Specora

SELECT YOUR OWN SELECTION

◆ EXECUTIVE SUMMARY

Specora is a smart product discovery and comparison platform. Instead of opening several shopping websites one by one, the visitor searches once and Specora brings live product data from major marketplaces — Amazon, Walmart, eBay and Alibaba/AliExpress — into one place, across 20 main categories and about 80 sub-categories.

The visitor can search any product, open its details, see related products in the same category and price range, add products to a comparison list, and compare them side by side. Specora then recommends the best and most reasonable product and links the visitor to the marketplace where it can be bought at the best deal.

This documentation walks through all 22 screenshots of the public website and the admin panel. Under every screenshot you will find the **Key Features**, a **Functionality** box explaining what the page does, and a **How to use** box with step-by-step instructions.

Screenshots	Categories	Sub-categories	Marketplaces

◆ HOW SPECORA WORKS

01	**Search**	Search any product from the global search bar or open a category from the menu. Live data is loaded from the connected marketplaces.
02	**Add to Compare**	Open related products found on the product page and add the ones you like to the comparison list.
03	**Compare**	See price, rating, reviews and availability side by side in one table.
04	**Best Pick**	Specora scores the products and recommends the best and most reasonable one, with a link to the marketplace.

1. HOMEPAGE — HEADER & HERO

The homepage is the front door of Specora. It combines a global search bar, a category navigation menu and a promotional hero banner so a visitor can start discovering products within seconds.

◆ Figure 1.1 — Header, Search & Hero Banner

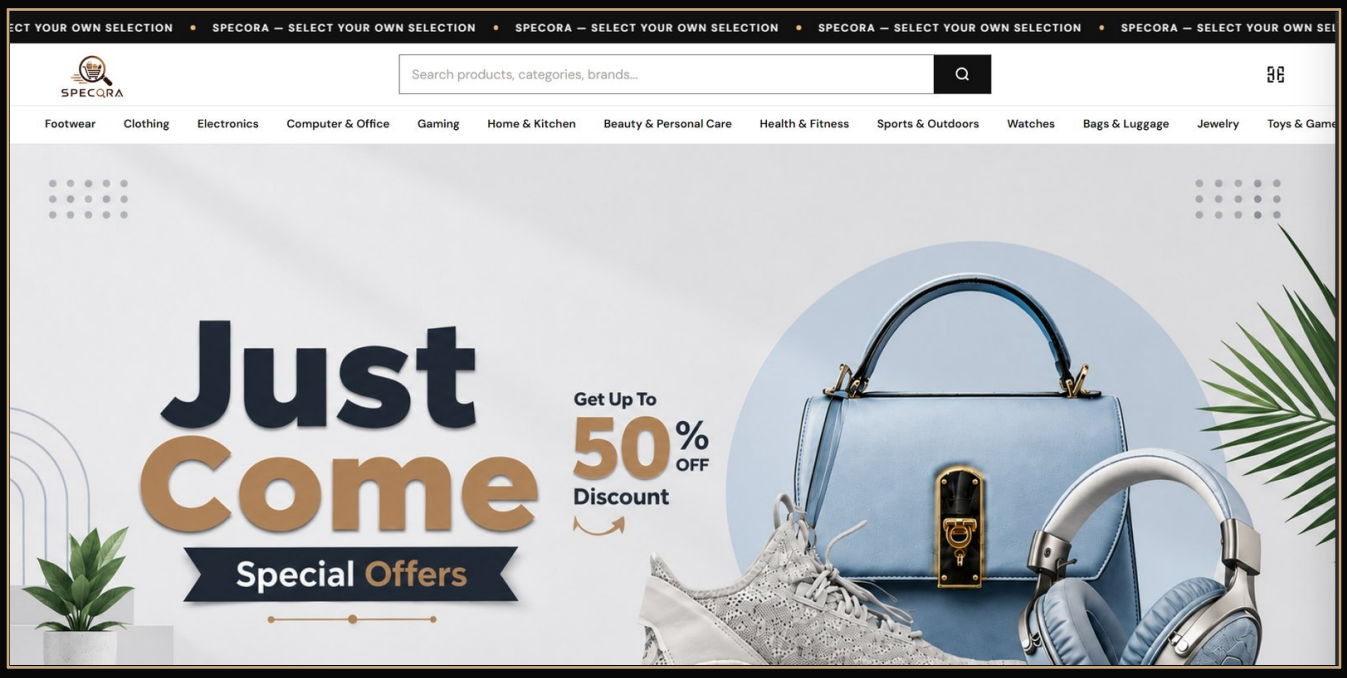

Fig 1.1: Specora homepage: marquee ticker, global search, category menu and hero banner

KEY FEATURES

- Scrolling marquee at the very top repeating the brand tagline 'SPECORA — SELECT YOUR OWN SELECTION'
- Specora logo on the left and a wide global search bar ('Search products, categories, brands...') with a dark search button
- Compare icon at the top right that opens the product comparison list
- Horizontal category menu: Footwear, Clothing, Electronics, Computer & Office, Gaming, Home & Kitchen, Beauty & Personal Care, Health & Fitness, Sports & Outdoors, Watches, Bags & Luggage, Jewelry, Toys & Games and more
- Large hero banner 'Just Come — Special Offers, Get Up To 50% Off' with lifestyle product imagery

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The header is shared by every public page, so search, categories and the compare list are always one click away. Typing in the search bar looks the product up across the connected marketplaces (live data), and the category menu opens the product listing of that category. The hero banner highlights offers and gives the homepage a strong first impression.

HOW TO USE THIS PAGE

1. Open the Specora website; the homepage loads with the hero banner.
2. Type the name of any product, category or brand in the search bar and press Enter or click the dark search button.
3. Or click a category in the menu (for example Electronics) to browse that category directly.
4. Click the compare icon at the top right at any time to open your comparison list.

2. HOMEPAGE — CATEGORY SHOWCASE

Below the hero, the homepage presents every main category as a card with its sub-categories. About 80 sub-categories across 20 main categories make it easy to jump straight to the exact type of product you want.

◆ Figure 2.1 — Footwear & Clothing Categories

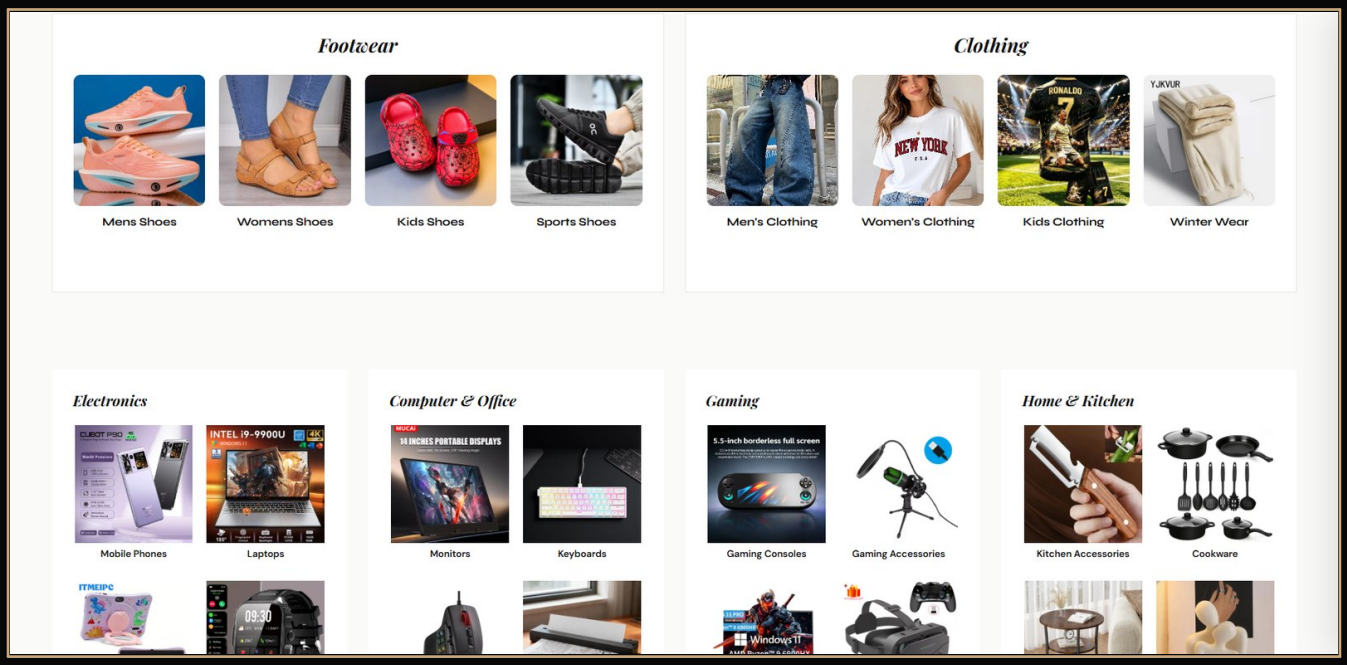

Fig 2.1: Category cards for Footwear and Clothing with sub-category thumbnails

KEY FEATURES

- 'Footwear' card: Mens Shoes, Womens Shoes, Kids Shoes, Sports Shoes
- 'Clothing' card: Men's Clothing, Women's Clothing, Kids Clothing, Winter Wear
- Each sub-category has a rounded product photo and a label for quick visual recognition
- Clean white cards on a light background with serif category headings

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Each card groups the sub-categories of one main category. The thumbnail images come from real products, so the visitor immediately sees what kind of items to expect. Clicking a sub-category opens the listing page filtered to that sub-category.

HOW TO USE THIS PAGE

1. Scroll below the hero banner to the category cards.
2. Find the main category you are interested in, such as Footwear or Clothing.
3. Click a sub-category image (for example 'Womens Shoes') to open its product listing.

◆ Figure 2.2 — Electronics, Computer & Office, Gaming, Home & Kitchen

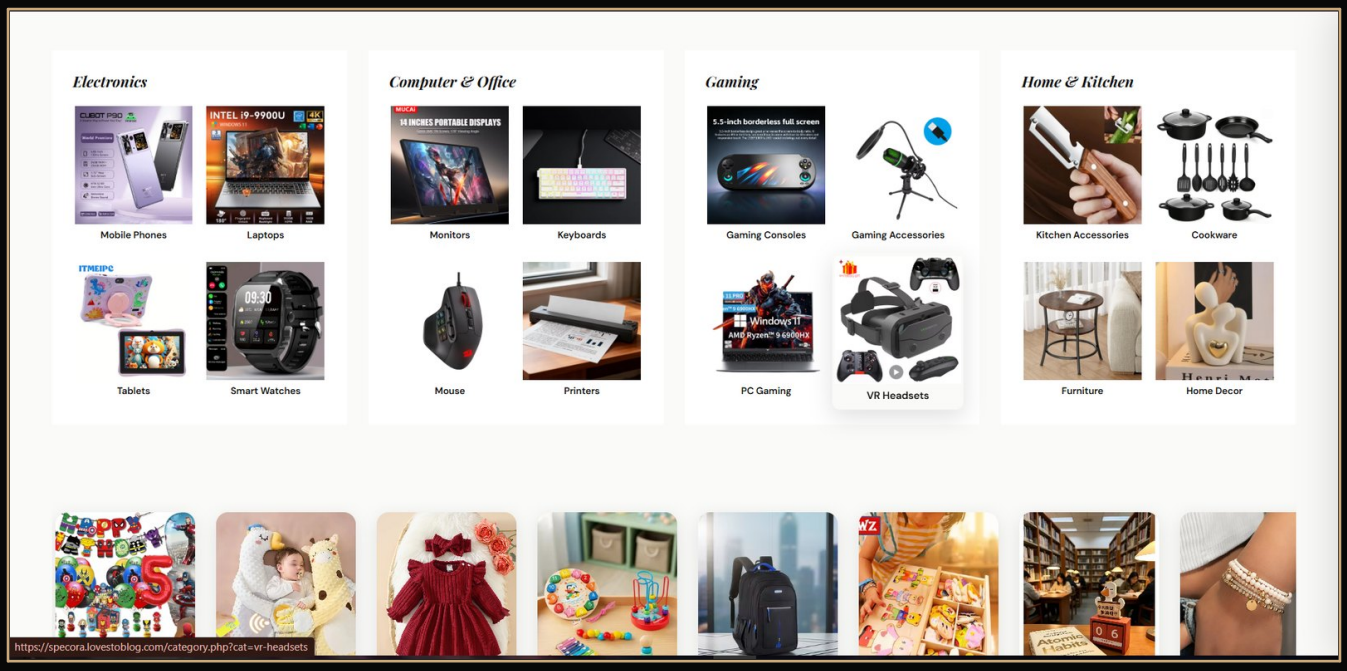

Fig 2.2: Four category cards with hover effect and category link

KEY FEATURES

- Electronics: Mobile Phones, Laptops, Tablets, Smart Watches
- Computer & Office: Monitors, Keyboards, Mouse, Printers
- Gaming: Gaming Consoles, Gaming Accessories, PC Gaming, VR Headsets
- Home & Kitchen: Kitchen Accessories, Cookware, Furniture, Home Decor
- Hovering over a sub-category lifts the tile and shows its link (for example category.php?cat=vr-headsets) in the browser status bar

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Sub-categories link to a single category page through a 'cat' parameter in the URL, so every sub-category has its own address (slug). The hover effect gives visual feedback before the click, and the same card layout is repeated for all 20 categories.

HOW TO USE THIS PAGE

1. Move the mouse over a sub-category tile; it lifts slightly to show it is clickable.
2. Click the tile, for example 'VR Headsets', to open that category's products.
3. Use the browser back button to return to the homepage and try another category.

◆ Figure 2.3 — Category Slider, Beauty, Health, Sports & Watches

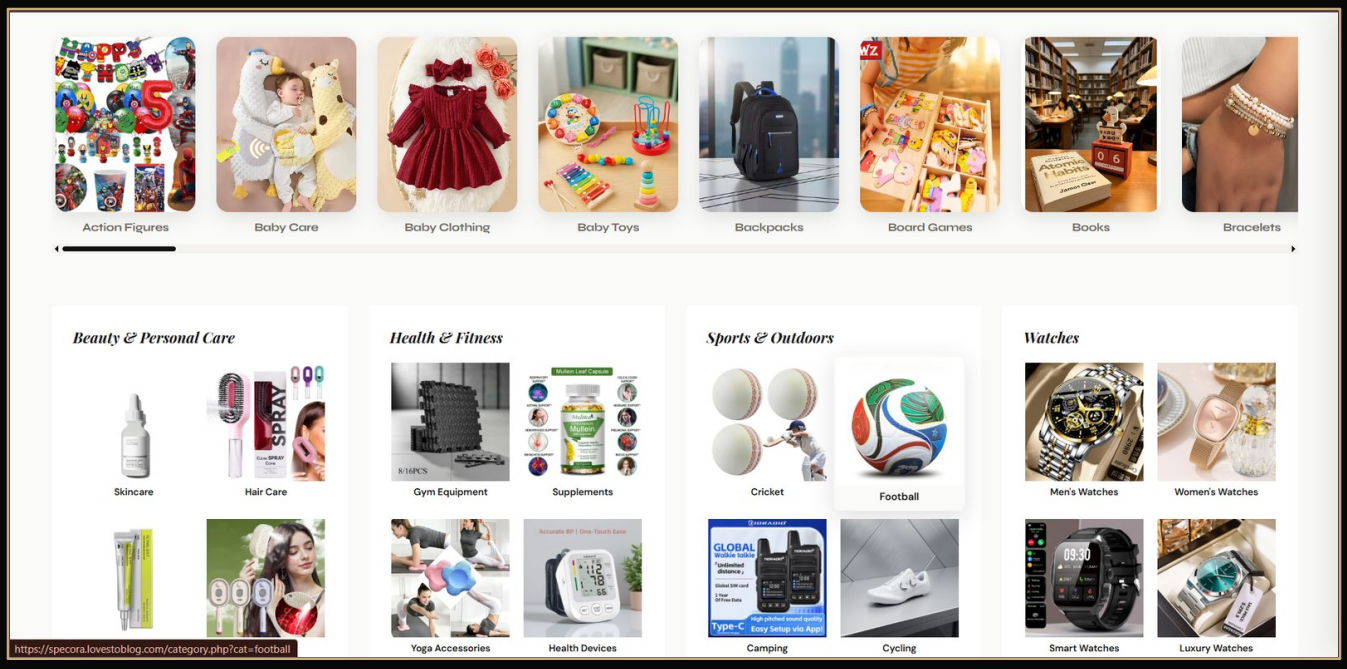

Fig 2.3: Horizontal category slider plus Beauty, Health & Fitness, Sports & Outdoors and Watches cards

KEY FEATURES

- Horizontally scrollable slider with large rounded tiles: Action Figures, Baby Care, Baby Clothing, Baby Toys, Backpacks, Board Games, Books, Bracelets and more
- Scrollbar under the slider lets the visitor move through all tiles
- Beauty & Personal Care: Skincare, Hair Care and more; Health & Fitness: Gym Equipment, Supplements, Yoga Accessories, Health Devices
- Sports & Outdoors: Cricket, Football, Camping, Cycling; Watches: Men's, Women's, Smart and Luxury Watches

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The slider shows a quick-access strip of many sub-categories in a compact space, while the cards underneath keep the main categories organised. Both lead to the same category listing pages.

HOW TO USE THIS PAGE

1. Drag the slider scrollbar (or swipe on mobile) to see more categories.
2. Click any tile, such as 'Football' or 'Skincare', to open its products.
3. Scroll down to see the remaining category cards.

◆ Figure 2.4 — Bags, Jewelry, Toys & Games, Baby Products

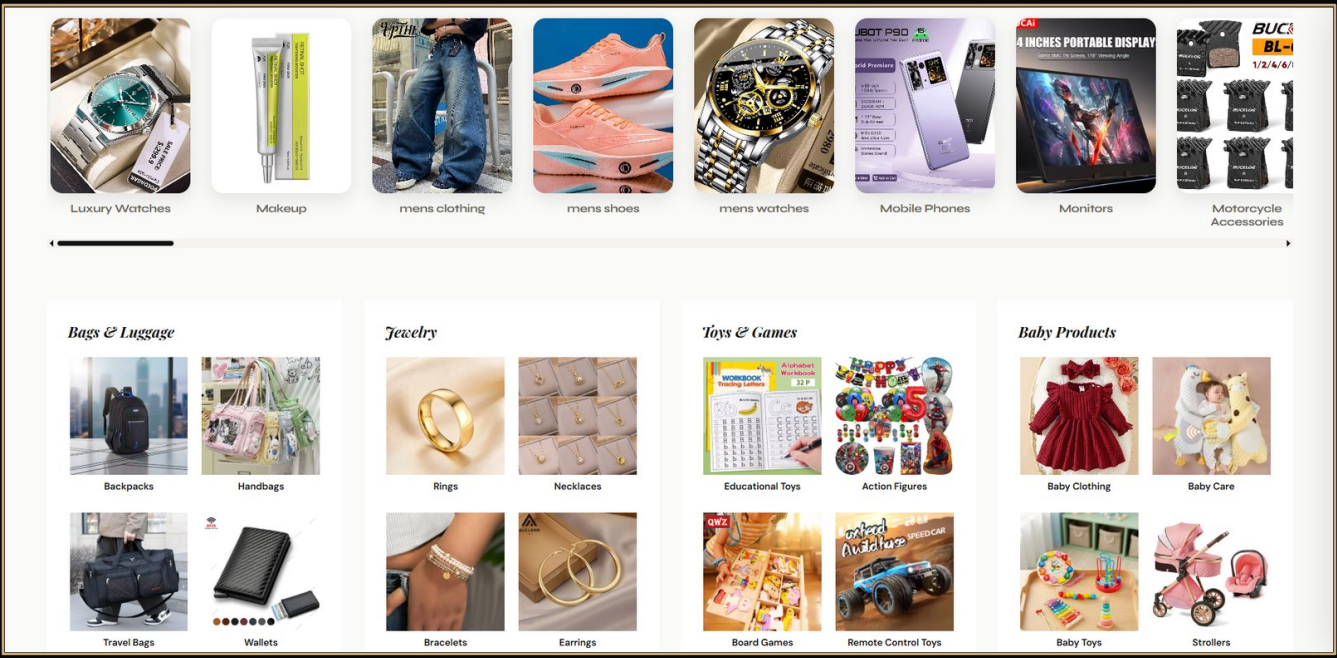

Fig 2.4: Second slider and Bags & Luggage, Jewelry, Toys & Games and Baby Products cards

KEY FEATURES

- Second slider: Luxury Watches, Makeup, Men's Clothing, Men's Shoes, Men's Watches, Mobile Phones, Monitors, Motorcycle Accessories
- Bags & Luggage: Backpacks, Handbags, Travel Bags, Wallets
- Jewelry: Rings, Necklaces, Bracelets, Earrings
- Toys & Games: Educational Toys, Action Figures, Board Games, Remote Control Toys; Baby Products: Baby Clothing, Baby Care, Baby Toys, Strollers

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Together with the previous cards this completes the catalogue structure of 20 categories and about 80 sub-categories, covering almost everything a shopper might search for, from fashion and electronics to toys and baby products.

HOW TO USE THIS PAGE

1. Scroll further down the homepage to reach the last category cards.
2. Click a sub-category such as 'Backpacks' or 'Rings' to view matching products.
3. If you cannot find a category, use the search bar at the top instead.

3. HOMEPAGE — HOW IT WORKS & REVIEWS

The lower part of the homepage explains how Specora works in four steps and builds trust with verified shopper testimonials.

◆ Figure 3.1 — Smart Shopping in 4 Simple Steps

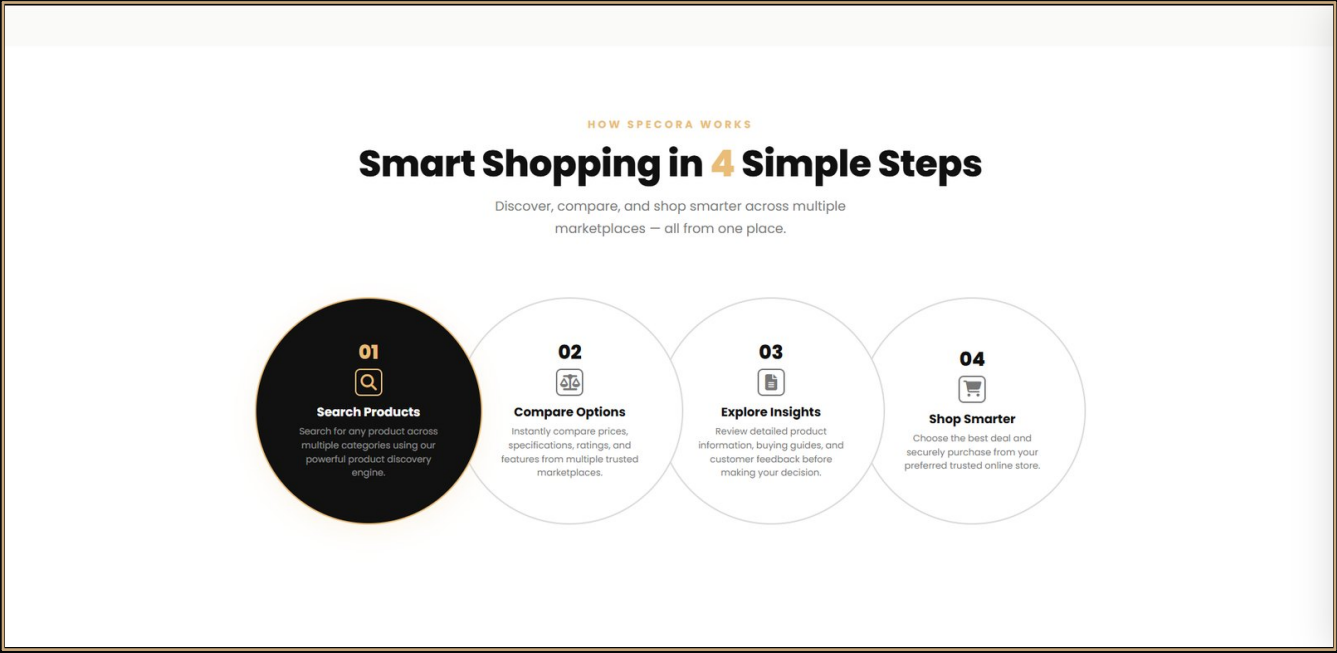

Fig 3.1: How Specora works: Search, Compare, Explore Insights, Shop Smarter

KEY FEATURES

- Heading 'Smart Shopping in 4 Simple Steps' with a short description
- Four connected circles: 01 Search Products, 02 Compare Options, 03 Explore Insights, 04 Shop Smarter
- The active step is highlighted with a dark circle and a golden outline
- Each step has an icon (search, balance scale, document, cart) and a one-line explanation

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This section explains the whole workflow of the platform: the visitor searches any product, compares prices, specifications and ratings from multiple marketplaces, reads product information and feedback, and finally buys from the marketplace that offers the best deal.

HOW TO USE THIS PAGE

1. Scroll down to 'How Specora Works' to understand the flow before you start.
2. Follow the same order on the site: search → add products to compare → review the result → open the best marketplace link.

◆ Figure 3.2 — Customer Testimonials

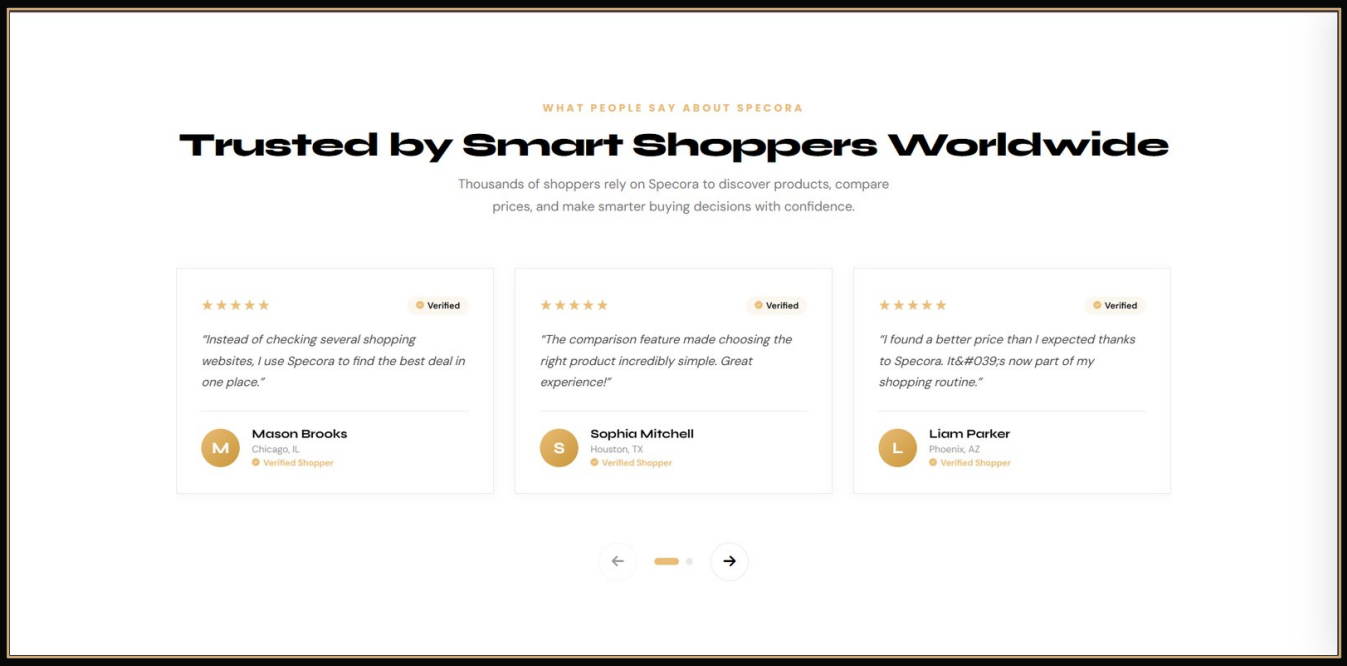

Fig 3.2: Trusted by Smart Shoppers Worldwide — approved testimonials slider

KEY FEATURES

- ✦ Heading 'Trusted by Smart Shoppers Worldwide' with a short intro
- ✦ Three testimonial cards with 5-star rating, 'Verified' badge, quote, name, city and 'Verified Shopper' label
- ✦ Slider controls (left/right arrows and dots) to move to the next testimonials
- ✦ Only testimonials approved by the admin are displayed

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Testimonials are stored in the database and shown on the homepage after the admin approves them in the Testimonials panel. They give new visitors social proof that the comparison feature helps shoppers find better prices.

HOW TO USE THIS PAGE

1. Scroll to the testimonials section.
2. Click the arrow buttons or dots to read more testimonials.
3. Admins can approve or delete testimonials from the admin panel (see Section 10).

4. FOOTER

The footer is shared by all public pages and gives access to company information, support links, policies and the newsletter.

◆ Figure 4.1 — Footer & Newsletter

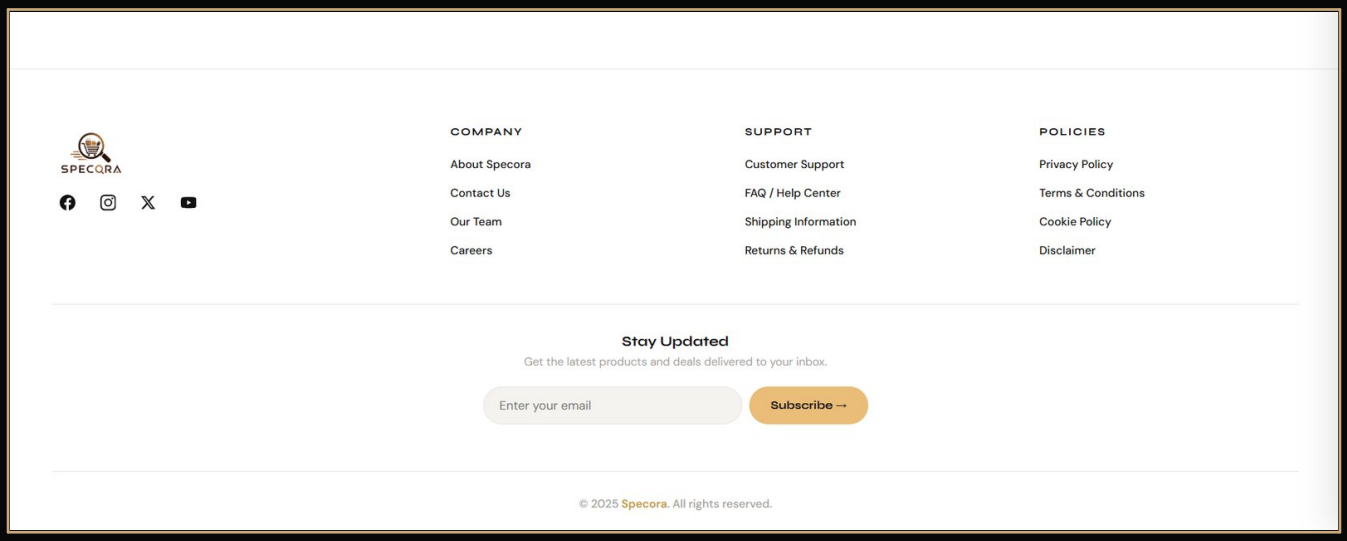

Fig 4.1: Footer with company, support, policy links, social icons and newsletter subscription

KEY FEATURES

- Specora logo with Facebook, Instagram, X and YouTube icons
- COMPANY: About Specora, Contact Us, Our Team, Careers
- SUPPORT: Customer Support, FAQ / Help Center, Shipping Information, Returns & Refunds
- POLICIES: Privacy Policy, Terms & Conditions, Cookie Policy, Disclaimer
- 'Stay Updated' newsletter box with email field and golden 'Subscribe' button, plus copyright line

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The footer keeps important links available on every page and lets visitors follow Specora on social media. The newsletter form collects an email address so the visitor can receive new products and deals.

HOW TO USE THIS PAGE

1. Scroll to the bottom of any page.
2. Click a link such as 'FAQ / Help Center' or 'Contact Us' to open that page.
3. To receive updates, type your email in 'Enter your email' and click 'Subscribe'.

5. CATEGORY & PRODUCT LISTING PAGE

Every category opens a listing page with live products from the marketplaces, a second search box, sorting and a category sidebar.

◆ Figure 5.1 — Footwear Category Listing

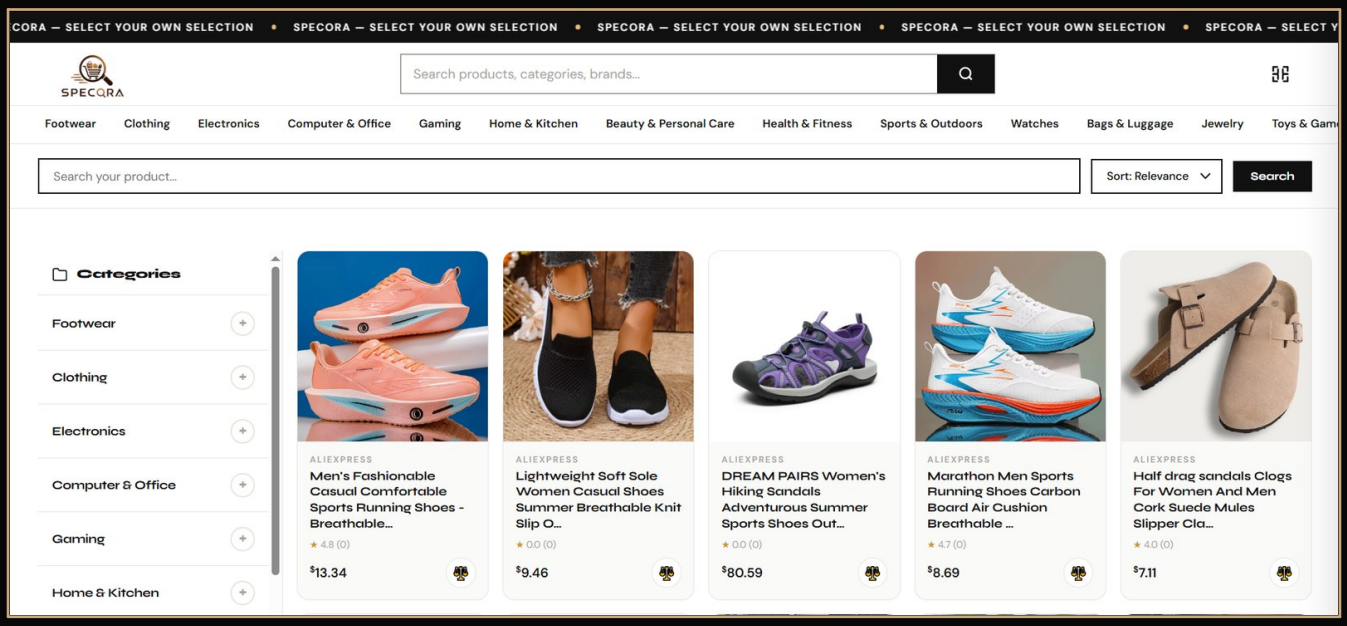

Fig 5.1: Category listing with search, sort, sidebar and live product cards

KEY FEATURES

- Page-level search box 'Search your product...' with a 'Sort: Relevance' dropdown and a black 'Search' button
- Left sidebar 'Categories' with expandable (+) main categories: Footwear, Clothing, Electronics, Computer & Office, Gaming, Home & Kitchen
- Product cards with image, marketplace label (for example ALIEXPRESS), title, star rating with review count and price in USD
- Every card has a compare (balance) button at the bottom right for adding the product to the comparison list

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The page loads live product data for the selected category. The visitor can refine the result with the search box and the sort option, switch category from the sidebar, open a product, or add it straight to the compare list with the balance icon.

HOW TO USE THIS PAGE

1. Open any category, for example Footwear.
2. Use the search box and the 'Sort' dropdown, then click 'Search' to refine the list.
3. Click the + next to a category in the sidebar to see its sub-categories.
4. Click a product card to open its detail page, or click the balance icon to add it to compare.

6. PRODUCT DETAIL & RELATED PRODUCTS

The product detail page shows everything important about one product and links to the original marketplace listing. Related products below help the visitor discover alternatives.

◆ Figure 6.1 — Product Detail

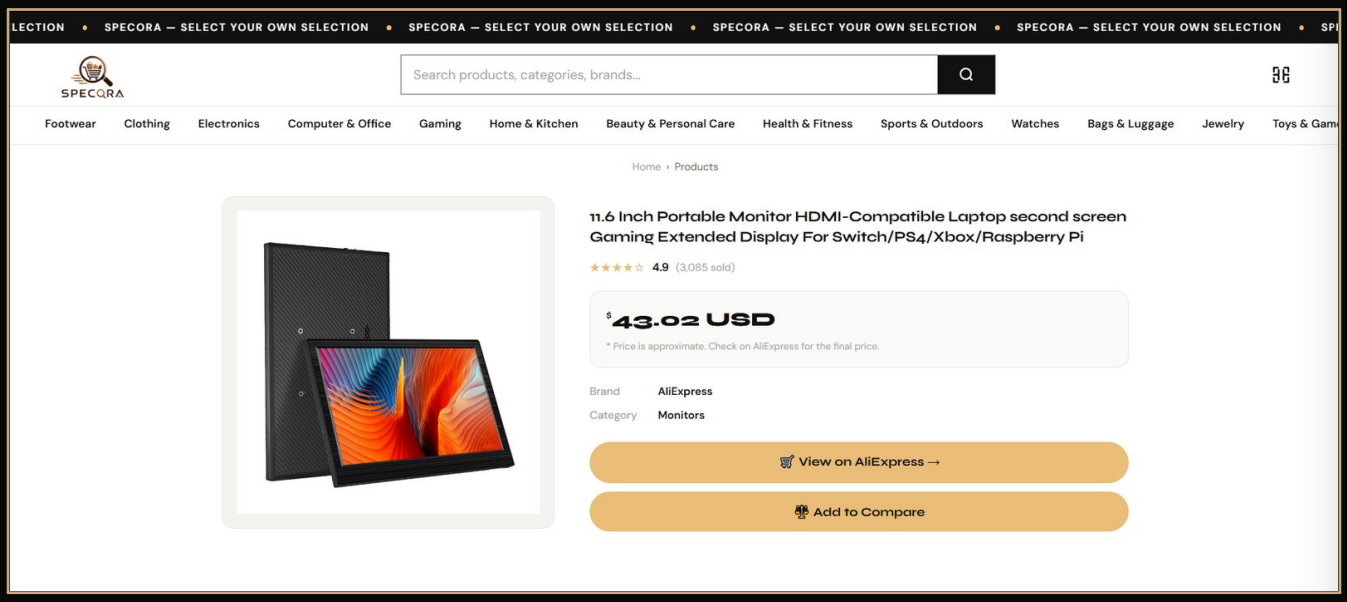

Fig 6.1: Product detail page with price, rating, brand, category and action buttons

KEY FEATURES

- Breadcrumb navigation: Home › Products
- Large product image, full title, star rating (4.9) and number sold (3,085 sold)
- Price box in USD with the note that the price is approximate and should be checked on the marketplace for the final price
- Brand / marketplace and Category fields
- Two golden buttons: 'View on AliExpress →' and 'Add to Compare'

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

This page gives the key facts about the product. 'View on AliExpress' opens the original marketplace page where the order can be placed, while 'Add to Compare' puts the product into the comparison list. The approximate-price note is shown because marketplace prices change frequently.

HOW TO USE THIS PAGE

1. Click any product card to open its detail page.
2. Check the title, rating, number sold and price.
3. Click 'Add to Compare' to compare it with other products, or 'View on AliExpress' to go to the seller page.

◆ Figure 6.2 — Related Products

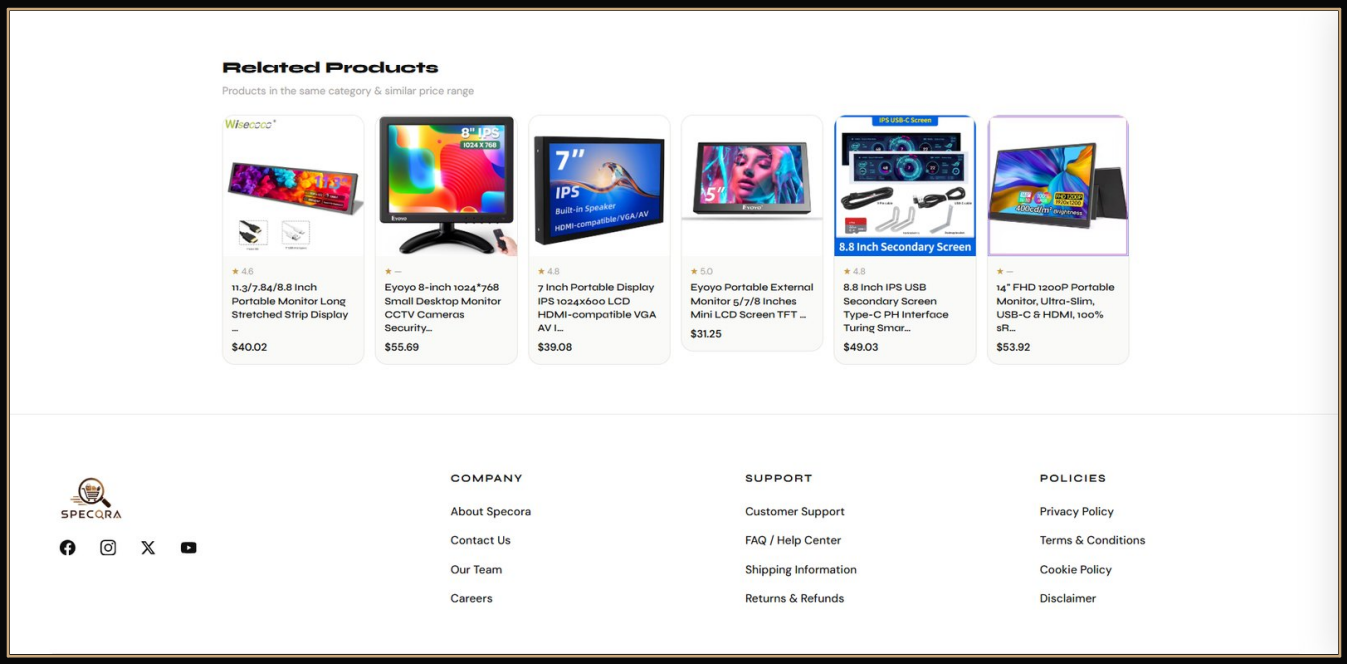

Fig 6.2: Related products in the same category and similar price range

KEY FEATURES

- Section 'Related Products — Products in the same category & similar price range'
- Horizontal row of six product cards, each with image, rating, title and price
- Shown with the footer links below the section

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Specora automatically selects products of the same category and a similar price range, so the visitor can see alternatives without searching again. The related products can also be added to the compare list.

HOW TO USE THIS PAGE

1. Scroll below the product details to 'Related Products'.
2. Click a related product to open its page.
3. Add the ones you like to compare and then open the compare page.

7. COMPARE PRODUCTS & BEST PICK

Comparison is the core feature of Specora. Several products (four in this example) are placed side by side and the system recommends the best product by rating, reviews and price.

◆ Figure 7.1 — Compare Products Table

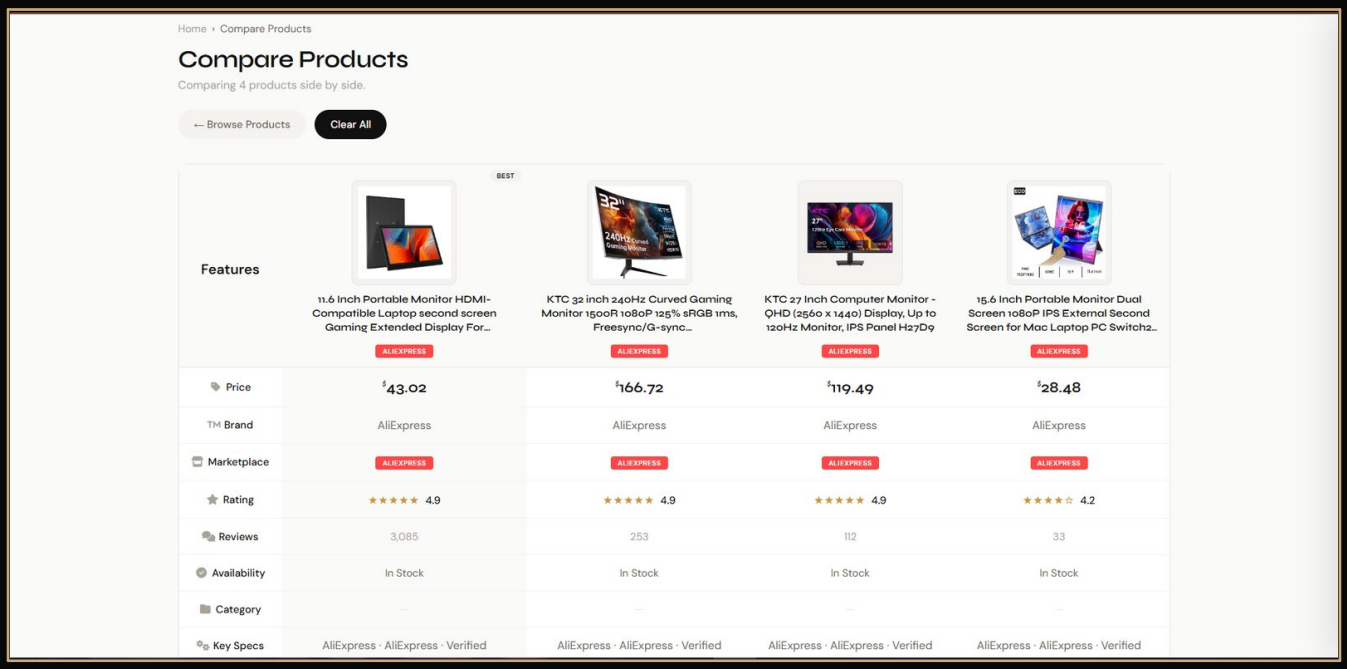

Fig 7.1: Side-by-side comparison of four products

KEY FEATURES

- Page title 'Compare Products — Comparing 4 products side by side' with 'Browse Products' and 'Clear All' buttons
- Four product columns with image, title and a red marketplace badge (ALIEXPRESS); the best product is tagged 'BEST'
- Feature rows: Price, Brand, Marketplace, Rating, Reviews, Availability, Category, Key Specs
- Price, rating and review numbers are shown clearly for each product, for example $43.02 / 4.9 / 3,085 reviews versus $166.72, $119.49 and $28.48

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

All the products that the visitor added are shown in one table, so differences in price, rating, number of reviews and availability can be read at a glance. 'Clear All' empties the list and 'Browse Products' returns to shopping to add more items.

HOW TO USE THIS PAGE

1. Add two or more products to compare from the listing pages or product detail pages.
2. Open the compare page using the compare icon in the header.
3. Read the rows from top to bottom and compare price, rating and reviews.
4. Use 'Clear All' to start a new comparison.

◆ Figure 7.2 — Product Links & Recommended Product

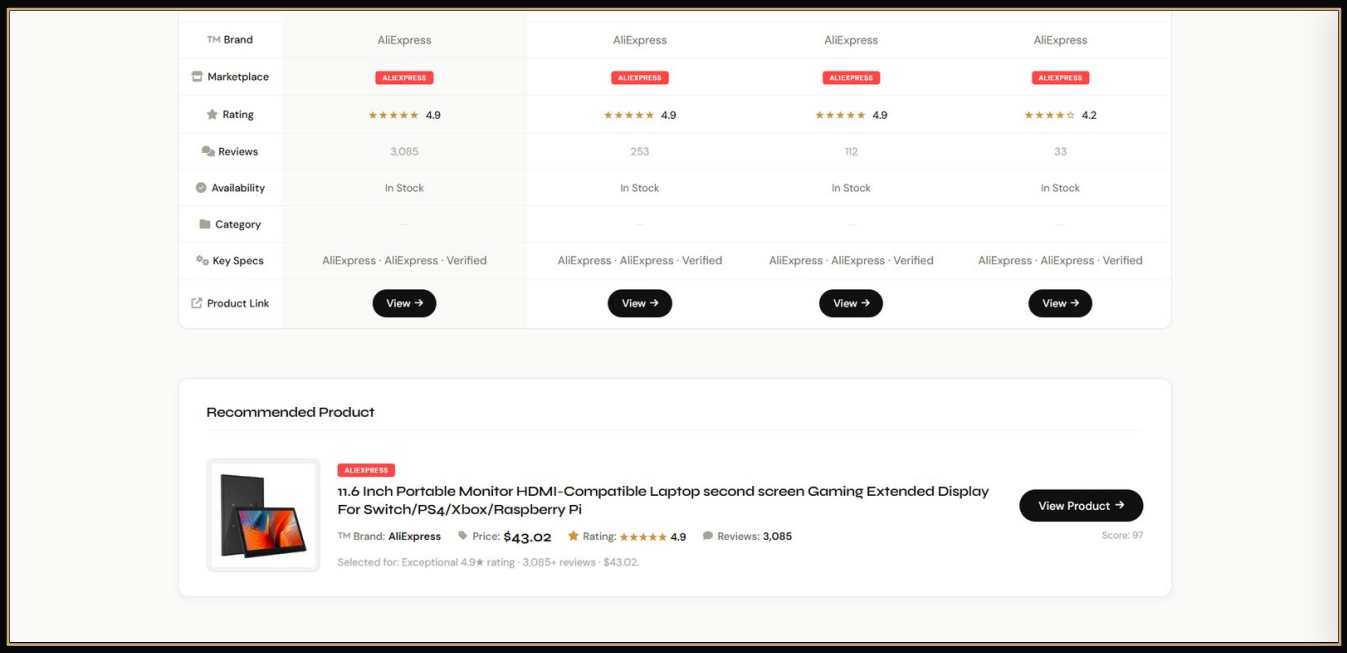

Fig 7.2: Product links and the system's recommended best product with score

KEY FEATURES

- 'Product Link' row with a black 'View →' button for each product
- 'Recommended Product' card with image, marketplace badge, title, brand, price ($43.02), rating (4.9) and reviews (3,085)
- A 'Score' value (97) and the reason: 'Selected for: Exceptional 4.9 rating · 3,085+ reviews · $43.02'
- 'View Product →' button that opens the recommended product's marketplace page

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

After comparing, Specora calculates a score for every product from its rating, number of reviews and price and recommends the best and most reasonable one. The reason for the choice is written under the product, and one click takes the visitor to the marketplace where the product can be bought.

HOW TO USE THIS PAGE

1. Scroll to the bottom of the compare page.
2. Read the 'Recommended Product' card and its score and reason.
3. Click 'View Product →' to open the marketplace page of the best product, or use the 'View' buttons above to check the other products.

8. ABOUT PAGE

The About page introduces the platform, shows its key numbers and answers the most common questions.

◆ Figure 8.1 — About Hero

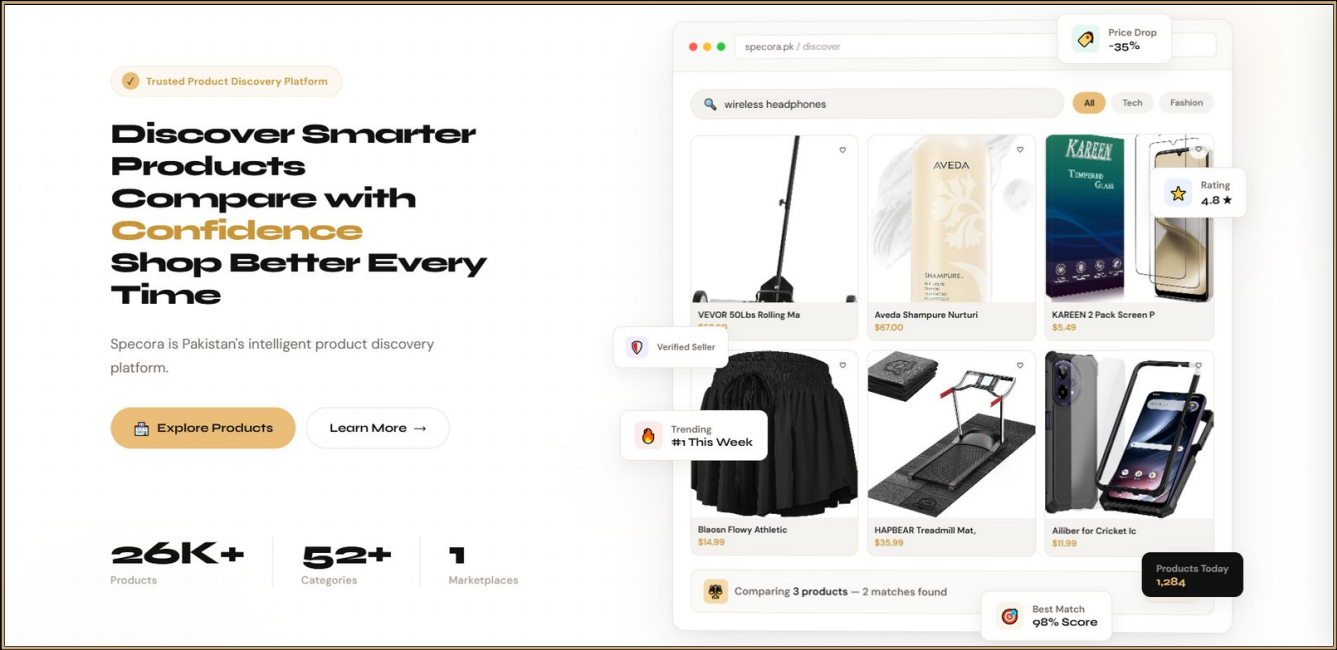

Fig 8.1: About page hero with platform preview and statistics

KEY FEATURES

- Badge 'Trusted Product Discovery Platform' and headline 'Discover Smarter Products, Compare with Confidence, Shop Better Every Time'
- Description: Specora is Pakistan's intelligent product discovery platform
- Buttons 'Explore Products' and 'Learn More →'
- Statistics: 26K+ Products, 52+ Categories, 1 Marketplace
- Preview card of the platform with floating badges: Price Drop, Rating 4.8, Verified Seller, Trending, Products Today and Best Match 98% Score

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The hero presents what Specora does and visually shows the experience: search, product grid, comparison and best-match score. The admin panel has an 'About Page' item for managing this content, and the buttons lead the visitor to the products or further down the page.

HOW TO USE THIS PAGE

1. Open 'About' from the footer or menu.
2. Read the headline and statistics to understand the platform.
3. Click 'Explore Products' to start shopping, or 'Learn More' to read further.

◆ Figure 8.2 — Frequently Asked Questions

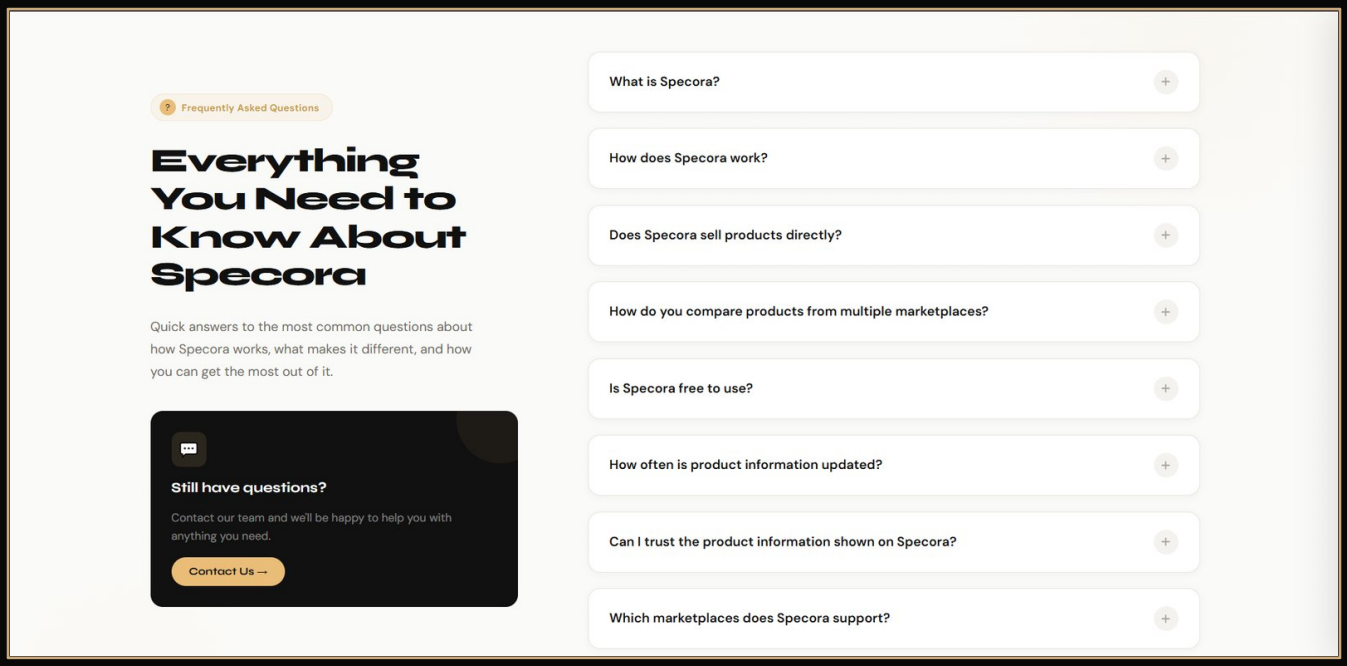

Fig 8.2: FAQ accordion with 'Still have questions?' contact card

KEY FEATURES

- Heading 'Everything You Need to Know About Specora' with an intro
- Accordion questions: What is Specora?, How does Specora work?, Does Specora sell products directly?, How do you compare products from multiple marketplaces?, Is Specora free to use?, How often is product information updated?, Can I trust the product information shown on Specora?, Which marketplaces does Specora support?
- Dark card 'Still have questions?' with a golden 'Contact Us →' button

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The FAQ answers the common questions in a collapsible list, so the page stays short. Visitors who still need help can go directly to the contact page from the dark card.

HOW TO USE THIS PAGE

1. Scroll to the FAQ section.
2. Click a question or its + icon to open the answer; click again to close it.
3. If your question is not there, click 'Contact Us →'.

9. CONTACT PAGE

Visitors can reach the Specora team through a contact form and see the support details at a glance.

◆ Figure 9.1 — Contact Information & Message Form

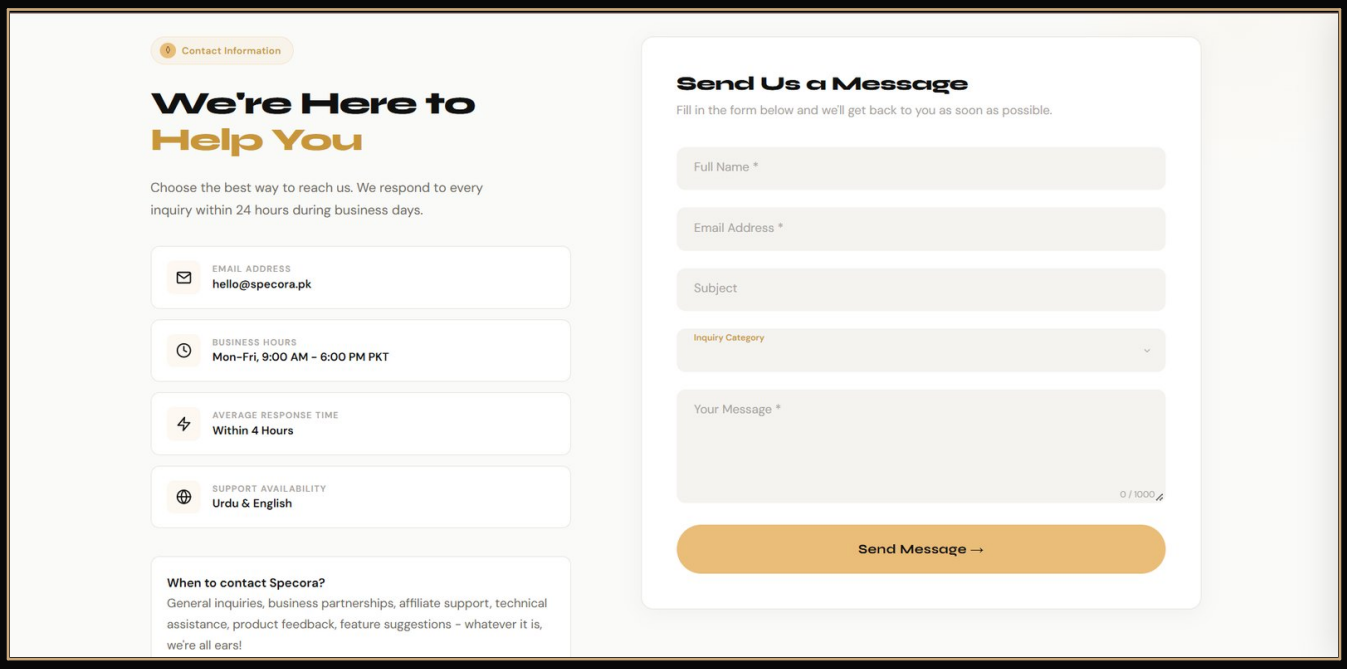

Fig 9.1: Contact page with support details and Send Us a Message form

KEY FEATURES

- Left side 'We're Here to Help You' with cards: Email Address (hello@specora.pk), Business Hours (Mon–Fri, 9:00 AM – 6:00 PM PKT), Average Response Time (within 4 hours), Support Availability (Urdu & English)
- 'When to contact Specora?' note: general inquiries, business partnerships, affiliate support, technical assistance, product feedback and feature suggestions
- Right side form: Full Name *, Email Address *, Subject, Inquiry Category (dropdown), Your Message * with a 1000-character counter
- Golden 'Send Message →' button

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The form sends the visitor's inquiry to the server, where it is saved and shown in the Contact Messages panel of the admin area. The required fields (marked with *) are validated, and the character counter keeps the message within 1000 characters.

HOW TO USE THIS PAGE

1. Open 'Contact Us' from the footer.
2. Enter your Full Name and Email, an optional Subject, and choose an Inquiry Category.
3. Write your message (maximum 1000 characters).
4. Click 'Send Message →'; the team replies within the stated response time.

10. ADMIN PANEL — DASHBOARD & TESTIMONIALS

The admin panel is the private back office of Specora. A fixed sidebar gives access to every management tool: Dashboard, Testimonials, Contact Messages, Add Admin, Categories, Analytics, About Page and Edit Profile.

◆ Figure 10.1 — Admin Dashboard

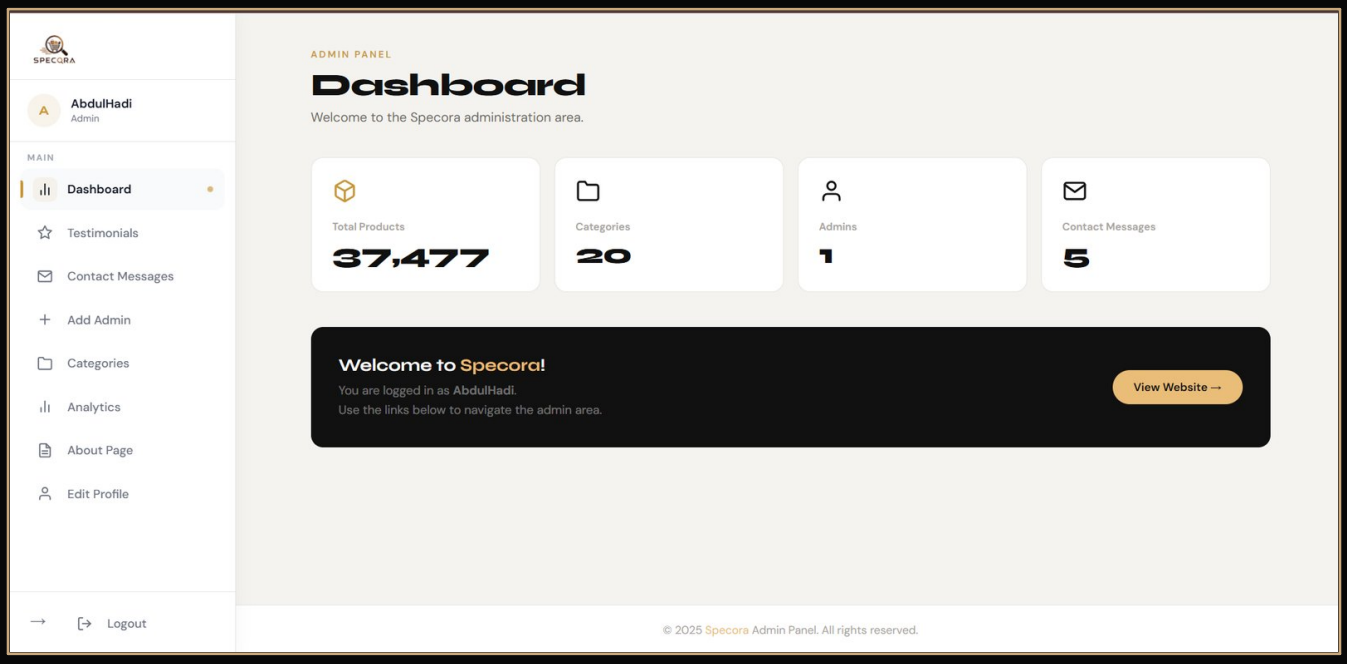

Fig 10.1: Admin dashboard with statistics and welcome card

KEY FEATURES

- Sidebar with logo, logged-in admin (AbdulHadi — Admin) and menu: Dashboard, Testimonials, Contact Messages, Add Admin, Categories, Analytics, About Page, Edit Profile, Logout
- Four statistic cards: Total Products 37,477, Categories 20, Admins 1, Contact Messages 5
- Dark welcome card 'Welcome to Specora!' with a golden 'View Website →' button

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The dashboard shows the current size of the platform in one glance. The numbers are read from the database, so they change as products, categories, admins or messages change. 'View Website' opens the public site in the same session.

HOW TO USE THIS PAGE

1. Log in to the admin panel; the dashboard opens first.
2. Check the four statistic cards.
3. Use the sidebar to open any tool, or click 'View Website →' to see the public site.
4. Click 'Logout' at the bottom of the sidebar when you finish.

◆ Figure 10.2 — Testimonials Management

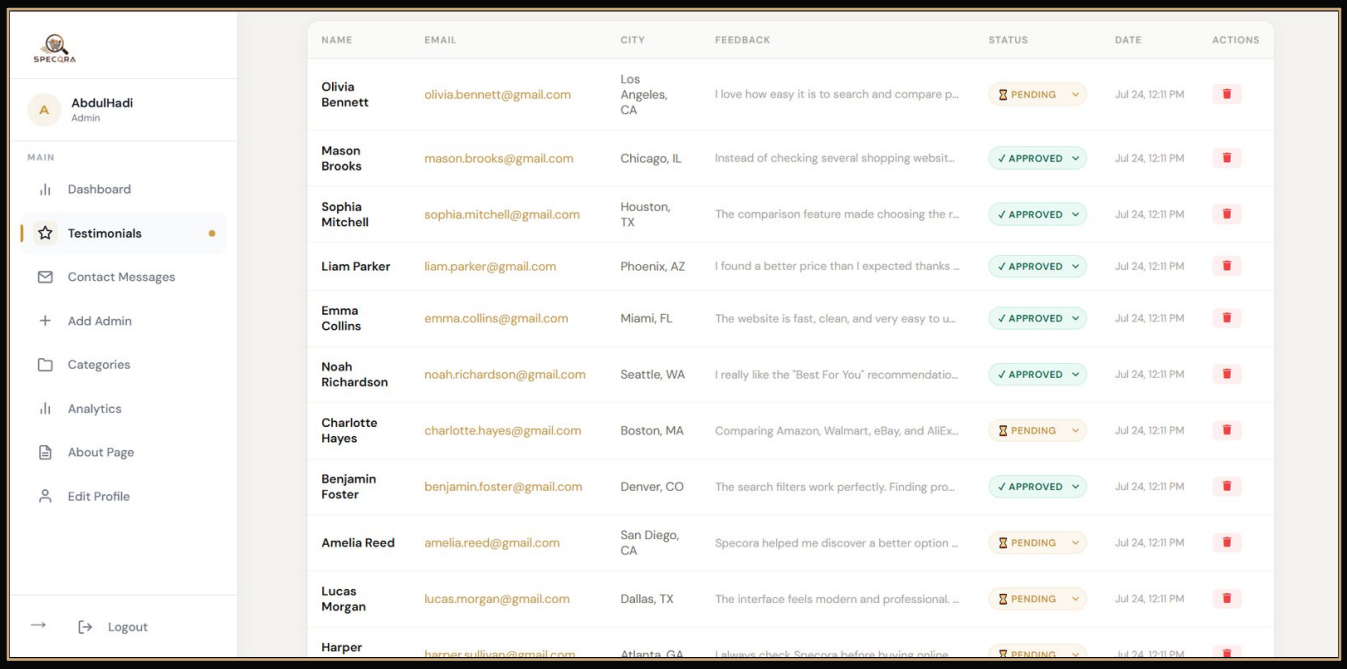

Fig 10.2: Testimonials table with status badges and delete action

KEY FEATURES

- Table columns: Name, Email, City, Feedback, Status, Date, Actions
- Status dropdown badges: PENDING (orange) and APPROVED (green)
- Red delete button on every row
- Entries from customers such as Olivia Bennett (Los Angeles), Mason Brooks (Chicago) and Sophia Mitchell (Houston)

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Every testimonial submitted by a visitor arrives here as Pending. The admin changes the status to Approved to show it on the homepage slider, or deletes it. Pending testimonials are not shown to the public.

HOW TO USE THIS PAGE

1. Open 'Testimonials' from the sidebar.
2. Read the feedback text and check the visitor's details.
3. Change the status badge from PENDING to APPROVED to publish it on the homepage.
4. Click the red delete icon to remove an unwanted testimonial.

11. ADMIN PANEL — MESSAGES & ADMINS

These two tools handle communication with visitors and access control for the admin area.

◆ Figure 11.1 — Contact Messages

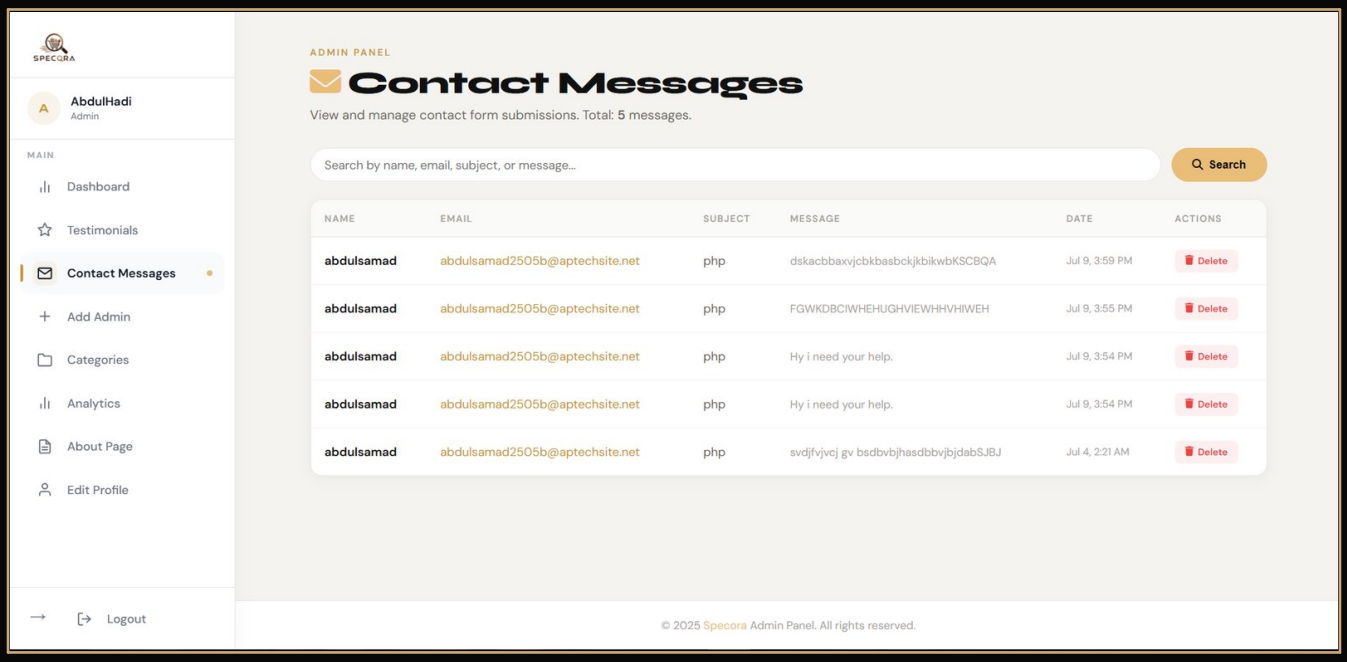

Fig 11.1: Contact Messages page with search and delete

KEY FEATURES

- Heading 'Contact Messages' with the total count (Total: 5 messages)
- Search bar 'Search by name, email, subject, or message...' with a golden 'Search' button
- Table columns: Name, Email, Subject, Message, Date, Actions
- Red 'Delete' button on each message

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Every message sent from the public contact form is listed here with the newest first. The admin can search the list, read each inquiry and reply to the sender by email, and delete messages that are finished or are spam.

HOW TO USE THIS PAGE

1. Open 'Contact Messages' from the sidebar.
2. Type a name, email, subject or word from the message in the search bar and click 'Search'.
3. Read the message and answer the sender using the email shown.
4. Click 'Delete' to remove a message you no longer need.

◆ Figure 11.2 — Manage Admins

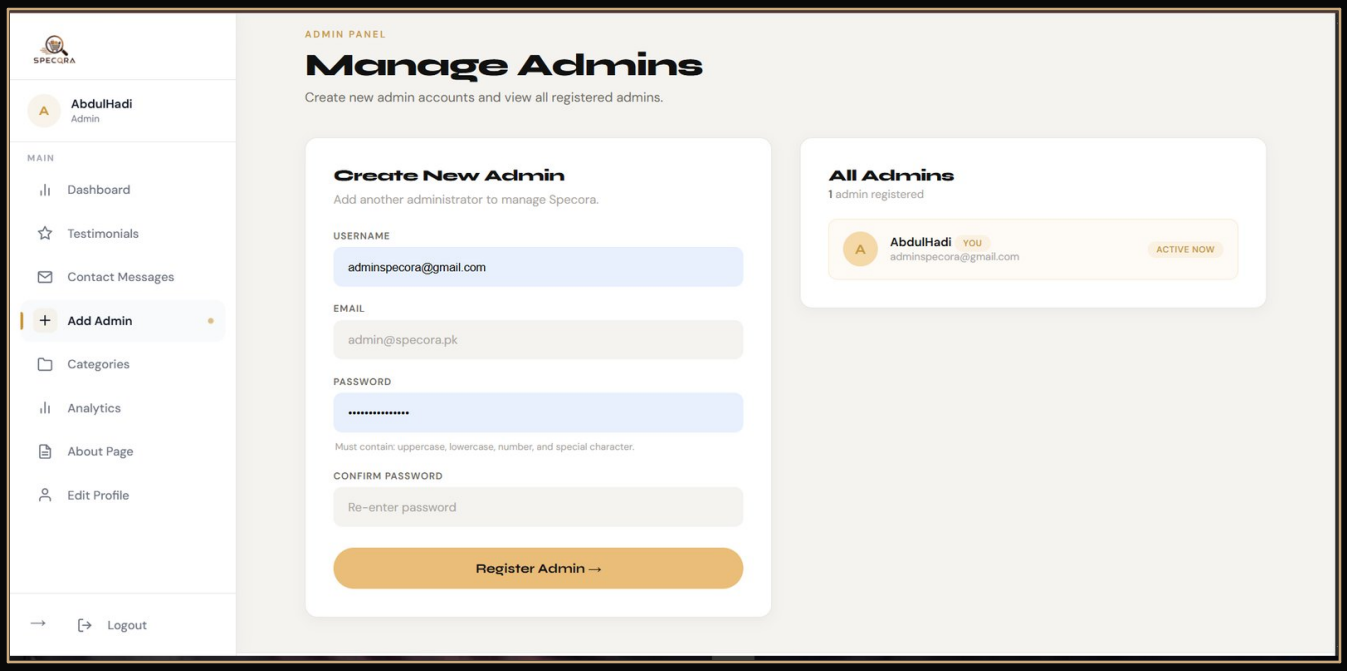

Fig 11.2: Create New Admin form and All Admins list

KEY FEATURES

- 'Create New Admin' form: Username, Email, Password (must contain uppercase, lowercase, number and special character) and Confirm Password
- Golden 'Register Admin →' button
- 'All Admins' card listing the registered admins with a 'YOU' tag and an 'ACTIVE NOW' status badge (1 admin registered)

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

Only a logged-in admin can create another admin. The password rules force a strong password, and the 'All Admins' card shows who has access to the panel.

HOW TO USE THIS PAGE

1. Open 'Add Admin' from the sidebar.
2. Enter a username and email, then a strong password and confirm it.
3. Click 'Register Admin →'; the new admin appears in the 'All Admins' list.

12. ADMIN PANEL — CATEGORIES & PROFILE

Categories control what visitors see on the homepage and in the sidebar, and the profile page keeps the admin's own account secure.

◆ Figure 12.1 — Manage Categories

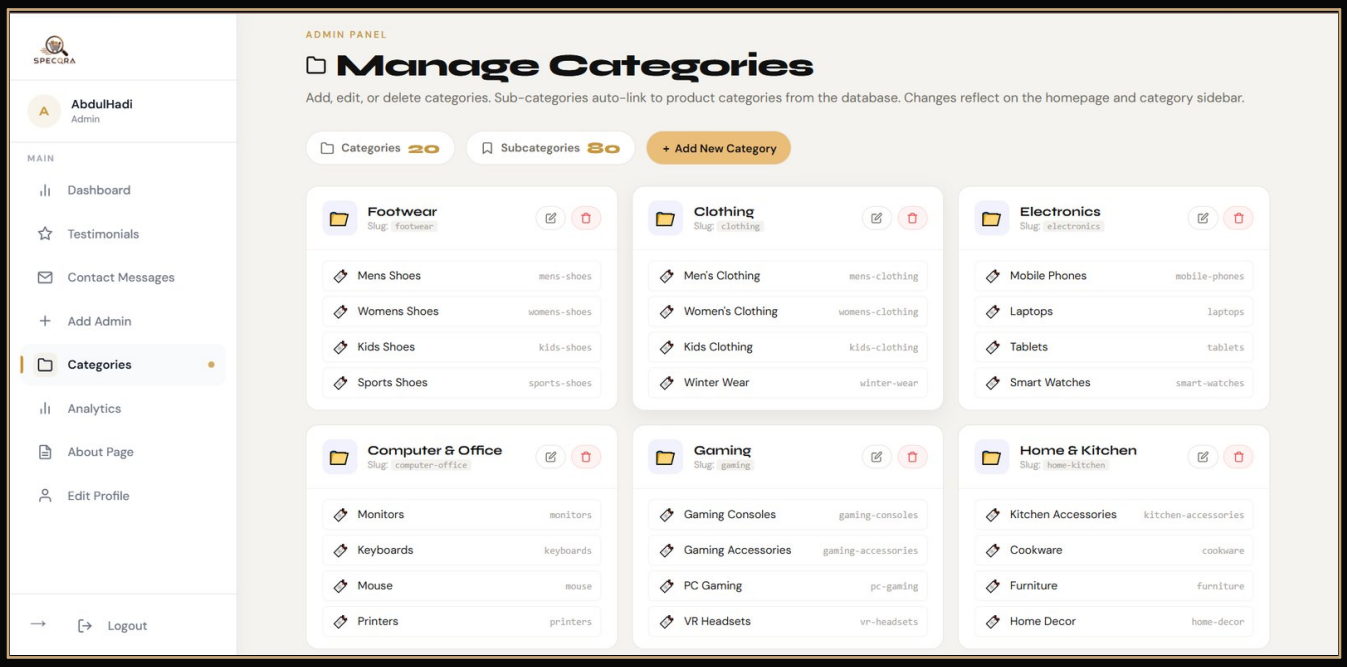

Fig 12.1: Manage Categories page with sub-categories, edit and delete

KEY FEATURES

- Counters: Categories 20 and Subcategories 80, with a golden '+ Add New Category' button
- Category cards (Footwear, Clothing, Electronics, Computer & Office, Gaming, Home & Kitchen ...) each showing its slug (for example footwear, computer-office)
- Sub-categories listed inside each card with their own slug (mens-shoes, womens-shoes, kids-shoes, sports-shoes ...)
- Edit (pencil) and delete (red bin) buttons on every category card
- Note: sub-categories auto-link to product categories from the database and changes reflect on the homepage and the category sidebar

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The admin can add, edit or delete categories and sub-categories without touching the code. The slug of each item becomes the 'cat' value in the category page URL, and any change appears immediately on the homepage cards and the sidebar of the listing pages.

HOW TO USE THIS PAGE

1. Open 'Categories' from the sidebar.
2. Click '+ Add New Category' to create a category and its sub-categories.
3. Click the pencil icon on a card to edit its name, slug or sub-categories.
4. Click the red bin icon to delete a category you no longer need.

◆ Figure 12.2 — Edit Profile

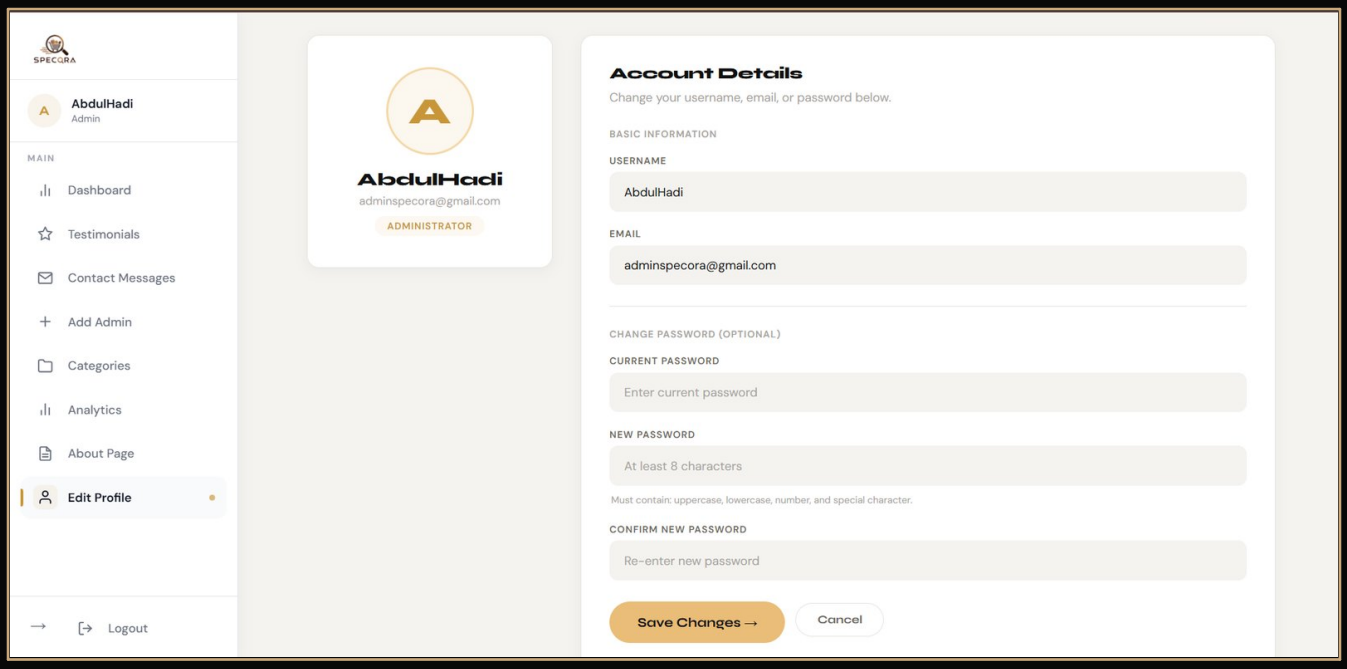

Fig 12.2: Account Details form for username, email and password change

KEY FEATURES

- Profile card with initial avatar, username (AbdulHadi), email and ADMINISTRATOR badge
- 'Account Details' form: Username and Email under Basic Information
- Optional 'Change Password' section: Current Password, New Password (at least 8 characters, with uppercase, lowercase, number and special character) and Confirm New Password
- 'Save Changes →' and 'Cancel' buttons

FUNCTIONALITY — WHAT HAPPENS ON THIS PAGE

The logged-in admin can update their own username and email and, if needed, change the password by entering the current one first. The strength rules are shown under the password field.

HOW TO USE THIS PAGE

1. Open 'Edit Profile' from the sidebar.
2. Change the username or email if required.
3. To change the password, fill in the current password, then the new password twice.
4. Click 'Save Changes →' to save, or 'Cancel' to leave without changes.

13. WEBSITE PAGE MAP

A summary of every page documented above and the job it does.

Page	Purpose
Homepage	Search, category menu, hero banner, category cards, how-it-works, testimonials, newsletter
Category / Listing	Live products of a category with search, sort, sidebar and compare button
Product Detail	Product facts, approximate price, marketplace link, Add to Compare, related products
Compare Products	Side-by-side table of the selected products and the recommended best product
About	Platform introduction, statistics and FAQ accordion
Contact	Support details and contact form
Admin Dashboard	Totals for products, categories, admins and messages
Admin Testimonials	Approve or delete visitor testimonials
Admin Contact Messages	Search, read and delete inquiries
Admin Add Admin	Create admins with a strong password
Admin Categories	Add, edit and delete categories and sub-categories
Admin Edit Profile	Update username, email and password

CONCLUSION

Specora saves a shopper's time and money: one search, live data from several marketplaces, a clear side-by-side comparison and a score-based recommendation of the best and most reasonable product. The admin panel gives the owner full control over categories, testimonials, messages and administrators without changing any code.

> *"Search once. Compare everything. Buy from the best marketplace."*
