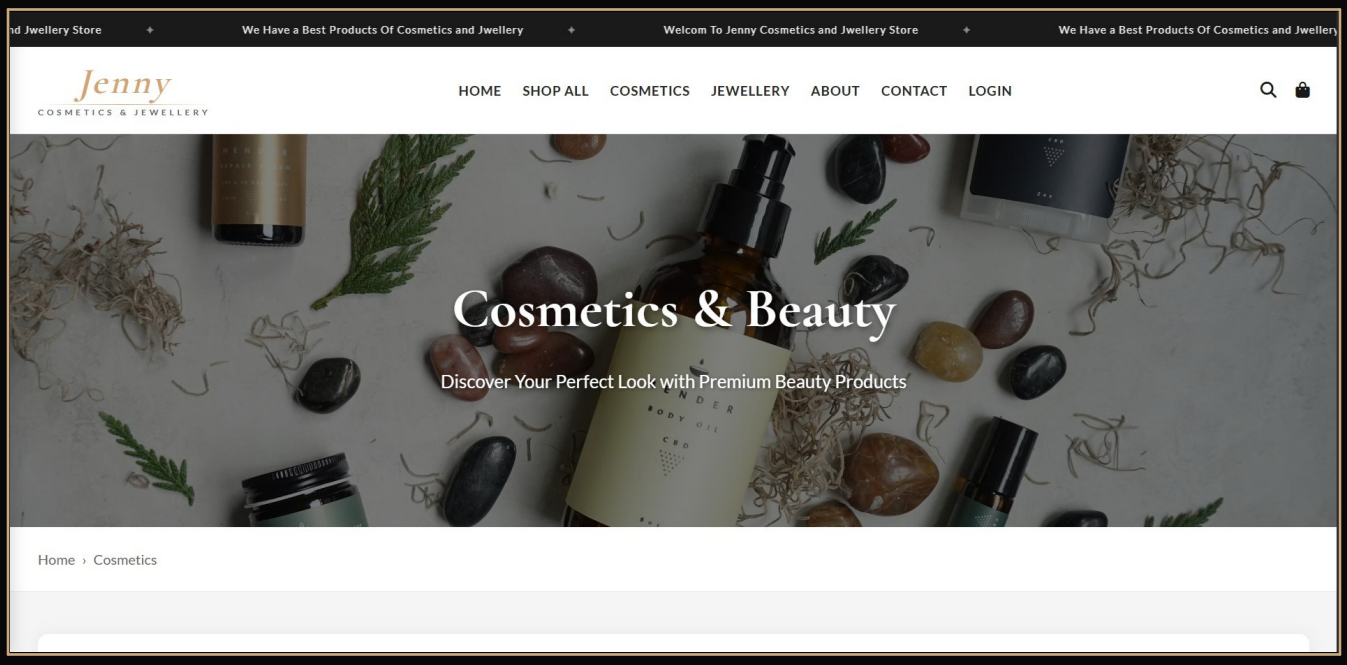

Fig 4.1: Cosmetics & Beauty page hero — 'Discover Your Perfect Look'

KEY FEATURES

- Full-width hero banner titled 'Cosmetics & Beauty' with subtitle 'Discover Your Perfect Look with Premium Beauty Products'
- Background features an elegant flat-lay photo of skincare bottles and organic elements
- Breadcrumb: Home → Cosmetics, helping users understand their navigation path
- Consistent header and marquee design matching the rest of the website
- The soft green/beige photography conveys a natural and premium skincare feel

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This is the landing banner of the Cosmetics category. It confirms the active category and keeps the same header and marquee as every other page so navigation feels consistent.

HOW TO USE THIS PAGE

1. Click 'Cosmetics' in the top menu.
2. Check the breadcrumb (Home › Cosmetics) to confirm your location.
3. Scroll down to see the beauty and skincare products.

◆ Figure 4.2 — Cosmetics Products Grid

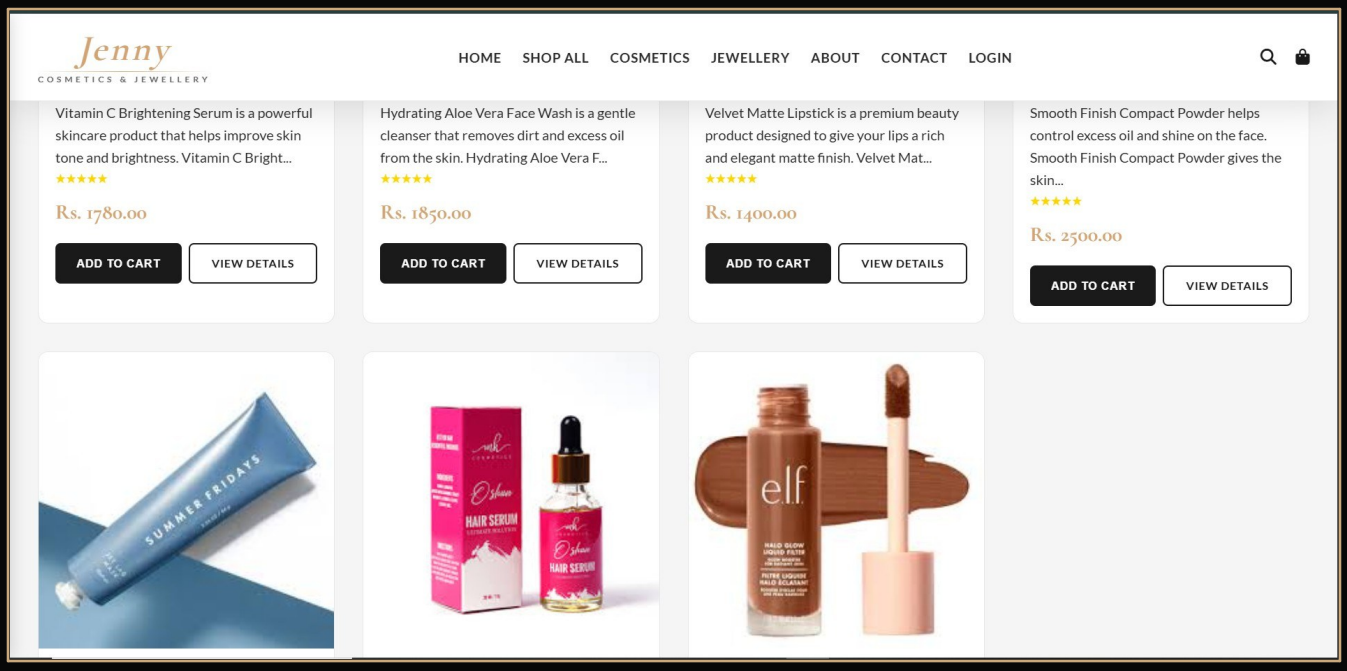

Fig 4.2: Cosmetics product listing with full descriptions and pricing

KEY FEATURES

- Product grid displaying cosmetics only — filtered from the full catalogue automatically
- Products shown: Vitamin C Brightening Serum, Hydrating Aloe Vera Face Wash, Velvet Matte Lipstick, Smooth Finish Compact Powder
- Each card includes product image, full product description, price in Rs., star rating, Add to Cart and View Details buttons
- Branded 'COSMETICS' badge on each card for category identification
- Images are high-quality product photos matching the premium store aesthetic

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The page queries the database for products in the Cosmetics category only and shows them in a grid. Customers who only want beauty and skincare items do not have to scan the entire catalogue.

HOW TO USE THIS PAGE

1. Open the Cosmetics page from the menu.
2. Read the description and price on each card and compare products.
3. Press 'View Details' for more information or 'Add to Cart' to buy the item.

5. ABOUT US PAGE

The About page establishes brand credibility and trust with customers by telling the story of Jenny Store — its history, mission, vision, and core values — supported by professional imagery.

◆ Figure 5.1 — About Hero

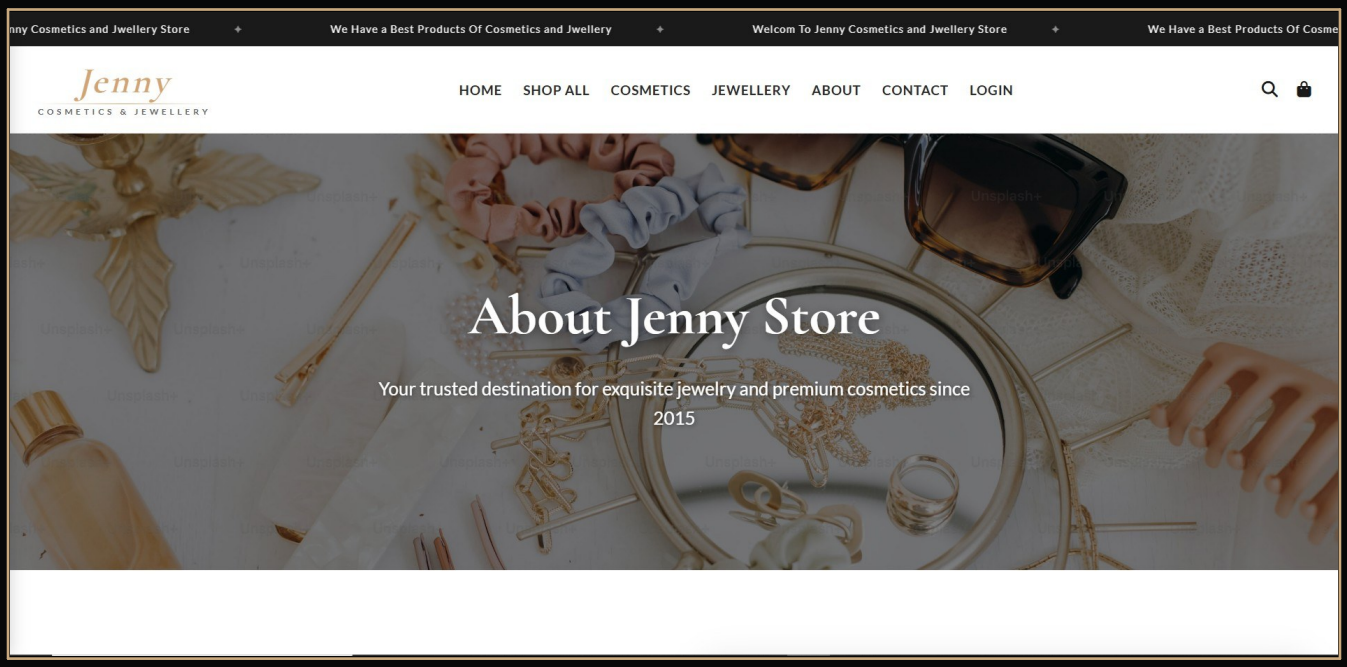

Fig 5.1: About page hero — 'Your trusted destination for jewellery & cosmetics since 2015'

KEY FEATURES

- Hero banner titled 'About Jenny Store' with subtitle highlighting the brand's trust since 2015
- Background shows a gold-toned flat-lay of jewellery and accessories communicating premium quality
- Marquee promotional banner at top consistent with all other pages
- Clean navigation with highlighted 'About' link showing the active page
- Large, bold typography creates a strong first impression on the About page

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The About page opens with a branded banner. The highlighted 'About' item in the menu shows the visitor which page is active. It is a read-only information page with no forms.

HOW TO USE THIS PAGE

1. Click 'About' in the top menu.
2. Scroll down to read the store story, mission, vision, values, statistics and FAQ.

◆ Figure 5.2 — Our Story

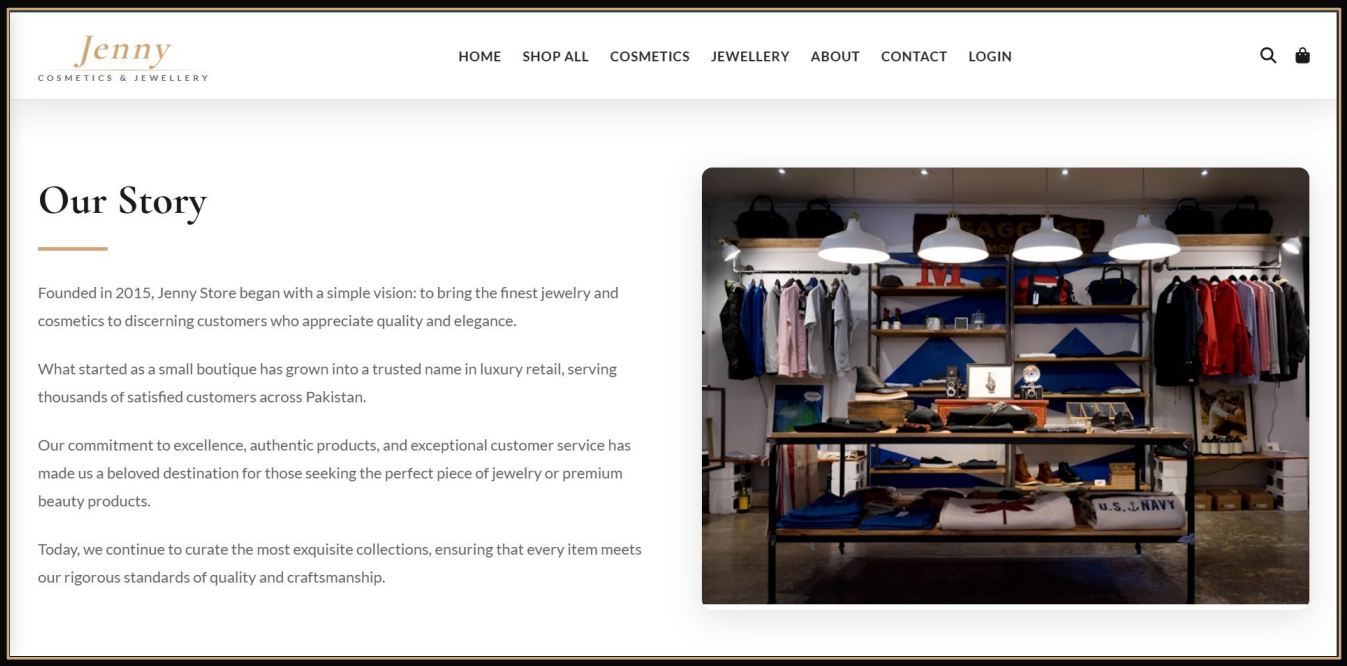

Fig 5.2: Our Story section with company history and store photograph

KEY FEATURES

- Two-column layout: left column has the brand story text, right column shows an actual store photograph
- Story explains how Jenny Store was founded in 2015 with a vision to bring the finest jewellery and cosmetics to discerning customers
- Describes growth from a small boutique to a trusted name serving thousands of satisfied customers across Pakistan
- Professional store interior photo on the right shows a well-stocked clothing/accessories boutique
- Gold underline accent beneath 'Our Story' heading reinforces the premium brand identity

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This section tells how the store started and how it grew. It builds trust by pairing the written history with a photograph of the store. The layout switches to a single column on small screens.

HOW TO USE THIS PAGE

1. Scroll below the About banner to the 'Our Story' section.
2. Read the history on the left and look at the store photo on the right.
3. Continue scrolling to see the Mission & Vision section.

6. ABOUT — MISSION, VISION & VALUES

The lower half of the About page communicates the brand's purpose and principles through a Mission & Vision split layout and a four-pillar Core Values section.

◆ Figure 6.1 — Mission & Vision

Fig 6.1: Mission & Vision section with two-column layout

KEY FEATURES

- Two-column layout with 'Our Mission' on the left and 'Our Vision' on the right
- Mission: To make luxury feel personal — carefully sourcing and curating every product to meet the highest standards of quality and authenticity
- Vision: To redefine the way Pakistan shops for fine jewellery and premium beauty — building a community of confident, elegant individuals
- Clean white background with gold underline accents keeps the section readable and elegant
- Well-spaced typography makes the content easy to read on both desktop and mobile screens

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Two cards explain what the store does today (Mission) and where it wants to go (Vision). The section is purely informational and helps customers understand the values behind the brand.

HOW TO USE THIS PAGE

1. Scroll to 'Mission & Vision' on the About page.
2. Read the Mission card (left) and the Vision card (right).
3. Keep scrolling to the Core Values section.

◆ Figure 6.2 — Core Values

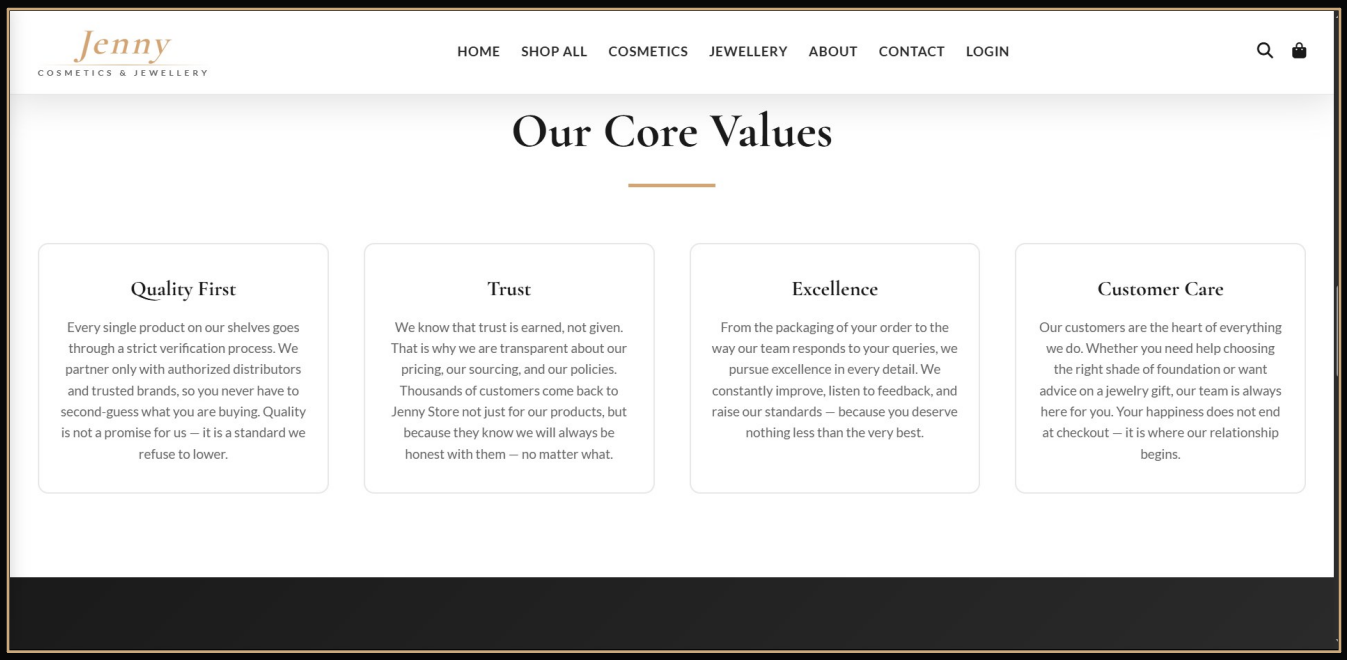

Fig 6.2: Core Values section — Quality First, Trust, Excellence, Customer Care

KEY FEATURES

- Four-column layout showcasing the four core values of Jenny Store
- Quality First: Every product goes through strict verification — partnering only with verified distributors
- Trust: Built through honest pricing, transparent sourcing, and thousands of returning customers
- Excellence: From order packaging to delivery, every step is executed with attention to detail
- Customer Care: Customers are the heart of everything — offering the right shade, size, or product recommendation at checkout

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Four cards present the principles the store promises to follow: Quality First, Trust, Excellence and Customer Care. They reassure shoppers about authenticity, pricing and service.

HOW TO USE THIS PAGE

1. Scroll to 'Our Core Values'.
2. Read each value card from left to right.
3. Scroll further down to see the statistics bar and FAQ.

7. ABOUT — STATS & FAQ

The About page concludes with a statistics bar that highlights key business achievements, followed by a Frequently Asked Questions accordion to address common customer queries.

◆ Figure 7.1 — Stats & FAQ Top

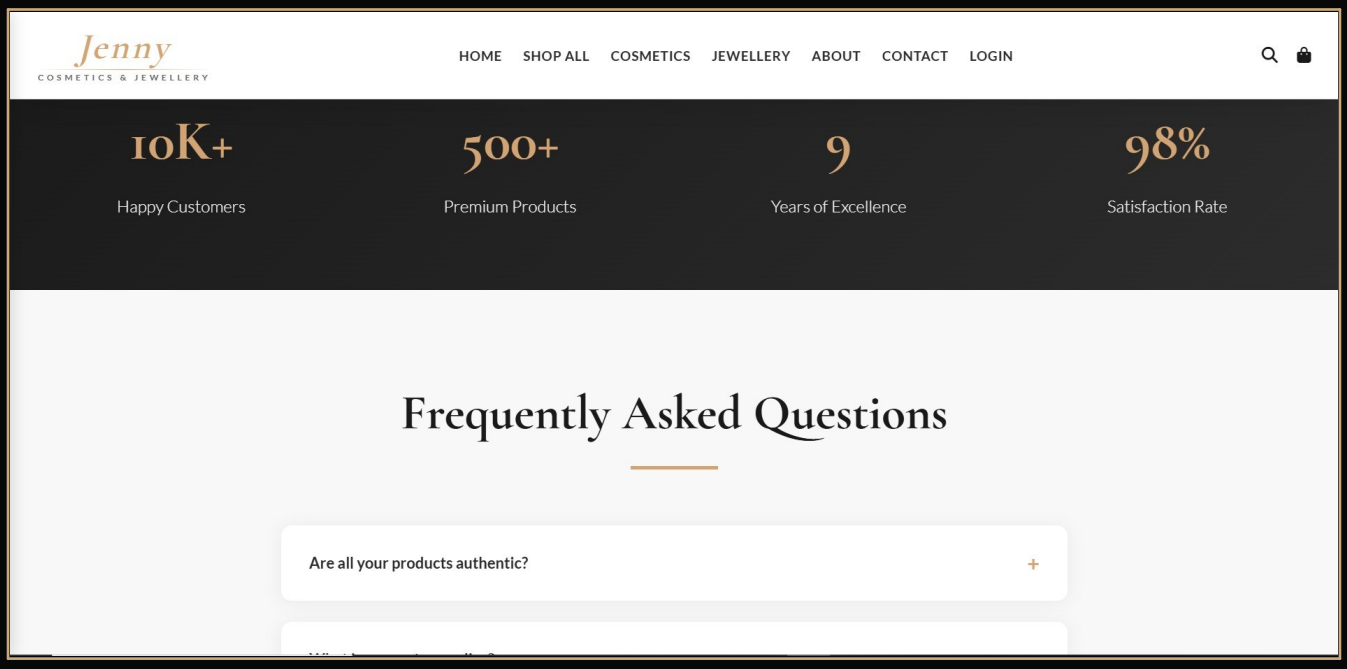

Fig 7.1: Stats bar (10K+ Customers, 500+ Products) and FAQ section

KEY FEATURES

- Dark stats bar prominently displaying: 10K+ Happy Customers, 500+ Premium Products, 9 Years of Excellence, 98% Satisfaction Rate
- Stats use large golden numbers on a dark background for strong visual contrast
- FAQ section below uses an accordion/collapsible design to keep the page uncluttered
- First FAQ visible: 'Are all your products authentic?' — expanded to show the answer
- FAQ answers reinforce quality assurance and brand trust

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The statistics bar summarises the store's achievements at a glance. Below it, the FAQ uses an accordion: only the questions are shown at first, and the answer opens when a question is clicked, which keeps the page short and tidy. The accordion is handled by JavaScript in main.js.

HOW TO USE THIS PAGE

1. Scroll to the dark statistics bar to read the key numbers.
2. In the FAQ list, click a question such as 'Are all your products authentic?' to open its answer.
3. Click the same question (the + icon) again to close it.

◆ Figure 7.2 — FAQ Continued

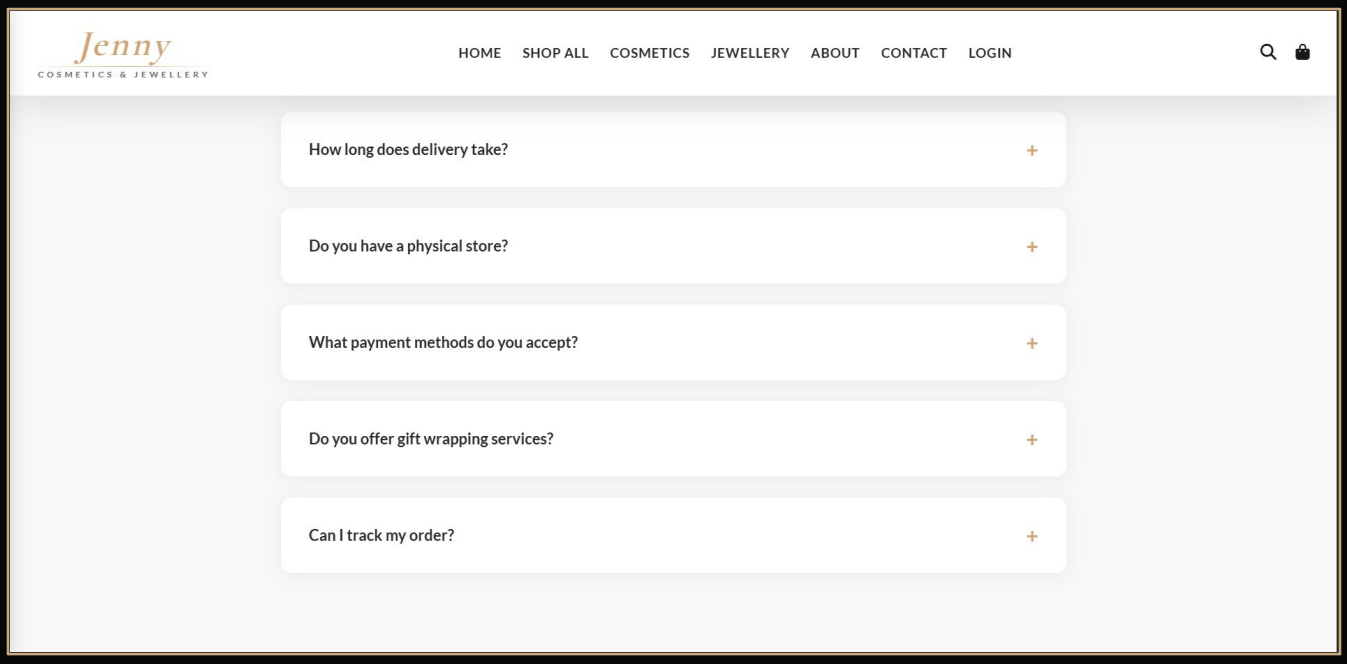

Fig 7.2: Remaining FAQ items covering delivery, store, payments, and tracking

KEY FEATURES

- 'How long does delivery take?' — provides expected delivery timeframe for orders
- 'Do you have a physical store?' — confirms store presence at Clifton, Karachi
- 'What payment methods do you accept?' — lists accepted payment options
- 'Do you offer gift wrapping services?' — describes gift packaging availability
- 'Can I track my order?' — explains the order tracking feature available after purchase

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The remaining FAQ items answer the most common pre-purchase questions about delivery time, the physical store, payment methods, gift wrapping and order tracking, which reduces the number of enquiries sent through the contact form.

HOW TO USE THIS PAGE

1. Scroll down the FAQ list.
2. Click any question to expand its answer.
3. If your question is not listed, go to the Contact page and send a message.

8. CONTACT PAGE

The Contact page provides customers with multiple ways to reach Jenny Store — via phone, email, physical visit, and an online contact form — alongside a newsletter subscription section.

◆ Figure 8.1 — Contact Hero

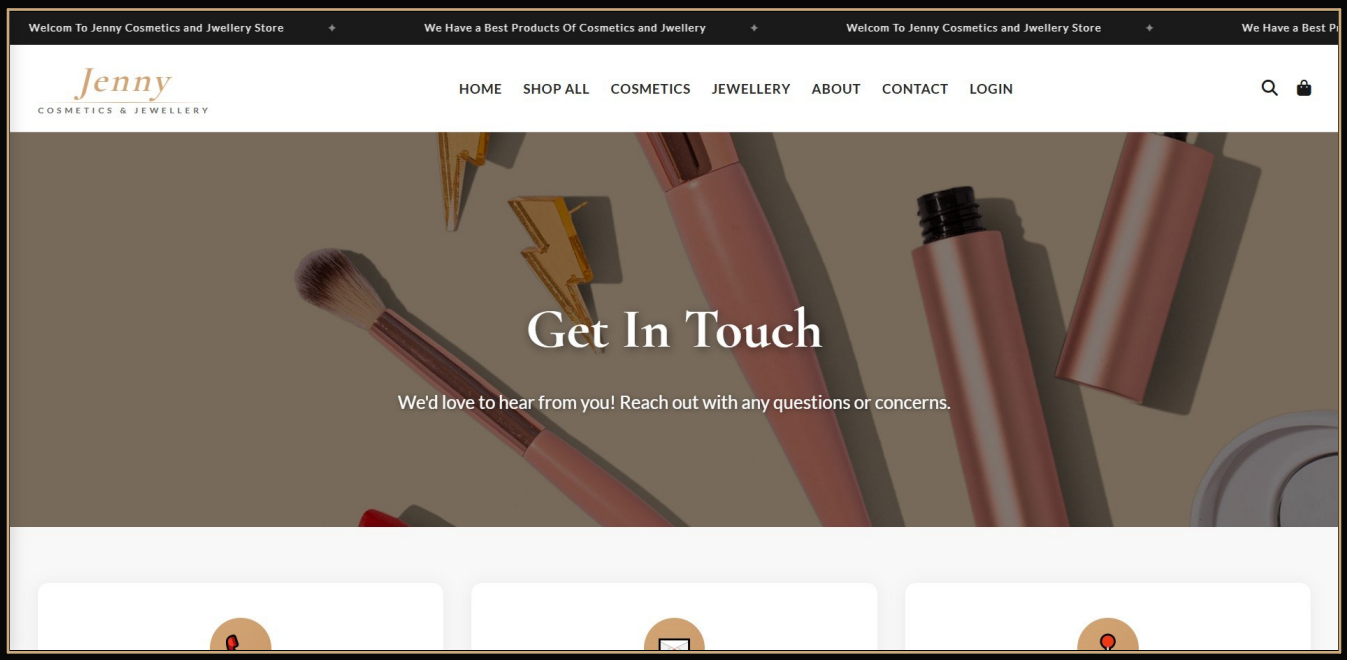

Fig 8.1: Contact page hero banner — 'Get In Touch'

KEY FEATURES

- Hero banner titled 'Get In Touch' with subtitle 'We'd love to hear from you! Reach out with any questions or concerns.'
- Background uses the same product photography as the homepage for visual consistency
- Three quick-info icons below the hero: Phone, Email, and Location for at-a-glance contact details
- Marquee promotional ticker at the top consistent with all other pages
- Minimal and welcoming design encourages customers to reach out

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This banner welcomes visitors to the Contact page. The three icons just below it lead the eye to the phone, email and location cards, so the customer can choose how to get in touch.

HOW TO USE THIS PAGE

1. Click 'Contact' in the top menu.
2. Read the welcome banner, then scroll down to the contact cards and the message form.

◆ Figure 8.2 — Contact Info Cards

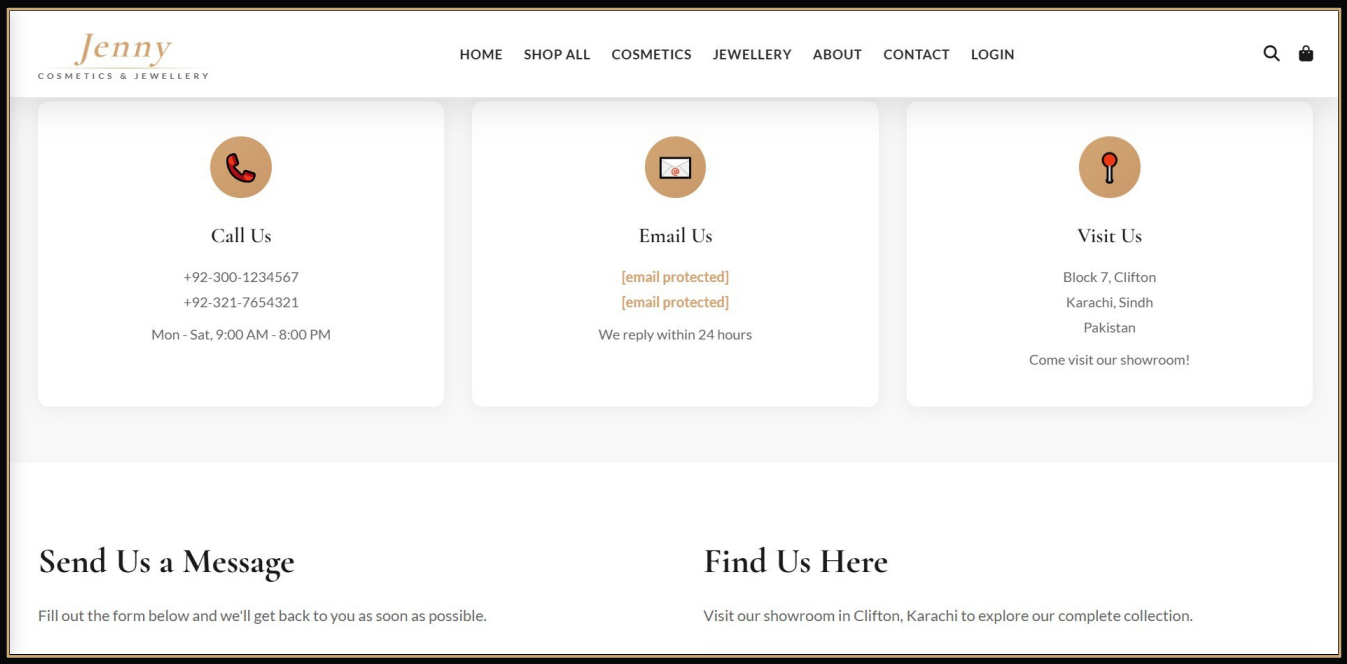

Fig 8.2: Call Us, Email Us, and Visit Us info cards

KEY FEATURES

- Three styled info cards: Call Us, Email Us, Visit Us — each with a colored icon and full details
- Call Us: +92-300-1234567 and +92-321-7654321, available Mon–Sat 9:00 AM – 8:00 PM
- Email Us: Two email addresses shown, replies within 24 hours
- Visit Us: Block 7, Clifton, Karachi, Sindh, Pakistan — come visit our showroom
- Cards use a clean bordered design with soft shadow hover effect

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Three cards list the direct ways to reach the store: two phone numbers with opening hours, two email addresses with the reply time, and the showroom address in Clifton, Karachi.

HOW TO USE THIS PAGE

1. Pick the method you prefer: call during Mon–Sat 9:00 AM – 8:00 PM, send an email, or visit the showroom address.
2. For a written enquiry that is saved for the admin, use the 'Send Us a Message' form below.

9. CONTACT — MESSAGE FORM & NEWSLETTER

The lower contact page section provides a full message form for direct inquiries and a newsletter subscription banner for customers to stay updated on new products and offers.

◆ Figure 9.1 — Send a Message Form

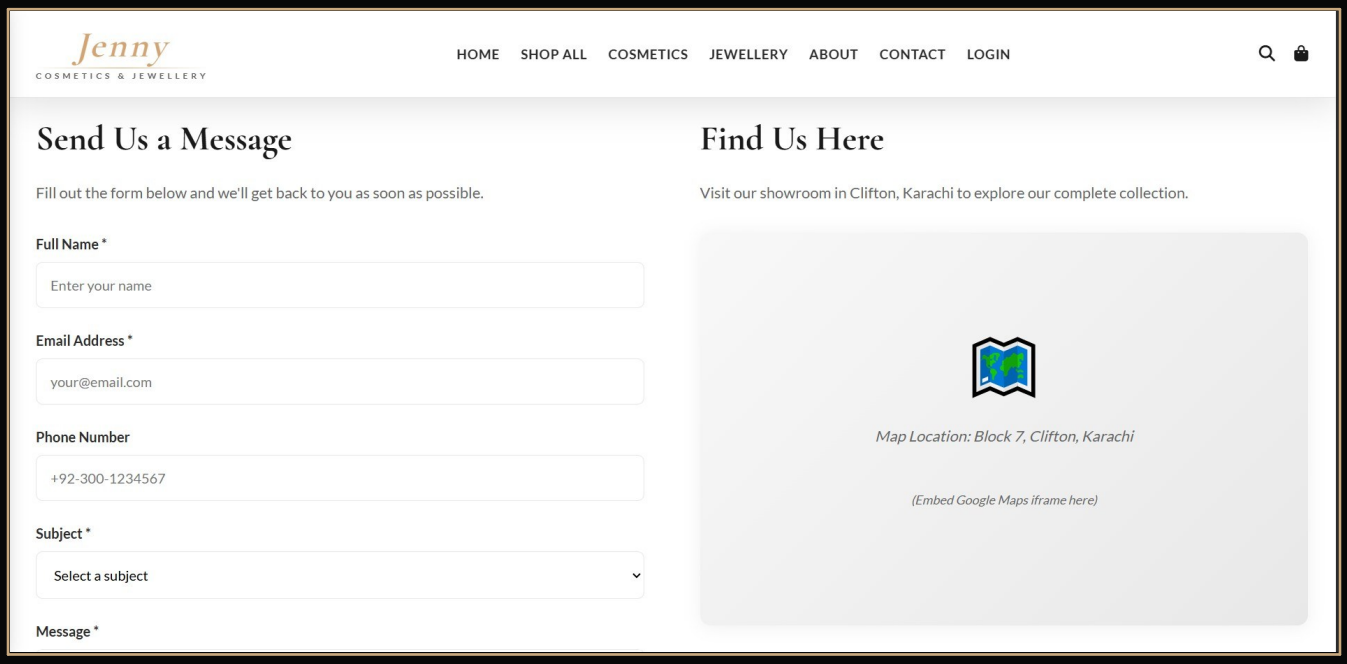

Fig 9.1: Contact form with Full Name, Email, Phone, Subject, and Message fields

KEY FEATURES

- Left panel: 'Send Us a Message' form with fields — Full Name, Email Address, Phone Number, Subject (dropdown), and Message
- Right panel: 'Find Us Here' map placeholder showing location at Block 7, Clifton, Karachi with an Embed Google Maps frame link
- All form fields have clean placeholder text and rounded input styling
- Subject dropdown allows customers to categorize their inquiry for faster admin response
- Form submissions are stored in the admin Contact Messages panel for follow-up

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The form sends an enquiry to the store. When it is submitted, the server validates the required fields (marked with *) and saves the message in the database, where the admin can read it in the Contact Messages panel. The right side shows the store location (a Google Maps embed placeholder).

HOW TO USE THIS PAGE

1. Enter your Full Name and Email Address (required fields).
2. Optionally add your phone number.
3. Choose a topic from the Subject dropdown and type your message.
4. Click the submit button; the admin will see your message in the admin panel and can follow up.

◆ Figure 9.2 — Newsletter Subscription

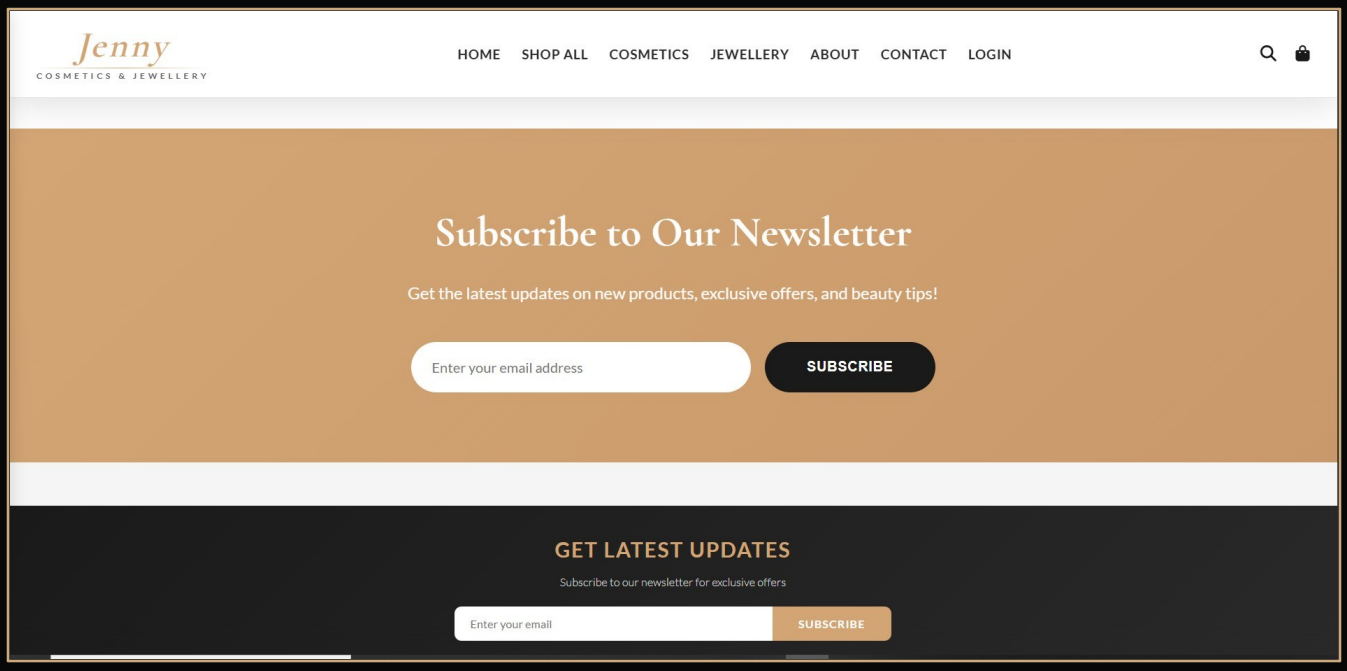

Fig 9.2: Newsletter banner — 'Subscribe to Our Newsletter'

KEY FEATURES

- Golden-background newsletter banner: 'Subscribe to Our Newsletter — Get the latest updates on new products, exclusive offers, and beauty tips!'
- Single email input field with a dark 'Subscribe' button for quick sign-up
- Second subscription widget at the bottom footer area labeled 'Get Latest Updates'
- Clean two-tone design: golden top section and dark footer section for contrast
- Newsletter feature keeps customers engaged with new arrivals and promotions

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Visitors can leave their email address to hear about new products, offers and beauty tips. The same subscription box appears in the footer of the site so it is reachable from every page.

HOW TO USE THIS PAGE

1. Type your email address in the input field.
2. Click the dark 'Subscribe' button.
3. You can use either the golden banner or the 'Get Latest Updates' box in the footer — both do the same thing.

10. SHOPPING CART & CHECKOUT

The Cart and Checkout pages handle the complete purchase flow — allowing customers to review items, update quantities, and complete their order with full shipping details.

◆ Figure 10.1 — Shopping Cart

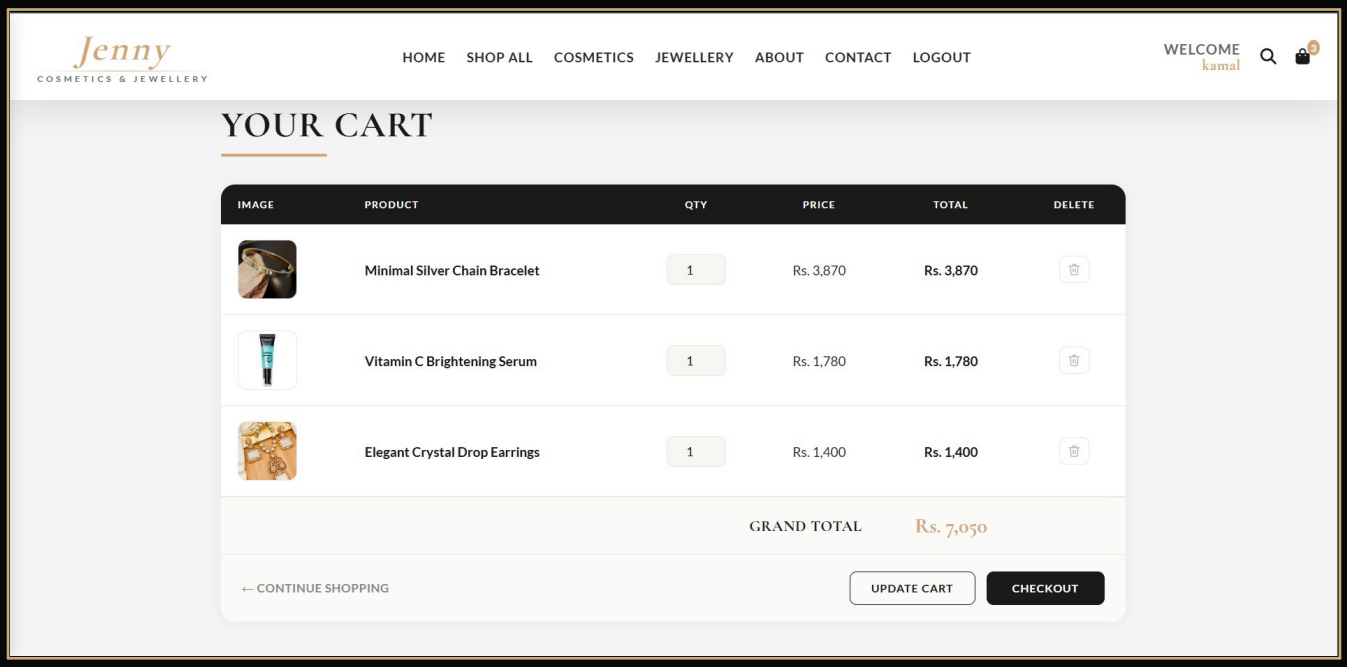

Fig 10.1: Your Cart page showing items, quantities, prices, and Grand Total

KEY FEATURES

- Cart page titled 'Your Cart' with a table showing: Image, Product, Qty, Price, Total, and Delete columns
- Items shown in cart: Minimal Silver Chain Bracelet (Rs. 3,870), Vitamin C Brightening Serum (Rs. 1,780), Elegant Crystal Drop Earrings (Rs. 1,400)
- Grand Total prominently displayed in gold at the bottom right: Rs. 7,050
- 'Continue Shopping' link on left, 'Update Cart' and 'Checkout' buttons on right
- Quantity can be updated directly in the table — changes reflected in the total on Update Cart click

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The cart lists every product the customer has added, with its quantity, unit price and line total, and calculates the Grand Total. From here the customer can change quantities, remove items, go back to shopping, or move on to checkout.

HOW TO USE THIS PAGE

1. Click the bag icon in the header to open the cart.
2. Change the number in the Qty box and click 'Update Cart' to refresh the totals.
3. Click the trash icon in the Delete column to remove a product.
4. Click 'Continue Shopping' to add more items, or 'Checkout' to place the order.

◆ Figure 10.2 — Checkout Form

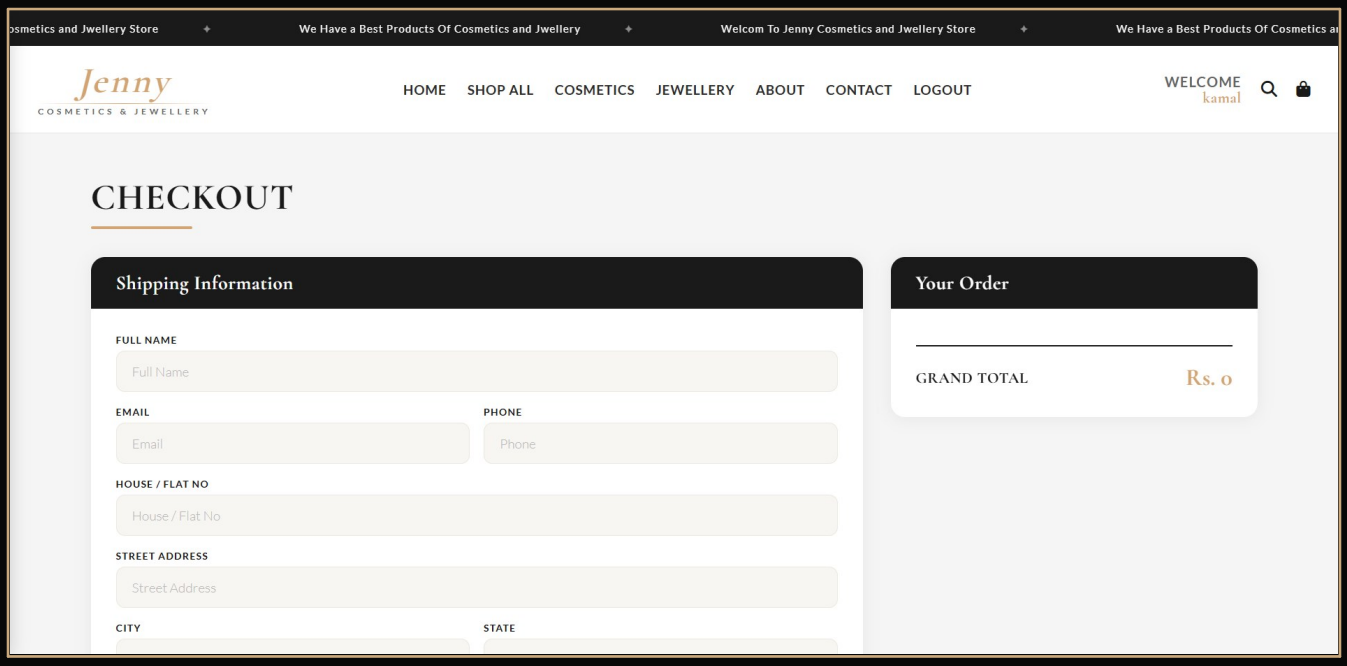

Fig 10.2: Checkout page with Shipping Information and Order Summary

KEY FEATURES

- Two-column checkout layout: left side has 'Shipping Information' form, right side shows 'Your Order' summary
- Shipping fields: Full Name, Email, Phone, House/Flat No., Street Address, City, State — all required
- Order summary panel on the right shows Grand Total (populated from cart)
- Clean black-and-white form design with rounded input fields for easy data entry
- Checkout requires user to be logged in — session management ensures order is linked to the correct customer account

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Checkout collects the delivery details for the order. The left card is the shipping form, the right card summarises the order total. Because checkout needs a logged-in customer, the session links the order to the correct account.

HOW TO USE THIS PAGE

1. Log in first (checkout needs an account), then click 'Checkout' from the cart.
2. Fill in Full Name, Email, Phone, House/Flat No., Street Address, City and State — all fields are required.
3. Check the Grand Total in 'Your Order' on the right.
4. Scroll down for the remaining fields (ZIP Code, Country) and the Confirm Order button.

11. CHECKOUT — ORDER CONFIRMATION

The final step of the checkout process captures the remaining address details and presents a Confirm Order button. Successful submission creates a new order record in the admin panel.

◆ Figure 11.1 — Checkout Confirmation

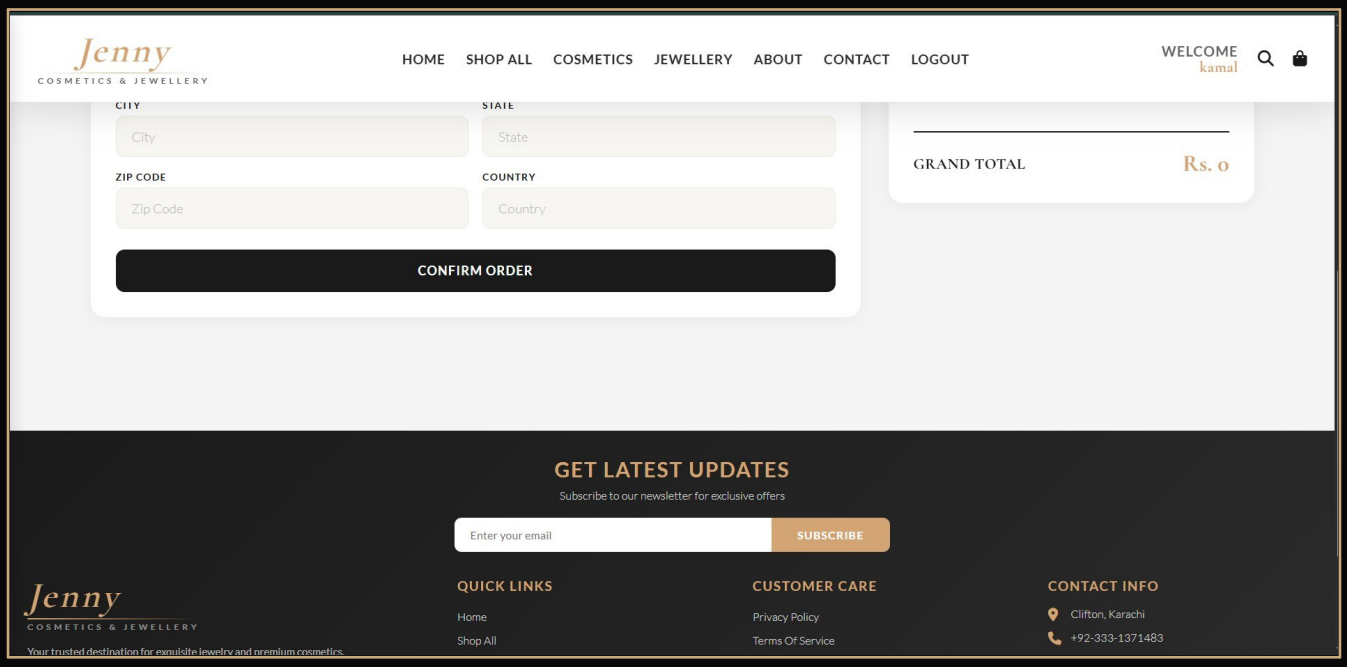

Fig 11.1: Checkout lower section with ZIP, Country fields and Confirm Order button

KEY FEATURES

- Continuation of the checkout form showing ZIP Code and Country fields
- Large dark 'Confirm Order' button at the bottom to finalize the purchase
- Order Total (Rs. 11) shown in the right panel — updates dynamically from cart
- After confirmation, order is added to the admin Orders Management panel
- Footer section visible below with Quick Links, Customer Care, and Contact Info columns

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This is the last step of the purchase. After the ZIP Code and Country are entered, pressing 'Confirm Order' saves the order and its items in the database. The new order immediately appears in the admin Orders Management panel with status 'pending'.

HOW TO USE THIS PAGE

1. Enter the ZIP Code and Country.
2. Re-check the total shown in the 'Your Order' panel.
3. Click the dark 'Confirm Order' button to place the order.
4. The admin can now see the order and process it.

12. ADMIN PANEL — DASHBOARD OVERVIEW

The admin panel provides store managers with a comprehensive back-office interface. The dashboard shows real-time business metrics, recent orders, and quick access to all management tools.

◆ Figure 12.1 — Dashboard Overview

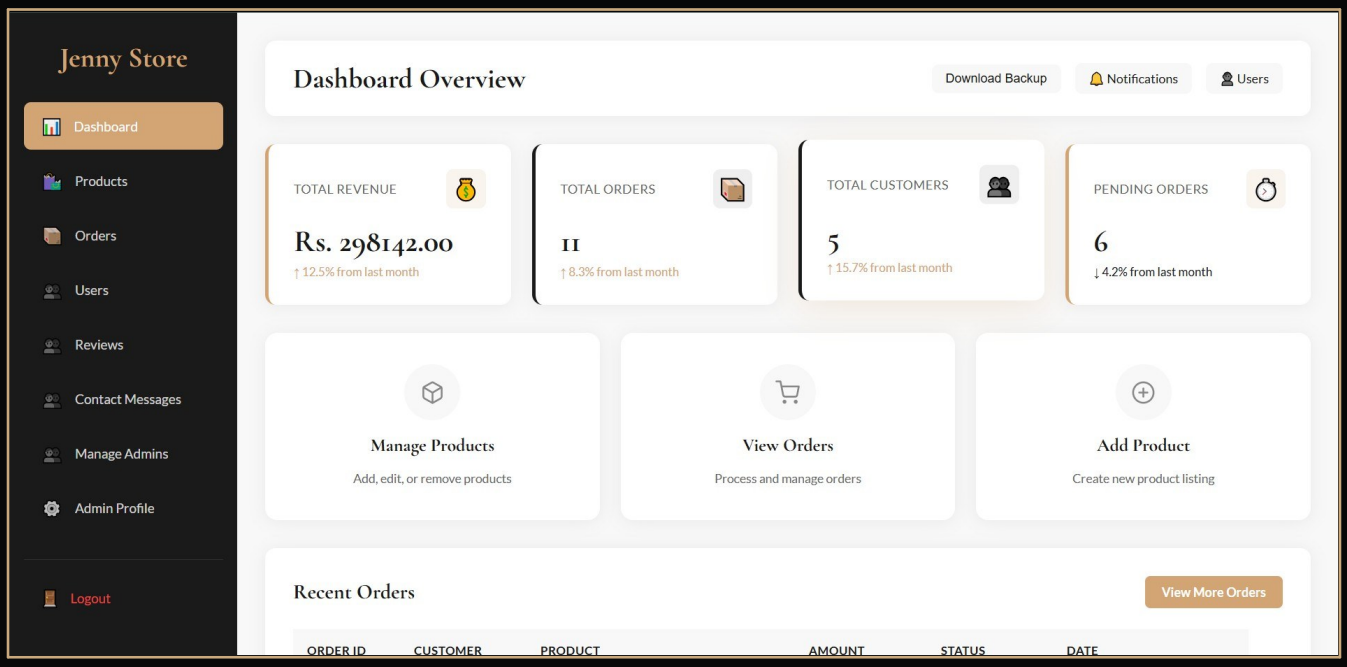

Fig 12.1: Admin Dashboard showing Revenue, Orders, Customers, and Pending Orders

KEY FEATURES

- Dashboard titled 'Dashboard Overview' with a 'Download Backup' button at the top right
- Four metric cards: Total Revenue (Rs. 298,142), Total Orders (11), Total Customers (5), Pending Orders (6)
- Each metric card has a colored icon and percentage change vs last month
- Three quick-action buttons below: Manage Products, View Orders, Add Product
- Recent Orders table at the bottom showing Order ID, Customer, Product, Amount, Status, and Date

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The dashboard is the admin's home screen. It summarises the business in four metric cards (revenue, orders, customers, pending orders), offers shortcuts to the most frequent tasks, and lists the latest orders. The dark sidebar on the left gives access to Products, Orders, Users, Reviews, Contact Messages, Manage Admins and Admin Profile.

HOW TO USE THIS PAGE

1. Log in to the admin panel; the dashboard opens first.
2. Read the four metric cards to see the current business status.
3. Use the quick-action cards (Manage Products, View Orders, Add Product) or the sidebar to move to a section.
4. Click 'Download Backup' to save a backup, and 'Logout' at the bottom of the sidebar when finished.

◆ Figure 12.2 — Recent Orders Table

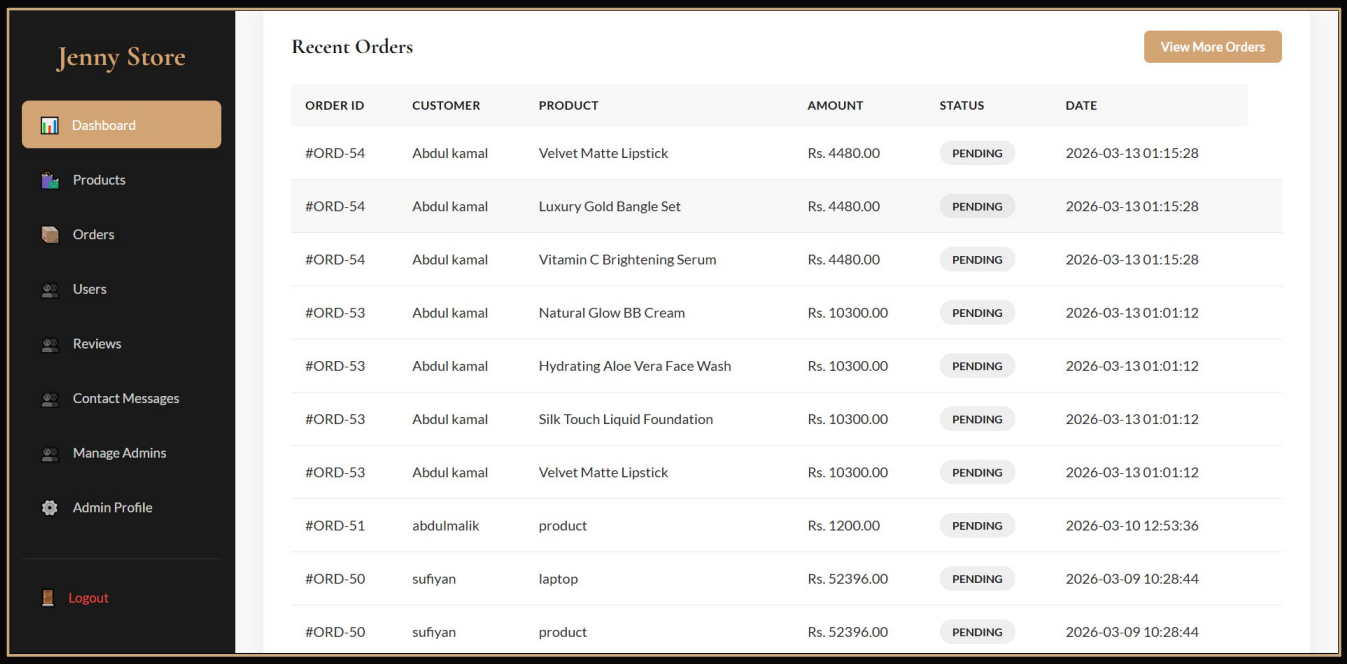

Fig 12.2: Admin recent orders list with full order details

KEY FEATURES

- Expanded recent orders table showing all 11 orders with full details
- Columns: Order ID (e.g. #ORD-54), Customer Name, Product, Amount in Rs., Status (PENDING badge), Date
- Orders include products like: Velvet Matte Lipstick, Luxury Gold Bangle Set, Vitamin C Brightening Serum, Natural Glow BB Cream
- 'View More Orders' button at the top right links directly to the Orders Management page
- Dark sidebar with golden active state remains visible — Dashboard link highlighted

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This table lists the newest orders with the customer name, product, amount, status badge and date, so the admin can spot new pending orders without opening the full Orders page.

HOW TO USE THIS PAGE

1. Scroll down on the dashboard to 'Recent Orders'.
2. Check the status badge (e.g. PENDING) of each order.
3. Click 'View More Orders' to open the complete Orders Management page.

13. ADMIN PANEL — PRODUCTS MANAGEMENT

The Products section of the admin panel gives admins full control over the product catalogue — viewing recent additions, browsing all products, and updating or deleting individual listings.

◆ Figure 13.1 — Recent Products Table

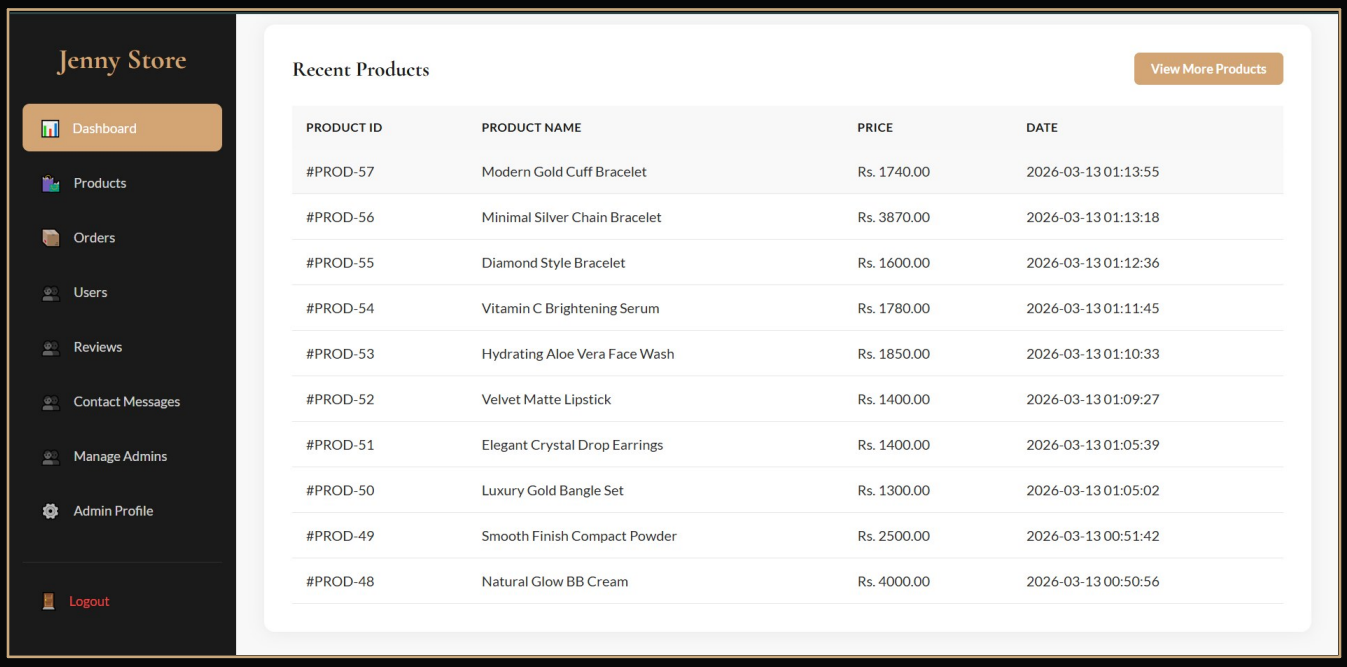

Fig 13.1: Admin Recent Products list with Product ID, Name, Price, and Date

KEY FEATURES

- Recent Products table showing latest additions with columns: Product ID, Product Name, Price, Date Added
- Products listed: Modern Gold Cuff Bracelet (Rs. 17,460), Minimal Silver Chain Bracelet (Rs. 38,700), Diamond Style Bracelet (Rs. 16,000), Vitamin C Brightening Serum, and more
- All products have auto-generated IDs (e.g. #PROD-56, #PROD-55) for easy tracking
- 'View More Products' button links to full Products Management page
- Table updates in real time as new products are added through the Add Product form

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This table shows the most recently added products with their auto-generated IDs, price and date. It lets the admin verify that a new product was saved correctly.

HOW TO USE THIS PAGE

1. Open the 'Products' section from the sidebar.
2. Check the Recent Products table to confirm your latest additions.
3. Click 'View More Products' to open the full Products Management page.

◆ Figure 13.2 — Products Management Grid

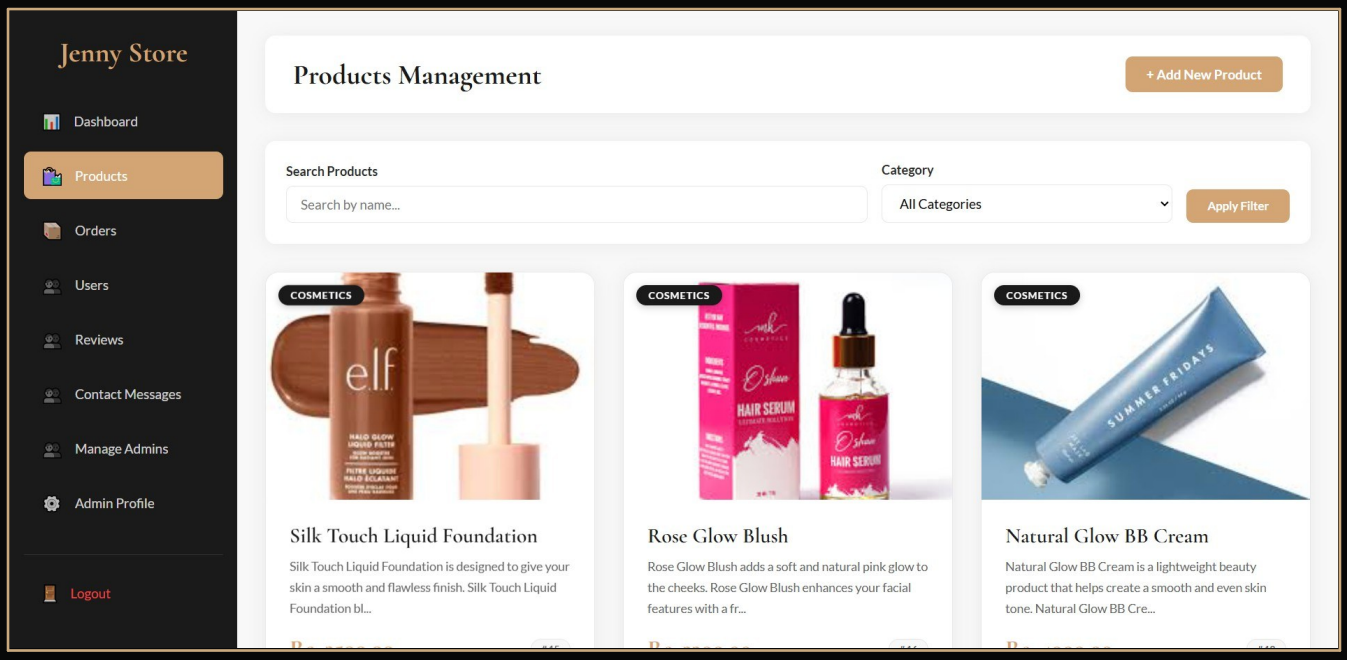

Fig 13.2: Products Management page with search, category filter, and product cards

KEY FEATURES

- Products Management page with search bar ('Search Products') and Category dropdown filter (All Categories)
- Products displayed in a card grid showing product image, name, description, price, and Update/Delete buttons
- Products shown: Silk Touch Liquid Foundation, Rose Glow Blush, Natural Glow BB Cream — all tagged 'COSMETICS'
- Category badge on each card for quick visual identification of product type
- Search and filter work together — admins can instantly narrow down to a specific product

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This is the main catalogue manager. Every product appears as a card with its image, description, price and category badge. The search box and category dropdown narrow the list, and '+ Add New Product' opens the form for a new listing.

HOW TO USE THIS PAGE

1. Type part of a product name in 'Search Products', or choose a category from the dropdown.
2. Click 'Apply Filter' to narrow the list.
3. Click '+ Add New Product' to create a new listing (name, category, description, image, price).
4. Use the Update or Delete button on a card to change or remove that product.

14. ADMIN PANEL — PRODUCTS GRID & UPDATE

The admin product grid shows all products across both categories, while the Update Product form allows admins to edit any existing product's name, category, description, image, and price.

◆ Figure 14.1 — Full Products Grid

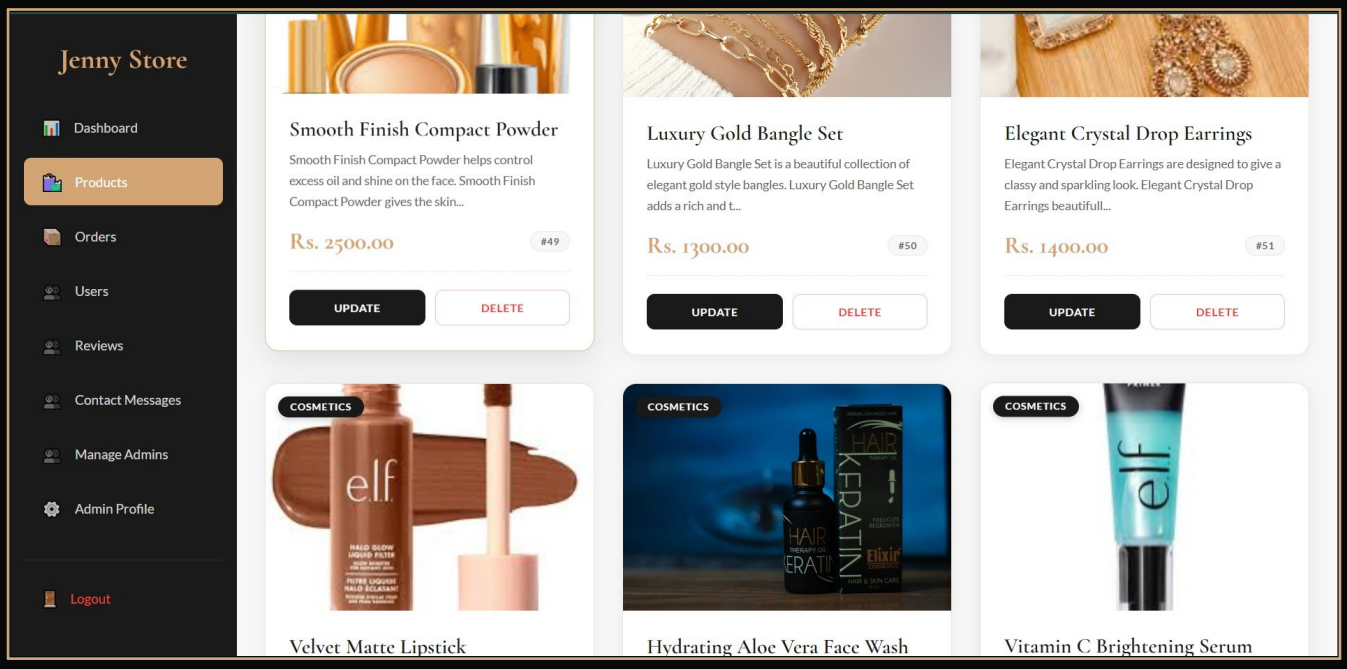

Fig 14.1: Full product grid showing mixed Cosmetics and Jewellery items with Update/Delete

KEY FEATURES

- Mixed product grid showing both COSMETICS and JEWELLERY category products side by side
- Products shown: Smooth Finish Compact Powder, Luxury Gold Bangle Set, Elegant Crystal Drop Earrings — all with JEWELLERY/COSMETICS badges
- Each card has 'Update' (dark) and 'Delete' (red) buttons for direct product management
- Lower row shows: Velvet Matte Lipstick, Hydrating Aloe Vera Face Wash, Vitamin C Brightening Serum
- Product images are displayed prominently to help admins visually identify items quickly

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The full grid shows both categories together with the product ID on each card. Update opens the edit form for that product; Delete removes the product from the catalogue (and therefore from the storefront).

HOW TO USE THIS PAGE

1. Scroll through the grid and find the product you want to manage.
2. Click the dark 'Update' button to edit it.
3. Click the red 'Delete' button to remove it — be careful, because the product disappears from the shop.

◆ Figure 14.2 — Update Product Form

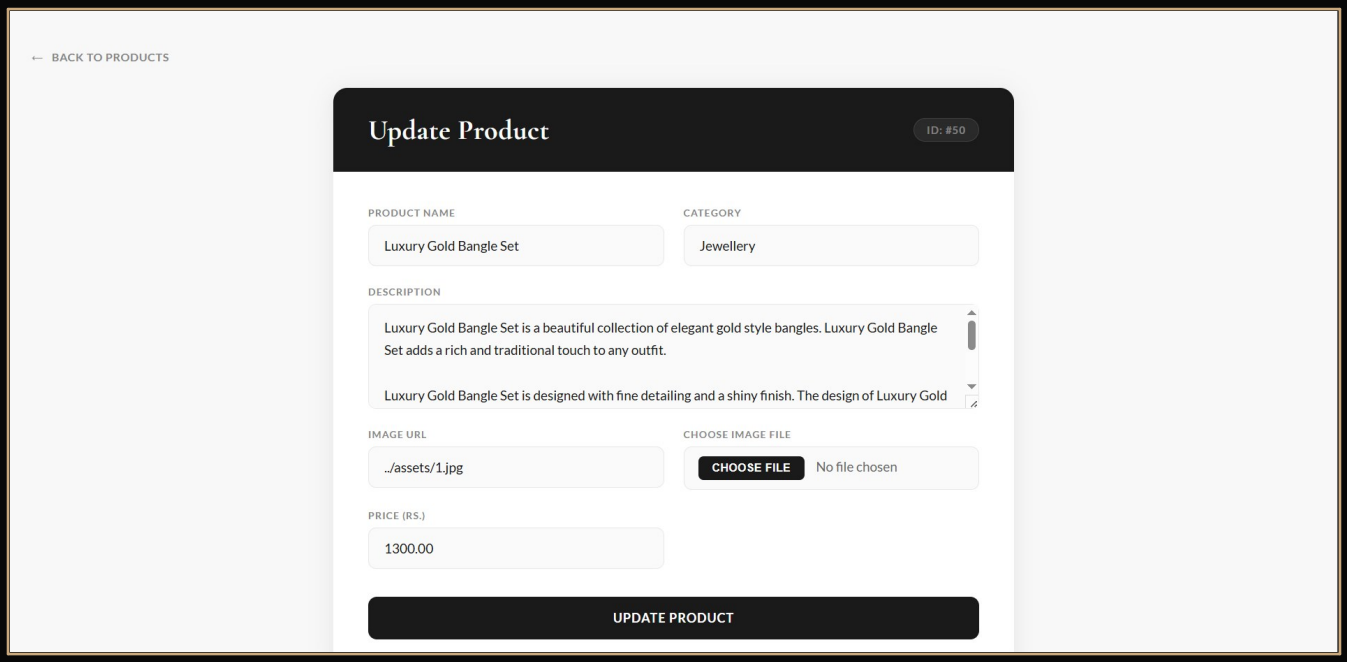

Fig 14.2: Update Product page for editing product details

KEY FEATURES

- Update Product form pre-filled with the selected product's existing data for easy editing
- Fields: Product Name (Luxury Gold Bangle Set), Category (Jewellery), Description text area, Image upload (Choose File), Price
- Description shown: 'Luxury Gold Bangle Set is a beautiful collection of elegant gold-style bangles. Luxury Gold Bangle Set adds a rich and traditional touch...'
- Image currently shows 'JewelryL.jpg' with option to replace the product photo
- 'Update Product' button at the bottom saves all changes and reflects them instantly on the frontend

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The form is pre-filled with the current data of the selected product (ID shown at the top right). Changes to name, category, description, image or price are saved to the database when 'Update Product' is pressed, and they appear on the storefront immediately.

HOW TO USE THIS PAGE

1. Edit the Product Name, Category, Description or Price as needed.
2. To change the photo, edit the Image URL or use 'Choose Image File'.
3. Click 'Update Product' to save.
4. Use '← Back to Products' to return to the product list.

15. ADMIN PANEL — ORDERS MANAGEMENT

The Orders Management section gives admins a complete view of all customer orders with filtering, status updates, and detailed order views for tracking and fulfilment.

◆ Figure 15.1 — Orders Management

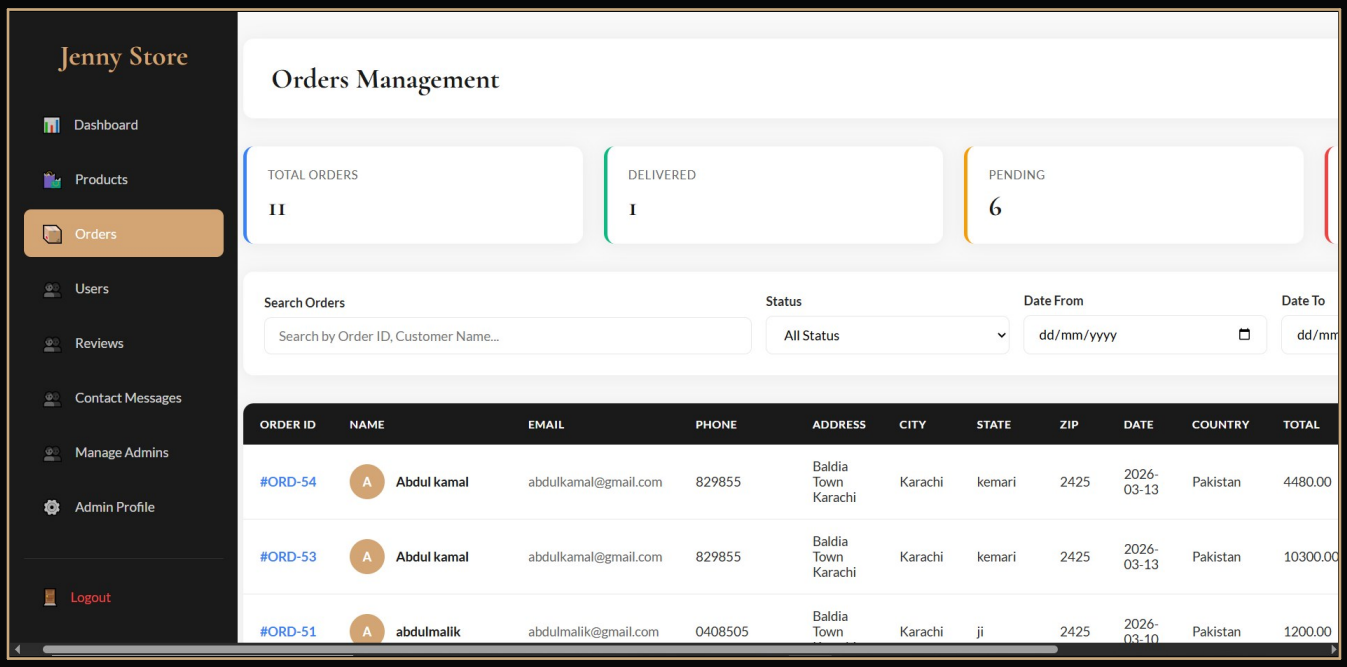

Fig 15.1: Orders Management page with stats and full orders table

KEY FEATURES

- Orders Management page with three status cards at the top: Total Orders (11), Delivered (1), Pending (6)
- Search bar, Status filter (All Status), and Date Range filters for narrowing orders
- Full orders table with columns: Order ID, Name, Email, Phone, Address, City, State, Zip, Date, Country, Total
- Order entries show customer Abdul kamal with Karachi address, Pakistan — order amounts visible
- Table rows are color-coded: green row = highlighted/selected order

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This page is where the admin tracks every customer order. Summary cards count the orders by status, the filters narrow the list, and the table shows the customer and shipping details of each order.

HOW TO USE THIS PAGE

1. Read the status cards at the top for a quick count of orders.
2. Search by Order ID or customer name, choose a Status, and set 'Date From' / 'Date To'.
3. Click 'Apply Filter' to refresh the table.
4. Scroll the table sideways to see all columns on smaller screens.

◆ Figure 15.2 — Orders Table Extended

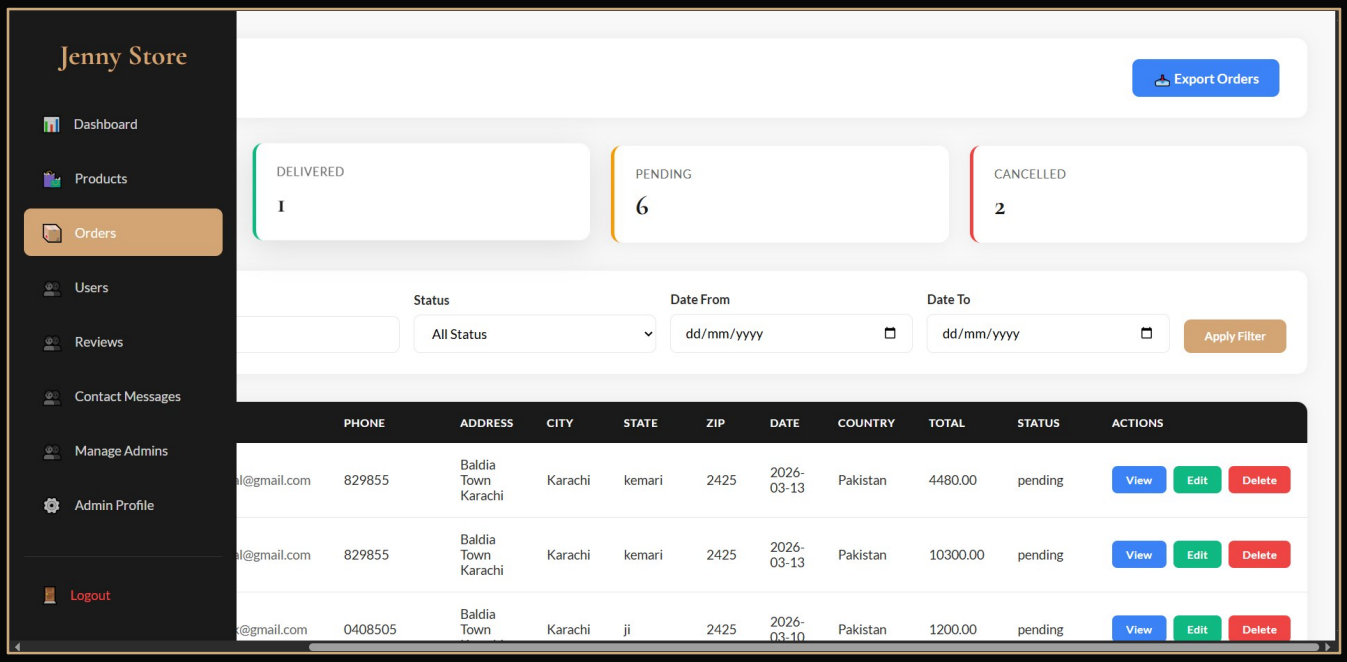

Fig 15.2: Extended orders table with status badges and action buttons

KEY FEATURES

- Extended view of the orders table showing Status column with color-coded badges: Delivered (green), Pending (orange), Cancelled (red)
- Three status summary cards updated: Delivered (1), Pending (6), Cancelled (2)
- 'Export Orders' button at top right for downloading order data as CSV/Excel
- Action buttons (View, Edit, Delete) visible on each row for order management
- Filter by date range allows admins to generate period-specific order reports

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The right-hand side of the table shows the status badge and the action buttons of each order. View opens the order details, Edit lets the admin change the order (for example its status), and Delete removes the order. 'Export Orders' downloads the filtered list.

HOW TO USE THIS PAGE

1. Find the order and check its coloured status badge (Delivered, Pending, Cancelled).
2. Click 'View' to see the full order, 'Edit' to update it, or 'Delete' to remove it.
3. Set a date range and click 'Apply Filter', then 'Export Orders' to download a period report.

16. ADMIN PANEL — ORDER DETAIL VIEW

The Order Detail page gives admins a full breakdown of an individual order — customer information, shipping address, and an itemized list of all products purchased in that order.

◆ Figure 16.1 — Order Detail

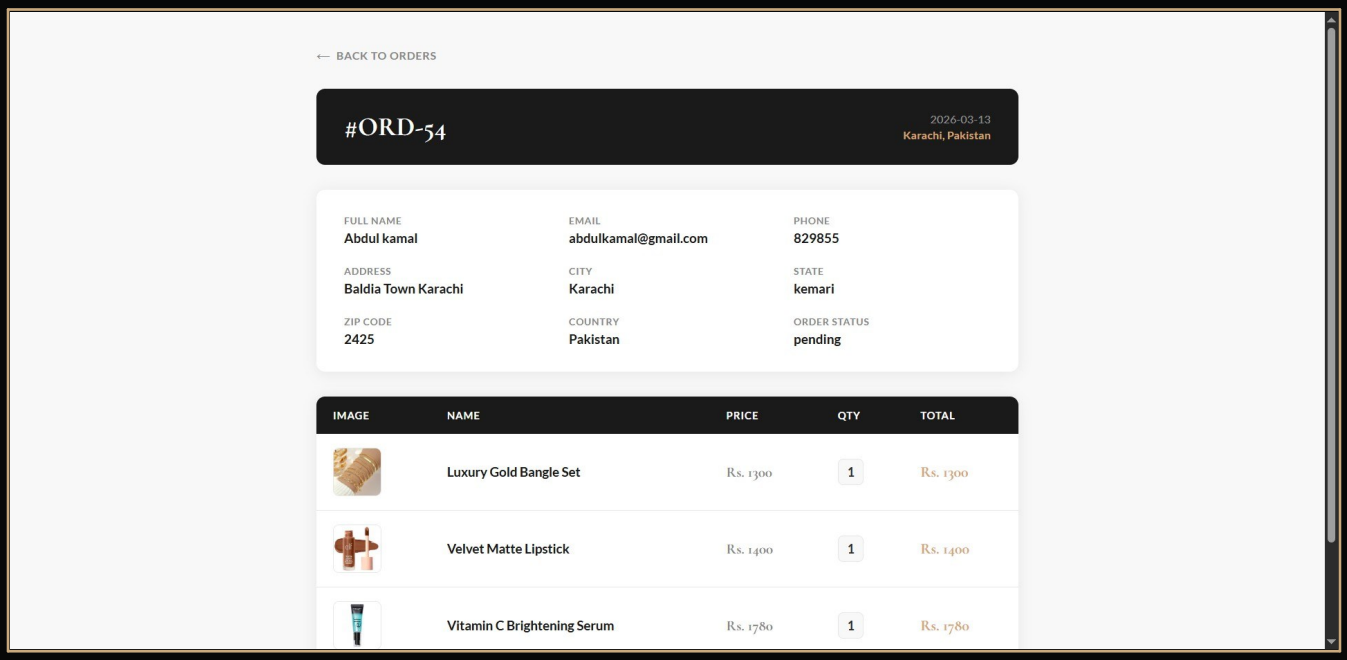

Fig 16.1: Order #ORD-54 detail page with customer info and ordered items

KEY FEATURES

- Order detail page for #ORD-54 showing all customer and order information at a glance
- Customer info: Abdul kamal, email abdulkamal@gmail.com, phone 829815
- Shipping address: Saddar Town, Karachi — Country: Pakistan — Order status: Pending
- Itemized product table below showing: Luxury Gold Bangle Set, Velvet Matte Lipstick, Vitamin C Brightening Serum with prices and quantities
- 'Back to Orders' breadcrumb at the top for quick navigation back to the orders list

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The detail page shows one order completely: who ordered, where it must be delivered, the current status, and every product with its price, quantity and total. The admin uses it to prepare and dispatch the order.

HOW TO USE THIS PAGE

1. From the Orders table click 'View' on the order you want.
2. Check the customer details and shipping address.
3. Scroll to the item table to see exactly what must be packed.
4. Click '← Back to Orders' to return to the list.

17. ADMIN PANEL — CUSTOMERS MANAGEMENT

The Customers section provides a full directory of registered customers with their order counts, total spending, contact details, and a direct link to view each customer's orders.

◆ Figure 17.1 — Customers Overview

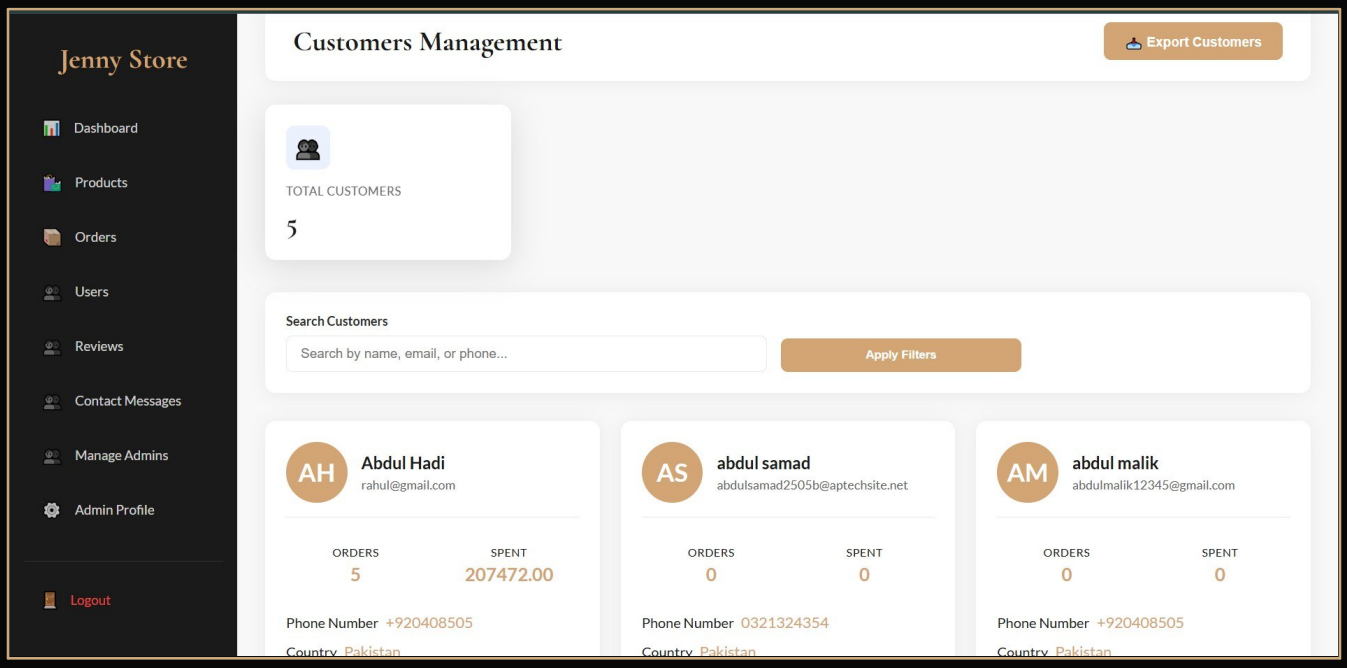

Fig 17.1: Customers Management page showing 5 registered customers

KEY FEATURES

- Customers Management page with a 'Total Customers: 5' metric card at the top
- Search bar and 'Apply Filters' button for finding specific customers by name, email, or phone
- Customer cards displayed in a grid: each shows initials avatar, name, email, order count, and total spent
- Abdul Hadi: 5 orders, Rs. 207,472 spent — top customer by revenue
- 'View Orders' button on each card links directly to that customer's order history

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This page is the customer directory. Each card shows the customer's initials, name, email, number of orders and total amount spent, which makes it easy to identify the best customers. 'Export Customers' downloads the list.

HOW TO USE THIS PAGE

1. Open 'Users' from the sidebar.
2. Type a name, email or phone number in the search bar and click 'Apply Filters'.
3. Click 'View Orders' on a card to see that customer's orders.
4. Click 'Export Customers' to download the customer data.

◆ Figure 17.2 — Customers Grid Continued

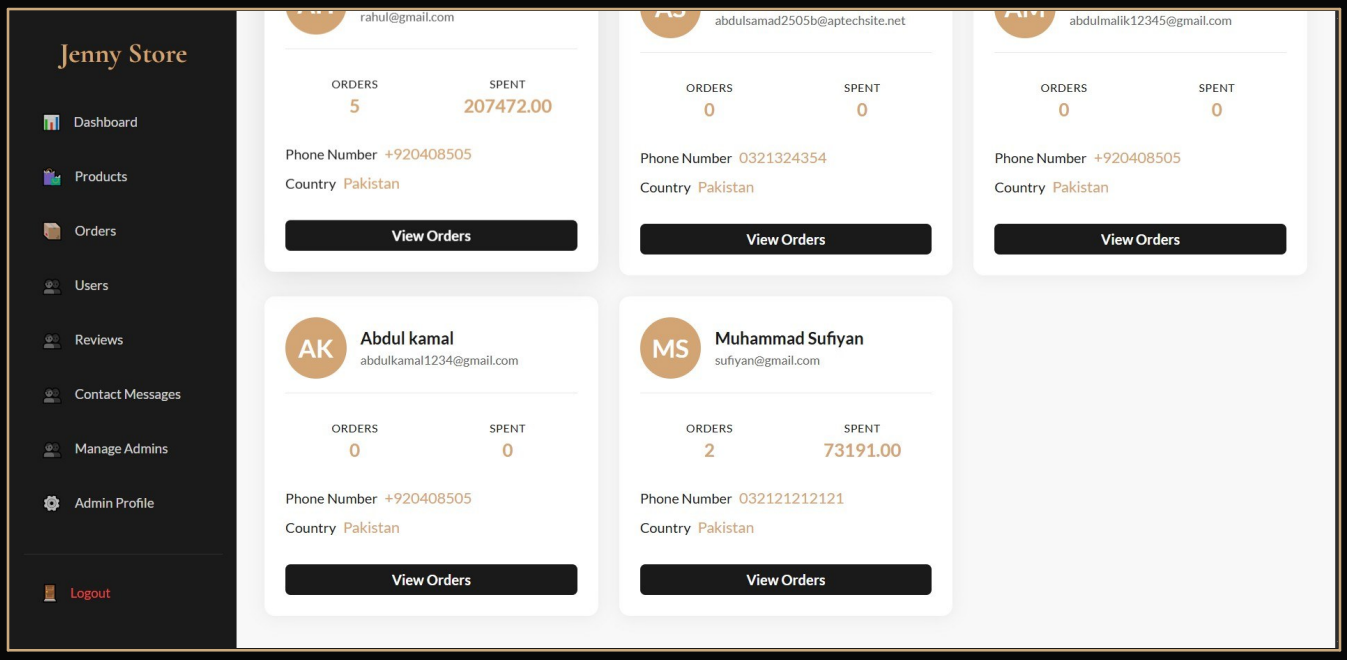

Fig 17.2: Remaining customer cards with orders and spending data

KEY FEATURES

- Additional customer cards: Abdul samad (0 orders, Rs. 0), abdul malik (0 orders, Rs. 0)
- Abdul kamal: Phone +923408000, Country: Pakistan — 0 orders shown
- Muhammad Sufyan: 1 order, Rs. 73,191 spent — second highest revenue customer
- Each card shows phone number and country for contact and shipping context
- 'Export Customers' button at the top right allows downloading customer data

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The rest of the customer grid. Besides orders and spending, each card shows the customer's phone number and country, so the admin can contact customers directly.

HOW TO USE THIS PAGE

1. Scroll down the grid to see all registered customers.
2. Use the phone number and country shown on the card to contact the customer.
3. Press 'View Orders' to open the order history of the selected customer.

18. ADMIN PANEL — REVIEWS & CONTACT MESSAGES

The Reviews panel lets admins monitor product and customer testimonial reviews, while the Contact Messages panel tracks all inquiries submitted through the website's contact form.

◆ Figure 18.1 — Reviews & Testimonials

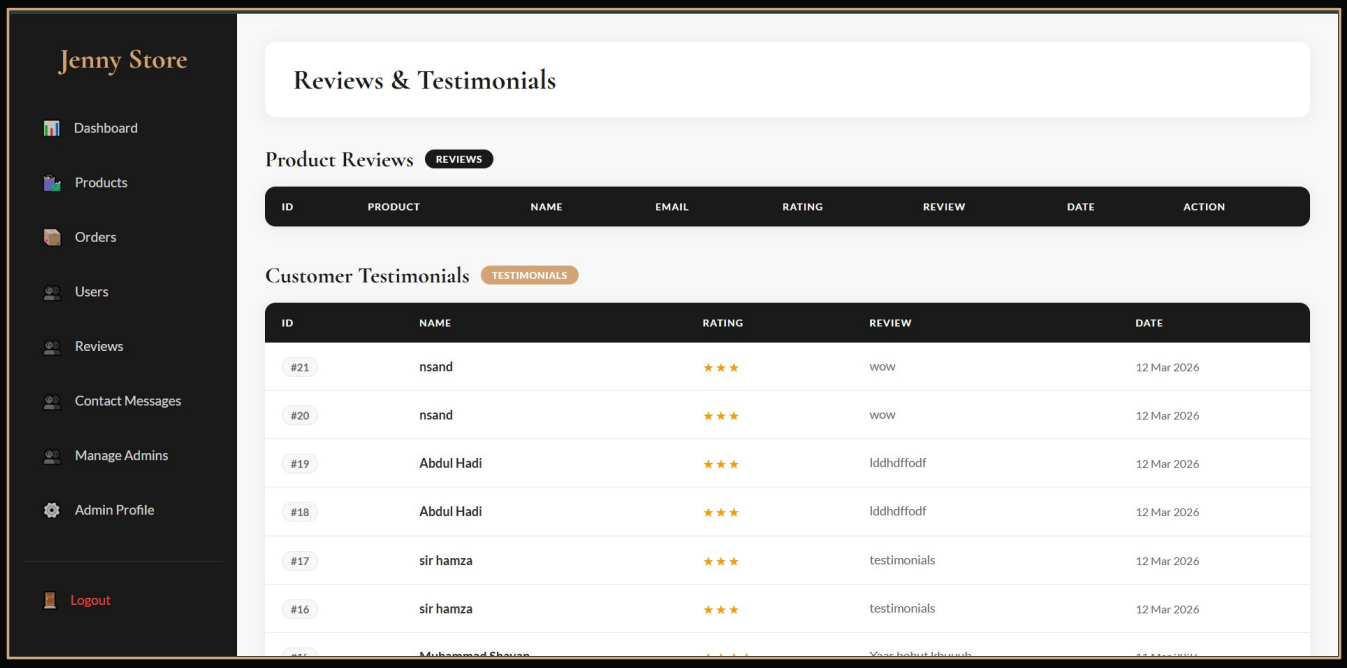

Fig 18.1: Reviews panel showing Product Reviews and Customer Testimonials tables

KEY FEATURES

- Reviews & Testimonials page with two tabs: Product Reviews and Customer Testimonials
- Product Reviews table (currently empty — no product reviews submitted yet)
- Customer Testimonials table showing columns: ID, Name, Rating (stars), Review text, Date
- Multiple testimonials visible with star ratings — all submitted by customers like hamil, Abdul Hadi, ali hamza
- Admins can use this data to monitor brand sentiment and display approved reviews on the frontend

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

All feedback from customers is collected here. The Product Reviews table lists reviews written on products, and the Customer Testimonials table lists the entries submitted through the homepage 'Share Your Experience' form, with name, star rating, text and date.

HOW TO USE THIS PAGE

1. Open 'Reviews' from the sidebar.
2. Check 'Product Reviews' for feedback on specific products.
3. Scroll to 'Customer Testimonials' to read what customers wrote on the homepage form.
4. Use the Action column (where available) to manage a review.

◆ Figure 18.2 — Contact Messages

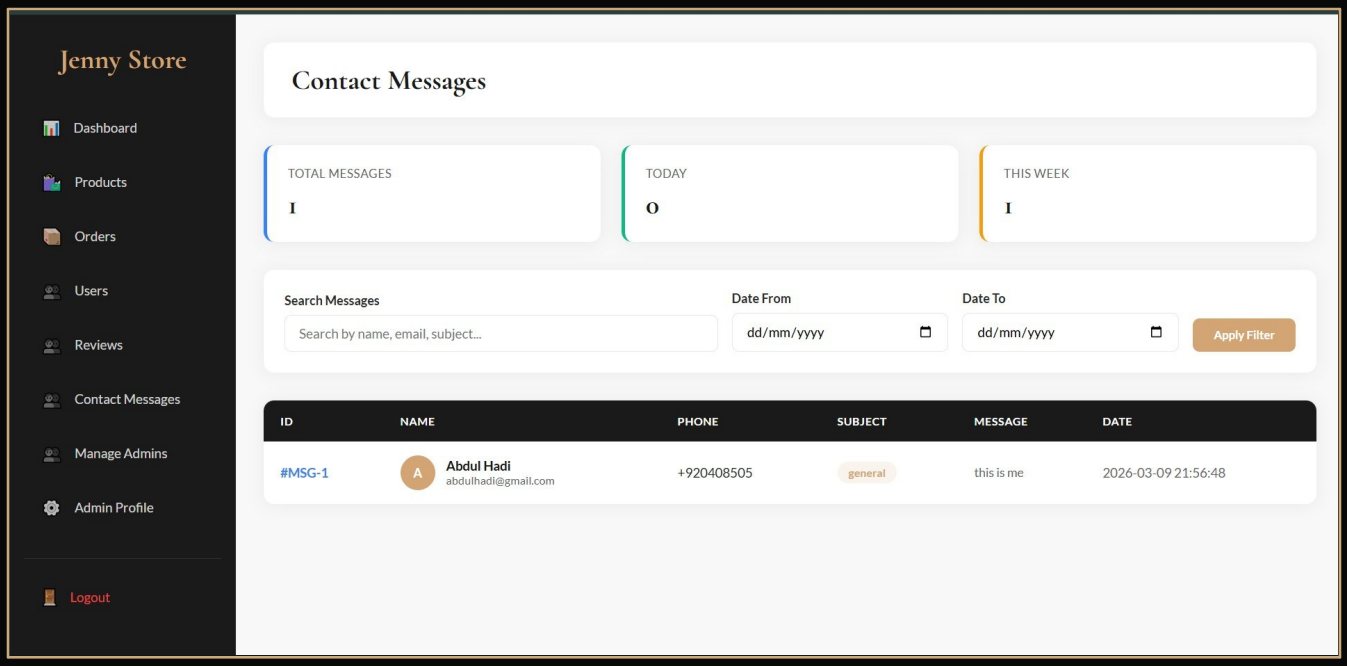

Fig 18.2: Contact Messages panel with message stats and inquiry table

KEY FEATURES

- Contact Messages page with three stat cards: Total Messages (1), Today (0), This Week (1)
- Search bar and Date Range filters for finding specific messages
- Messages table with columns: ID, Name, Email, Phone, Subject, Message (preview), Date
- Entry shown: #MSG-1 — Abdul Hadi, abdulhadi@gmail.com, +923408020 — Subject: general — Date: 2024-09-23
- Admins can click each message to read the full text and follow up with the customer

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This is the inbox of the website contact form. Every message sent from the Contact page is stored here, and the three counters show the total, today's and this week's messages.

HOW TO USE THIS PAGE

1. Open 'Contact Messages' from the sidebar.
2. Search by name, email or subject, or set 'Date From' / 'Date To' and click 'Apply Filter'.
3. Read the sender's details and message, then reply to the customer by email or phone.

19. ADMIN PANEL — MANAGE ADMINS & PROFILE

The Manage Admins section controls admin access and permissions, while the Admin Profile page allows the logged-in admin to update their store information and change their password.

◆ Figure 19.1 — Manage Admins

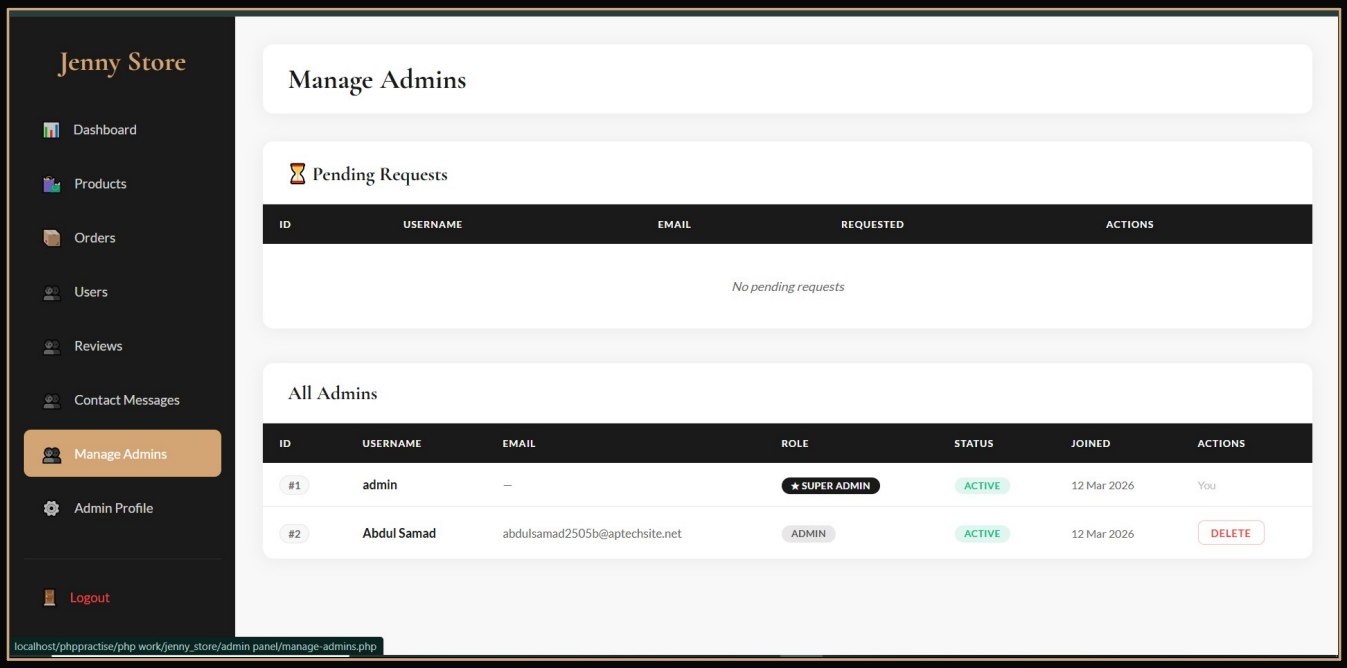

Fig 19.1: Manage Admins page showing pending requests and all admins list

KEY FEATURES

- Manage Admins page split into two sections: Pending Requests and All Admins
- Pending Requests: currently empty — 'No pending requests' shown
- All Admins table with columns: ID, Username, Email, Role, Status, Joined, Actions
- Two admins listed: 'admin' (Super Admin role, Active status) and 'Abdul Samad' (admin role, Active — with DELETE option)
- Super Admin has no delete option — protected account to prevent lockout

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This page controls who can use the admin panel. New admin sign-up requests wait in 'Pending Requests', and the 'All Admins' table lists every admin with role and status. The Super Admin account is protected and cannot be deleted, so the store can never be locked out.

HOW TO USE THIS PAGE

1. Open 'Manage Admins' from the sidebar.
2. Review any entries in 'Pending Requests' (currently none).
3. In 'All Admins', check each admin's role and status.
4. Click 'DELETE' next to a normal admin to remove access (the Super Admin cannot be removed).

◆ Figure 19.2 — Admin Profile Settings

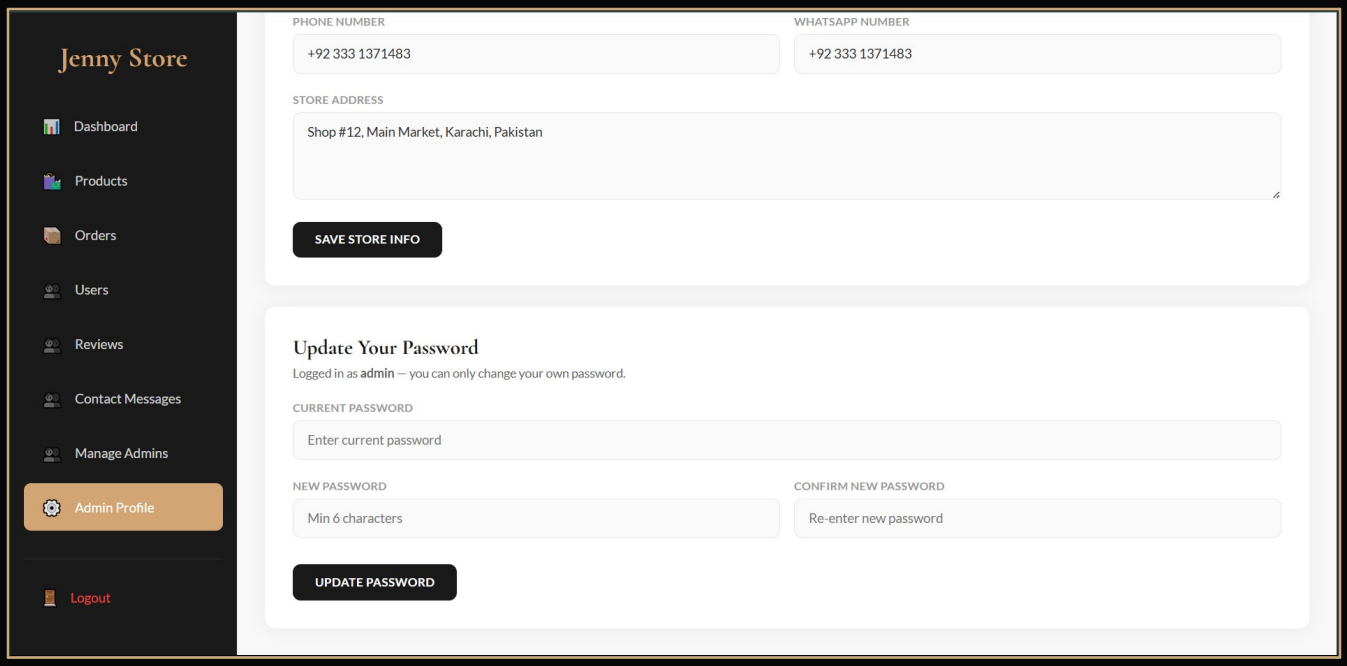

Fig 19.2: Admin Profile page with Store Info and Update Password sections

KEY FEATURES

- Admin Profile page with two sections: Store Information and Update Your Password
- Store Info fields: Store Name, Store Email, Phone Number (two fields shown: +92 333 1371483), Store Address (Shop #12, Main Market, Karachi, Pakistan)
- 'Save Store Info' button at the bottom of the store section saves changes to the database
- Update Password section: Current Password, New Password, Confirm New Password fields
- 'Update Password' button allows the admin to securely change their login credentials

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The profile page has two forms. 'Store Information' edits the store's public details (name, email, phone, WhatsApp, address). 'Update Your Password' lets the logged-in admin change only their own password after entering the current one.

HOW TO USE THIS PAGE

1. Open 'Admin Profile' from the sidebar.
2. Edit the store details and click 'Save Store Info'.
3. To change the password, enter the current password, then the new one (minimum 6 characters) twice.
4. Click 'Update Password' to save.

20. TECHNICAL IMPLEMENTATION

Jenny's Store is built on a full-stack architecture using industry-standard web technologies. The combination of a semantic HTML5/CSS3/JS frontend with a PHP/MySQL backend ensures performance, security, and scalability.

Layer	Technology	Purpose
Frontend	HTML5	Semantic page structure & accessibility markup
Frontend	CSS3	Custom properties, animations, responsive media queries
Frontend	JavaScript	Interactive UI, cart logic, form validation & DOM manipulation
Backend	PHP	Server-side processing, routing, session & authentication management
Database	MySQL	Relational data storage for products, orders, users, reviews & messages

◆ Frontend Architecture

- ✦ HTML5 semantic elements (header, nav, main, section, article, footer) for clean, accessible structure
- ✦ CSS3 custom properties (variables) enable consistent brand theming across all pages
- ✦ JavaScript handles all dynamic interactions: cart add/remove, quantity update, form validation, accordion FAQ
- ✦ Responsive design via CSS media queries — fully optimized for mobile, tablet, and desktop viewports

◆ Backend Architecture

- ✦ PHP processes all server-side logic including page routing, form handling, and session-based authentication
- ✦ MySQL relational database stores all entities: products, categories, orders, customers, reviews, messages, and admins
- ✦ PHP sessions manage secure login state for both customers (checkout) and admins (admin panel)
- ✦ Prepared statements (PDO/MySQLi) used throughout to prevent SQL injection attacks
- ✦ Admin panel includes role-based access: Super Admin vs Admin — Super Admin cannot be deleted

CONCLUSION

Jenny's Cosmetics & Jewelry Store successfully demonstrates a production-ready e-commerce solution built with sound engineering principles and a refined visual identity. The 36 screenshots in this documentation cover every page and admin function — proving a complete, working full-stack web application.

> *"This eProject represents a comprehensive understanding of web technologies and their practical application in building functional, secure, and scalable web applications for real-world business needs."*

Thank You

for your time and consideration

PROJECT STRUCTURE

Complete breakdown of all files and their functionality

File / Folder	Type	Description / Purpose
index.php	PHP Page	Homepage — hero banner, featured products, reviews form
shop.php	PHP Page	Shop All page — full product catalogue grid
cosmetics.php	PHP Page	Cosmetics category page — filtered beauty products
jewellery.php	PHP Page	Jewellery category page — filtered jewelry products
product_detail.php	PHP Page	Single product detail page with images & Add to Cart
about.php	PHP Page	About page — Our Story, Mission, Vision, Core Values, FAQ
contact.php	PHP Page	Contact page — form, info cards, map, newsletter
cart.php	PHP Page	Shopping cart — item list, quantities, grand total
checkout.php	PHP Page	Checkout form — shipping info & order summary
order_confirm.php	PHP Page	Order confirmation — final submit & success message
login.php	PHP Page	Customer login page with session handling
register.php	PHP Page	Customer registration / signup form
logout.php	PHP Page	Session destroy & redirect to homepage
admin/index.php	Admin	Admin dashboard — revenue, orders, customers metrics
admin/products.php	Admin	Products management — add, update, delete products
admin/add_product.php	Admin	Add new product form with image upload
admin/orders.php	Admin	Orders management — view, filter, export, update status
admin/order_detail.php	Admin	Single order detail — customer info & itemized list
admin/users.php	Admin	Customers management — view spending & order history
admin/reviews.php	Admin	Reviews & testimonials panel — product & customer reviews
admin/messages.php	Admin	Contact messages inbox — view & filter inquiries
admin/manage_admins.php	Admin	Manage admin accounts — roles, status, add/delete admins
admin/profile.php	Admin	Admin profile — update store info & change password
assets/css/style.css	CSS	Global styles — typography, colors, layout, animations
assets/js/main.js	JavaScript	Cart logic, form validation, accordion, search, DOM events
assets/images/	Folder	All product images, hero banners, brand photography
db/connection.php	PHP Config	MySQL database connection using PDO / MySQLi
db/jenny_store.sql	SQL File	Database schema — all tables: products, orders, users, etc.
